SAFETY INFORMATION

Your safety is paramount. Please adhere to the following safety guidelines:

- **Weight Limit:** The loft bed is designed to support a maximum weight of 400 pounds. Do not exceed this limit.
- **Guardrail:** The bed is equipped with a 13-inch safety guardrail to prevent accidental falls. Ensure it is properly installed and secured at all times.
- **Mattress Thickness:** For optimal safety and comfort, use a mattress with a maximum thickness of 8 inches.
- **Wall Attachment:** Utilize the integrated wall-attachment feature for enhanced stability and to prevent tipping.
- **Assembly:** Assembly requires at least two adults. Do not attempt to assemble alone.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight and secure.
- **Clothes Hanging Rod:** The clothes hanging rod is positioned to minimize accidental bumps. Exercise caution when using.
- **Rounded Corners:** The design incorporates rounded corners at the junction of the side ladder and guardrail for

added safety.

MAINTENANCE

To ensure the longevity and appearance of your VINGLI Loft Bed, follow these maintenance tips:

- **Cleaning:** Wipe down metal and wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Dusting:** Regularly dust all surfaces to prevent buildup.
- **Hardware:** Periodically inspect all bolts, screws, and connections. Tighten any that have become loose over time to maintain structural integrity.
- **LED Lights:** If LED lights malfunction, check connections. Do not attempt to repair electrical components yourself; contact customer support.

TROUBLESHOOTING

If you encounter issues during assembly or use, please refer to the following common problems and solutions:

- **Holes Not Aligning During Assembly:**

Ensure that all parts are oriented correctly according to the assembly guide. Sometimes, a slight rotation of a piece can resolve alignment issues. Double-check part numbers and their designated positions. If the issue persists, it may indicate a manufacturing defect. In such cases, please contact customer support with details and, if possible, photos or videos of the misalignment.
- **Bed Feels Unstable After Assembly:**

Verify that all bolts and screws are fully tightened. Ensure the bed is placed on a level surface. Confirm that the wall-attachment feature is properly installed and secured to a sturdy wall stud. If instability continues, re-check the assembly steps for any missed or incorrectly installed components.
- **Ladder Steps Are Uncomfortable:**

The ladder steps are made of metal. For increased comfort, consider adding non-slip adhesive strips or soft padding to the steps. Ensure any additions do not compromise the safety or stability of the ladder.
- **LED Lights Not Working:**

Check if the power adapter is securely plugged into both the wall outlet and the LED strip. Ensure the remote control has working batteries and is pointed directly at the receiver. If controlling via smartphone app, ensure Bluetooth or Wi-Fi connection is active and the app is updated. If the problem persists, contact customer support.
