Garvee 24V Ride On UTV User Manual

Model: 3Gxk_GcwcVpsin4IWytKow5u

INTRODUCTION

Thank you for choosing the Garvee 24V Ride On UTV. This manual provides essential information for the safe assembly, operation, and maintenance of your new electric vehicle. Please read this manual thoroughly before use and retain it for future reference. This product is designed for children aged 3 years and up.

IMPORTANT SAFETY INFORMATION

To ensure the safety of the user and others, please adhere to the following guidelines:

- Always supervise children when operating the vehicle.
- Keep the car and remote control away from water and rain to prevent electrical damage.
- Ensure the vehicle is fully charged at least once per month, even when not in use, to maintain battery health.
- Always use the provided seat belts.
- Do not exceed the maximum load capacity of 132 LBS (60 KG).
- Operate the vehicle on flat, dry surfaces. Avoid steep inclines, rough terrain, or public roads.
- Regularly inspect the vehicle for any loose parts, damage, or wear before each use.

WHAT'S IN THE BOX

Upon opening the package, please ensure all components are present and undamaged:

- Garvee 24V Ride On UTV (main body)
- Remote Control
- Charger
- 2 x 12V Batteries (pre-installed or separate, check packaging)
- Assembly Hardware (screws, nuts, etc.)
- User Manual (this document)

ASSEMBLY INSTRUCTIONS

Assembly typically requires adult supervision and basic tools. Refer to the detailed diagrams in the included assembly guide for specific steps. General steps include:

1. **Wheel Installation:** Attach all four wheels securely using the provided hardware.
2. **Steering Wheel Assembly:** Connect the steering wheel to the steering column.
3. **Seat Installation:** Secure the seat(s) into position.
4. **Battery Connection:** Connect the battery terminals. Ensure correct polarity.
5. **Accessory Attachment:** Install any additional accessories like mirrors or roll bars.

Before first use, fully charge the battery for 8-12 hours.

PRODUCT FEATURES

Powerful 24V System and Long-Lasting Battery

The Garvee UTV is equipped with a robust 24V/4x75W motor system, providing strong and stable power for various terrains. The high-capacity 7AH battery offers approximately 50-70 minutes of continuous playtime, depending on load, speed, surface, and temperature. The full-metal suspension system enhances shock absorption for a smoother ride.

2-Seater Design with Dual Driving Modes

Featuring an extended seat length of 24.8 inches, this UTV comfortably accommodates two children. It offers two driving modes: parental remote control for younger children and manual operation for older, more experienced users. Built-in seat belts ensure safety for both occupants.

Smooth Braking and Easy-Drag 4WD

Advanced smart chips provide a customized soft braking system, ensuring smooth stops and reducing impact. The Easy-Drag technology automatically disengages the front wheel motor when the car is turned off, allowing for effortless manual movement of the vehicle.

Comprehensive Safety Features

The UTV includes 5 auto-reset overheat protectors to prevent motor and circuit overload. Wear-resistant wheels and full metal suspensions provide a stable ride. Double safety locks on the doors and a safety belt further enhance user protection.

4-WHEELS SPRING SHOCK ABSORBERS

Image: Front view of the Garvee 24V Ride On UTV in a desert setting, with an inset diagram illustrating the 4-wheel spring shock absorbers and their effectiveness on different surfaces like grass, sand, rock, mud, and brick roads.

WEAR-RESISTANT TIRES

OPERATING INSTRUCTIONS

First Use and Charging

Before the first use, ensure the battery is fully charged. Connect the charger to the charging port (typically located near the dashboard or under the seat) and plug it into a standard wall outlet. The charging time is approximately 8-12 hours. Do not overcharge.

Manual Operation

1. Ensure the vehicle is turned on using the power button.
2. The child can press the foot pedal to accelerate.
3. Steer using the steering wheel.
4. Release the foot pedal to engage the automatic braking system.

Remote Control Operation

The 2.4G remote control allows parents to safely guide the vehicle, especially for younger children.

1. **Pairing:** Follow the remote control's specific instructions for pairing with the vehicle.
2. **Controls:** The remote typically has buttons for forward/backward, left/right steering, speed selection (high/low), and an emergency stop button.
3. **Priority:** The remote control typically overrides manual operation for safety.

Multimedia Features

The vehicle may include a music player, bright lights, and radio functionality. Refer to the dashboard controls for operation of these features.

MAINTENANCE

Battery Care

- Charge the battery fully after each use.
- If storing for extended periods, charge the battery at least once a month.
- Do not store the battery in extreme temperatures.
- Only use the charger provided by Garvee.

Cleaning and Storage

- Wipe the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Avoid spraying water directly onto electrical components.
- Store the vehicle indoors in a dry place, away from direct sunlight and moisture.

General Inspection

- Regularly check all nuts and bolts for tightness.
- Inspect wheels and tires for wear or damage.
- Ensure all electrical connections are secure.

SPECIFICATIONS

Feature	Detail
Overall Size (L x W x H)	52.4 x 36.2 x 31.5 inches

TROUBLESHOOTING

If you encounter issues with your Garvee UTV, please refer to the following common problems and solutions:

- **Vehicle does not move:**
 - Check if the power button is ON.
 - Ensure the battery is fully charged and properly connected.
 - Verify that the foot pedal is pressed down completely.
 - If using remote control, ensure it is paired and has fresh batteries.
- **Short playtime:**
 - Battery may not be fully charged.
 - Operating on rough terrain or carrying heavy loads can reduce playtime.
 - Battery may be old and require replacement.
- **Vehicle runs slowly:**
 - Battery charge is low.
 - Operating on an incline or soft surfaces.
 - Overload (exceeding maximum weight capacity).
- **Remote control not working:**
 - Replace remote control batteries.
 - Re-pair the remote control with the vehicle.

For issues not listed here, please contact Garvee customer support.

WARRANTY AND SUPPORT

Garvee is committed to providing high-quality products. For any questions, concerns, or technical assistance, please contact our customer support team. Please have your model number (3Gxk_GcwcVpsin4IWytKow5u) and purchase information ready when contacting support.

For customer support, please visit the Garvee Store on Amazon or refer to the contact information provided with your purchase.

Safety Information Reminder: Keep car and remote away from water and rain. Keep full charging one time at least per month.
