1. INTRODUCTION

Thank you for purchasing the GYMAX 2-Story Wooden Cat House. This manual provides essential information for the safe assembly, operation, and maintenance of your new pet shelter. Please read these instructions carefully before use and retain them for future reference.

This image displays the fully assembled GYMAX 2-Story Wooden Cat House in a natural outdoor setting, with two cats comfortably occupying its different levels.

2. PRODUCT OVERVIEW

The GYMAX 2-Story Wooden Cat House is designed to provide a comfortable and secure shelter for 1-2 cats or similar-sized pets. Constructed from durable fir wood with asphalt roofs, it offers protection from various weather conditions. Its versatile design allows for both indoor and outdoor use.

Key Features:

- Multi-Level Design:** Features three distinct compartments, including an upper and lower living space, and a side platform for exploration and rest.
- Removable Floor Panel:** The central floor can be removed to create a larger, unified space, offering flexibility and simplifying cleaning.
- Weather-Resistant Construction:** Made from solid fir wood, painted for water resistance, and equipped with sloped asphalt roofs to prevent water and snow accumulation.
- Windproof PVC Curtains:** Entrances are fitted with PVC curtains to protect against wind and help maintain warmth inside.
- Elevated Base:** Raised legs keep the interior dry by preventing direct contact with damp ground.
- Escape Doors & Platforms:** Multiple access points and a 2-level platform provide ventilation, easy entry/exit, and exercise opportunities.
- Integrated Side Container:** A versatile open box on the side can be used as a planter for decoration or as storage for cat toys and food.

The cat house is shown in a garden, highlighting its multi-level design and how cats can utilize the various entry points and platforms.

3. SAFETY INFORMATION

- Always assemble the cat house on a flat, stable surface.
- Ensure all screws and fasteners are securely tightened before allowing pets to use the house.
- Regularly inspect the cat house for any loose parts, damage, or wear. Repair or replace components as needed.
- Keep small children away from the assembly area to prevent injury from small parts.
- Do not overload the cat house; it is designed for 1-2 cats or pets of similar size, with a maximum load capacity of 30 kg.
- Place the cat house in a shaded area if used outdoors to prevent overheating during hot weather.
- Ensure proper ventilation, especially if used in enclosed spaces.

4. PACKAGE CONTENTS

Please check that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, please contact customer support.

Included Components:

- Wooden panels for walls, floors, and roof sections
- Asphalt roof sections
- PVC curtains for entrances
- Ladder steps
- Side container/planter
- All necessary screws and fasteners
- Instruction Manual

This diagram explains the flexible interior design of the cat house, featuring three separate compartments that can be converted into a larger space by removing the central floor panel.

5. SETUP & ASSEMBLY

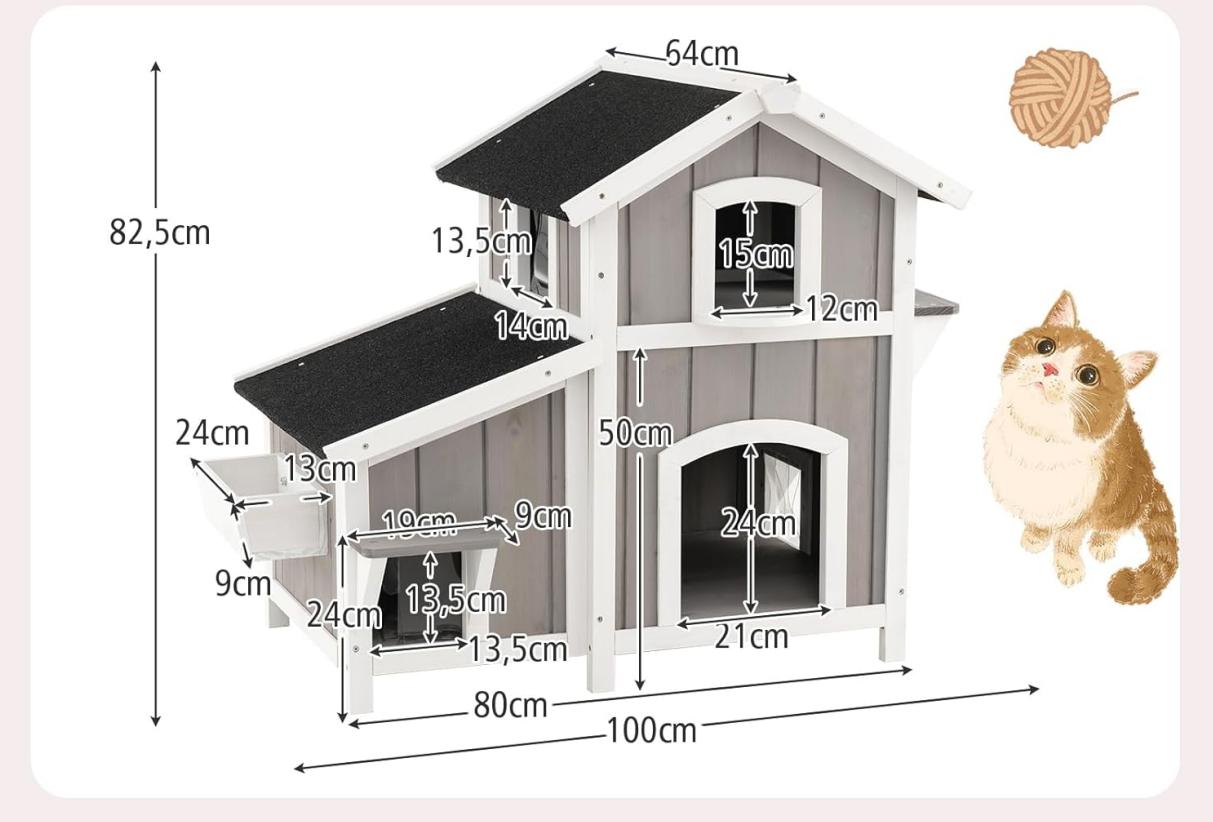

Assembly of the GYMAX 2-Story Wooden Cat House requires basic tools (e.g., screwdriver). Follow these general steps. Refer to the included diagram for specific part identification.

Assembly Steps:

- 1. Prepare the Base:** Identify the bottom panels and attach the elevated legs. Ensure the base is stable.
- 2. Assemble Lower Walls:** Connect the side and back panels for the lower level. Secure them with the provided screws. Ensure the entrance panel is correctly oriented.
- 3. Install Lower Floor:** Place the lower floor panel into the assembled walls. Note that the central floor panel is removable for flexibility.
- 4. Attach Upper Supports:** Secure the vertical support beams for the upper level to the lower structure.
- 5. Assemble Upper Walls & Railings:** Attach the upper wall panels and decorative railings to the support beams.
- 6. Install Upper Floor/Platform:** Place the upper floor panel (balcony) onto the upper structure.
- 7. Attach Roof Sections:** Secure the sloped asphalt roof sections to the top of the structure. Ensure they are firmly attached to provide weather protection.
- 8. Mount Ladder:** Attach the ladder to the designated area, allowing access to the upper level.
- 9. Install PVC Curtains:** Insert the PVC curtains into the entrance openings.
- 10. Attach Side Container:** Secure the side container/planter to the exterior of the house.
- 11. Final Check:** Verify that all screws are tightened and the structure is stable.

Una Casa Comoda per Vostri Animali Domestici

Adatto a 1-2 gatti o animali domestici di taglia simile come segue

This diagram provides detailed measurements of the cat house, indicating its overall size and the dimensions of key

features like entrances and platforms.

Note: No official assembly video for this specific GYMAX model was available in the provided product data.

6. OPERATING INSTRUCTIONS

Using the Cat House:

- Placement:** For outdoor use, choose a level, sheltered spot. For indoor use, place it in an area where your pet feels comfortable and secure.
- Removable Floor:** The central floor panel can be easily removed to create a larger, open space for your cat(s) to play or rest. This also facilitates easier cleaning.
- Side Container:** Utilize the side container as a decorative planter or for storing your cat's favorite toys, treats, or food.
- Acclimatization:** Allow your pet time to explore and get used to their new shelter. You can encourage them by placing familiar blankets or toys inside.

Aggiunta di un Contenitore Laterale

Come Fioriera

Per contenere adorabili piante da decorazione

Come Portaoggetti

Consente di tenere a portata di mano giocattoli o cibo del gatto

This image demonstrates the versatility of the integrated side container, which can function as a decorative planter or a convenient storage box for pet essentials.

7. MAINTENANCE

Cleaning:

- Regularly clean the interior and exterior of the cat house.
- Use a damp cloth and mild, pet-safe cleaning solution. Avoid harsh chemicals.
- The removable floor panel makes cleaning the lower level easier.
- Ensure the house is completely dry before your pet re-enters.

Weather Protection:

- Periodically check the asphalt roofs for any damage or leaks.
- Ensure the PVC curtains are intact and functioning to keep wind and rain out.
- If used outdoors in harsh weather conditions, consider additional protective covers to prolong the product's lifespan.

8. TROUBLESHOOTING

Common Issues:

- **Instability:** If the cat house feels wobbly, re-check all screw connections and ensure they are tightened. Make sure it is placed on a level surface.
- **Water Leakage:** Inspect the asphalt roof sections for any cracks or gaps. Ensure all roof panels are properly overlapped and sealed. Check that the PVC curtains are correctly installed.
- **Pet Not Using the House:** Some pets may need time to adjust. Try placing familiar items, treats, or catnip inside. Ensure the house is clean and free of strong odors.
- **Damaged Parts:** If any part is damaged during shipping or use, do not attempt to force it. Contact customer support for replacement parts.
