litillbuly Android 13 Car Radio 8 Inch Touch Screen Stereo 2GB+64GB

litillbuly Android 13 8-Inch Car Radio User Manual

Model: Android 13 Car Radio 8 Inch Touch Screen Stereo 2GB+64GB

Brand: litillbuly

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your litillbuly Android 13 8-inch car radio. This unit features an 8-inch touch screen, Android 13 operating system, 2GB RAM, 64GB internal storage, built-in wireless Apple CarPlay and Android Auto, GPS navigation, Wi-Fi connectivity, Bluetooth hands-free calling, and support for steering wheel controls. Please read this manual thoroughly before use to ensure proper functionality and safety.

2. Applicable Car Models

This car radio is compatible with the following vehicle models:

- **For Buick:** Enclave (2008-2012)
- **For GMC:** Acadia (2007-2012), Savana (2008-2013), Sierra (2007-2011), Yukon (2007-2013)
- **For Chevrolet:** Silverado 1500HD (2007-2012) (Second Generation), Silverado 2500HD (2007-2012) (Second Generation), Silverado 3500HD (2007-2012) (Second Generation), Avalanche (2007-2011) (GMT900), Express Van (2008-2011), Impala (2006-2012) (Ninth Generation), Equinox (2005-2009) (First Generation), HHR (SS/LT/Panel/LS) (2006-2011), Monte Carlo (2006-2007) (Seventh Generation), Suburban (2007-2014) (Tenth Generation), Tahoe (2007-2014) (Third Generation), Traverse (2009-2012).

Note: Not fit 07 Silverado Classic.

3. Package Contents

Verify that all items are present in the package:

- Car Radio Unit
- USB Cable (x2)
- Speaker
- Microphone
- GPS Module
- RCA Cable
- Power Cable
- Reversing Line
- Screwdriver
- Crowbar

- Antenna
- Antenna Adapter Cable
- CANBUS Decoder

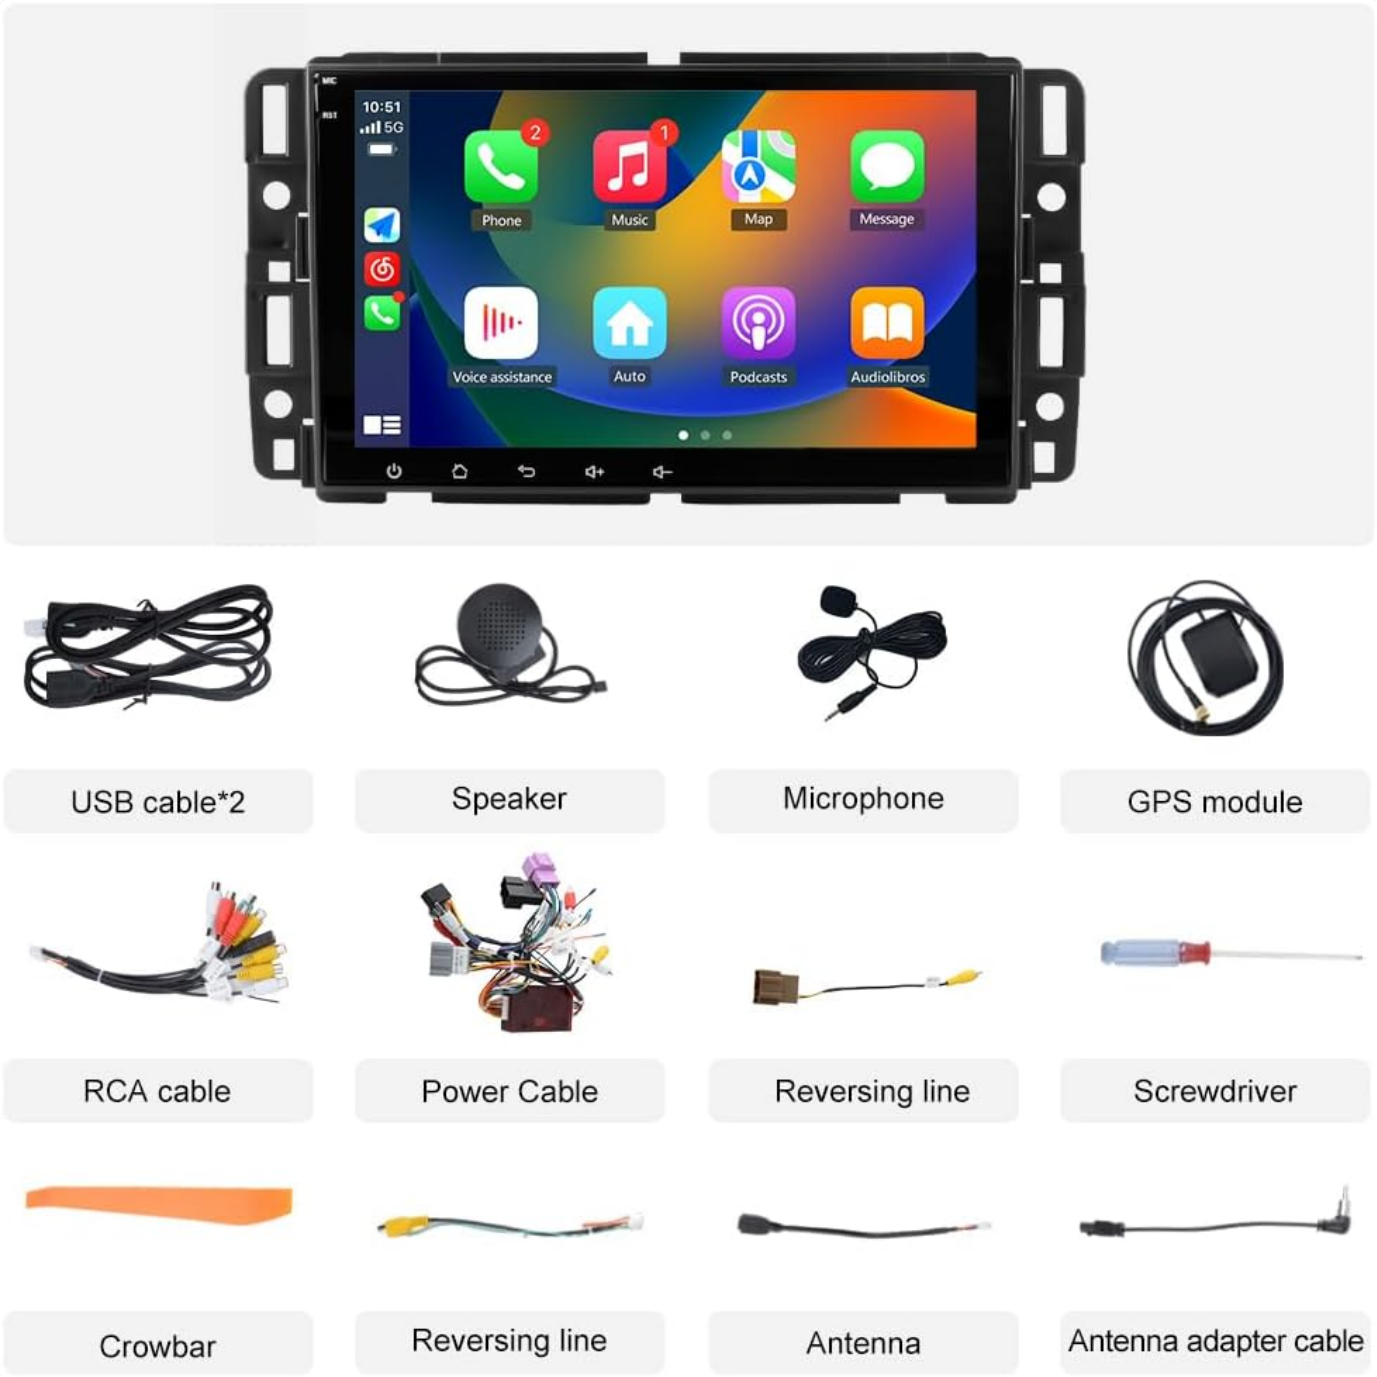

Image: All components included in the product package.

4. Setup and Installation

Follow these general steps for installing your car radio. Professional installation is recommended if you are unfamiliar with car audio systems.

1. **Remove Old Radio:** Use appropriate tools (like the included crowbar and screwdriver) to carefully remove the existing car radio and its surrounding trim.
2. **Connect Wiring Harness:** Connect the provided wiring harness to the vehicle's factory harness. Ensure all connections are secure.
3. **Connect Accessories:** Connect the GPS antenna, external microphone, USB cables, and any other accessories (e.g., reversing camera input) to the new car radio unit. Ensure the antenna is firmly connected.

4. **Test Functionality:** Before fully securing the unit, temporarily power on the vehicle and test basic functions like power, audio, touch screen response, and radio reception.
5. **Secure Unit:** Carefully slide the new car radio into the dashboard opening and secure it with screws or clips. Reinstall any removed trim panels.

4.1 Troubleshooting No Sound After Installation

If you experience no sound, particularly from the rear speakers, after installation, consider the following:

- **Check 16-pin Plugs:** Ensure the two 16-pin plugs are correctly positioned. Swapping their positions might resolve the issue.
- **Verify Audio Cable Connection:** Confirm that the audio cables (RCA IN/OUT) are connected correctly.
- **AMP Cable Connection:** If your vehicle has an external amplifier, ensure the AMP control cable (usually a blue wire labeled 'AMP-CONT' or similar) is connected to the radio's amplifier output.

5. Operating Instructions

5.1 Wireless Apple CarPlay & Android Auto

The unit supports wireless Apple CarPlay and Android Auto. Connect your smartphone via Bluetooth to access navigation, music, calls, and messages directly on the car radio screen.

5.2 Bluetooth Hands-Free and Steering Wheel Controls (SWC)

Pair your Android or iOS phone via Bluetooth for hands-free calling and audio streaming. The unit supports existing steering wheel controls, allowing you to manage calls, adjust volume, and change tracks safely while driving. An external microphone is included for improved call clarity.

5.3 Multiple Media Playback Methods

The unit features a high-quality digital stereo (RDS) FM tuner for automatic or semi-automatic radio station searching. You can adjust the volume for individual speakers and utilize the stereo EQ with presets like jazz, rock, pop, and classic. Multimedia can be played from local storage or streamed online via Wi-Fi/WLAN.

5.5 Reversing Assistance and Mirror Link

Connect a rear reversing camera (sold separately) for parking assistance. The unit also supports Mirror Link for both Android and iOS devices, allowing you to mirror your phone's screen onto the car radio display.

6. Maintenance

To ensure the longevity and optimal performance of your car radio:

- **Screen Cleaning:** Use a soft, lint-free cloth to clean the touch screen. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for and install software updates to improve performance and add new features.
- **Avoid Extreme Temperatures:** Do not expose the unit to extreme heat or cold, as this can affect its electronic components.
- **Secure Connections:** Ensure all cables and connections remain secure to prevent intermittent issues.

7. Troubleshooting

If you encounter issues, refer to the following common troubleshooting steps:

- **Unit Not Powering On:** Check all power connections and fuses. Ensure the vehicle's ignition is on.
- **No Sound:** Refer to Section 4.1 for specific troubleshooting steps regarding sound issues.
- **Bluetooth/CarPlay/Android Auto Connectivity Issues:** Ensure Bluetooth is enabled on both the unit and your phone. Try forgetting the device on both ends and re-pairing. Check for software updates.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Touch Screen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (consult support if unsure).
- **System Slow/Lagging:** Close unnecessary background applications. Clear cache if possible. Consider a factory reset as a last resort.

8. Specifications
