## Step-by-Step Assembly:

- 1. Unpack Components:** Carefully open all boxes (Carton A, B, C, D) and lay out all parts. Verify that all components listed in the packing list are present and in good condition.
- 2. Assemble Armrest Units (Carton A & B):** For each armrest unit, screw the provided legs (A4-3) and connecting plates (A4-1) onto the base of the armrest pieces (A1 and A2).
- 3. Connect Seat Frames (Carton B & C):** Insert the long screws (A4-5) through the designated holes in the seat frame (B1) and assemble onto the corresponding piece (B2). Secure with nuts (A4-6) and tighten using the provided tool (A4-4). Repeat for all seat frames.
- 4. Prepare Cushions:** Open the compressed packaging of all cushions (A3, B3, B4, D2). Tap them gently to help

them fluff up. For optimal results, it is recommended to leave the sofa in place for at least 48 hours after assembly to allow cushions to fully expand.

5. **Place Cushions:** Once the frames are assembled, place the reshaped seat and back cushions onto their respective modules.
6. **Connect Modules:** Use the plastic connectors (A4-2) to link the individual sofa modules together. Insert the connectors into the holes on the sides of each seat frame to create your desired configuration.
