6. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or water damage.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten as needed to maintain stability.
- **Drawer Slides:** If drawers become stiff, a small amount of silicone lubricant can be applied to the drawer slides.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the wood finish.

7. TROUBLESHOOTING

- **Wobbly Nightstand:**

Ensure all assembly screws and cam locks are fully tightened. Check that the nightstand is on a level surface. If necessary, use furniture pads under the feet to stabilize.

• **Drawers Not Closing Smoothly:**

Verify that the drawer slides are correctly installed and aligned on both the drawer and the frame. Check for any obstructions inside the drawer or along the slides. A small amount of silicone spray on the slides can improve smoothness.

• **Charging Station Not Working:**

Ensure the nightstand's power cord is securely plugged into a functional wall outlet. Check if the devices you are trying to charge are compatible with the charging station's specifications (125V/12A for AC, 5V/2A for USB). Try a different outlet or device to isolate the issue.
