6. MAINTENANCE

- **Frame Cleaning:** Wipe the metal frame with a soft, damp cloth.
- **Regular Checks:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.

7. TROUBLESHOOTING

If you encounter any issues with your dresser, refer to the following common solutions:

Problem	Possible Cause	Solution
Dresser is wobbly or uneven.	Uneven floor surface; loose adjustable feet.	Adjust the leveling feet at the bottom of the frame until the dresser is stable. Ensure all feet are making contact with the floor.
Drawers do not slide smoothly.	Drawer not properly inserted; obstruction in the slide track; overloaded drawer.	Ensure the drawer is correctly aligned and fully inserted. Check for any objects obstructing the slide mechanism. Reduce the weight in the drawer if it is overloaded.
Missing parts during assembly.	Packaging error.	Carefully check all packaging materials. If parts are still missing, contact WLIVE customer support immediately with your purchase details.
Dresser appears unstable.	Anti-tilt device not installed or improperly installed.	Ensure the anti-tilt device is correctly installed and securely anchored to a wall stud. This is crucial for safety.
