4. MAINTENANCE AND CARE

4.1. Cleaning the Device

- Always power off and unplug the device before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a screen cleaner for the display.
- For the chassis, use a soft, dry cloth. Avoid harsh chemicals or abrasive materials.
- Keep vents clear of dust and debris to ensure proper cooling.

4.2. Battery Care

- Avoid exposing the device to extreme temperatures.
- For optimal battery health, avoid consistently discharging the battery completely or keeping it at 100% charge for extended periods.
- If storing the device for a long time, charge the battery to approximately 50-60%.

4.3. General Handling

- Handle the device with care to prevent physical damage.
- Avoid placing heavy objects on the laptop.
- Keep the device away from liquids and excessive moisture.

5. TROUBLESHOOTING

This section addresses common issues you might encounter. For more complex problems, please refer to the ASUS support website.

5.1. Device Does Not Power On

- Ensure the power adaptor is securely connected to both the laptop and a working power outlet.
- Verify the power outlet is functional by plugging in another device.
- Allow the device to charge for a period before attempting to power it on again.

5.2. Display Issues

- If the screen is blank, ensure the device is powered on and not in sleep mode.
- Adjust display brightness settings.
- If an external monitor is connected, ensure the display output settings are correct (e.g., duplicate, extend).

5.3. Connectivity Problems (Wi-Fi/Bluetooth)

- Check if Wi-Fi or Bluetooth is enabled in Windows settings.
- Restart your router or Bluetooth device.
- Update network adapter drivers through Device Manager.
