DG Casa Raven Queen Bed Frame User Manual

Model: 190400-Q-BRN-WNT-3

INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your DG Casa Raven Queen Bed Frame. This Mid-Century Modern platform bed features a solid wood frame, a tufted upholstered adjustable height headboard, and does not require a box spring.

SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always follow the assembly instructions carefully to prevent instability or collapse.
- Do not exceed the maximum weight recommendation of 408.23 kg (900 lbs) for the bed frame.
- Ensure all bolts and screws are securely tightened before use and periodically check for tightness.
- Keep small parts away from children during assembly to prevent choking hazards.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact DG Casa customer support.

- Headboard (Upholstered)
- Side Rails (One-piece construction)
- Footboard
- Slats (Wooden)
- Center Support Beam(s)
- Support Legs
- Assembly Hardware (bolts, washers, nuts, Allen wrench)

Give your bedroom a retro revamp with the Raven Queen Bed

SETUP AND ASSEMBLY

Assembly of the DG Casa Raven Queen Bed Frame is designed to be straightforward. It is recommended to have two people for assembly, though it can be completed by one individual. No box spring is required for this platform bed.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Verify all package contents are present.
2. **Attach Side Rails to Headboard:** Connect the one-piece side rails to the headboard using the provided hardware. Ensure connections are secure but do not fully tighten bolts until all major components are assembled.

3. **Attach Footboard:** Connect the footboard to the other end of the side rails.
4. **Install Center Support:** Place the center support beam(s) and attach any necessary support legs.
5. **Place Slats:** Lay the wooden slats across the bed frame. Secure them in place according to the instructions, typically by screwing them into the side rails. A power drill may be helpful for this step.
6. **Adjust Headboard Height:** The headboard offers adjustable height settings (41.5" H or 45.5" H). Select your preferred height during assembly by aligning the headboard supports to the appropriate holes on the frame.
7. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws. Do not overtighten.

Note: The bed's brown fabric may appear more gray in cooler lighting and warmer in natural or golden light.

Image: Back view illustrating the adjustable headboard mechanism, allowing selection between 41.5 inches and 45.5 inches in height.

OPERATING AND USAGE

Your DG Casa Raven Queen Bed Frame is designed for comfortable and reliable use.

- **Mattress Compatibility:** This bed frame is designed for a Queen size mattress. No box spring is required due to the integrated slat system.
- **Weight Capacity:** The maximum recommended weight for this bed frame is 408.23 kg (900 lbs), including the mattress and occupants.
- **Headboard Adjustment:** The headboard can be set to two different heights (41.5" H or 45.5" H) to accommodate various mattress thicknesses and personal preferences. This adjustment is typically made during initial assembly.

QUEEN SIZE dimensions

10" MATTRESS THICKNESS
RECOMMENDED

Image: Diagram showing the overall dimensions of the Queen bed frame (length 84.5", width 63.6", headboard height 45.5") and its 900 lbs weight capacity. A 10" mattress thickness is recommended.

MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Wood Frame:** Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. Polish with a wood-safe furniture polish as needed.

- **Upholstered Headboard:** For general cleaning, vacuum the fabric regularly using an upholstery attachment. For spills, blot immediately with a clean, dry cloth. For stubborn stains, consult a professional upholstery cleaner or use a fabric-specific cleaner, testing on an inconspicuous area first. Consider applying a fabric protector (e.g., Scotchgard) to the headboard upholstery to help prevent stains.
- **Hardware:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking or Instability:**
 - Ensure all assembly hardware (bolts, screws) are fully tightened.
 - Verify that the center support legs are properly positioned and making firm contact with the floor.
 - Check that slats are evenly spaced and securely attached to the frame.
- **Headboard Wobbles:**
 - Confirm that the headboard attachment bolts are securely fastened to the side rails.
 - Ensure the headboard is correctly aligned with the chosen height setting.
- **Mattress Sags:**
 - Verify that the total weight on the bed does not exceed the 408.23 kg (900 lbs) limit.
 - Check for any broken or displaced slats.

If problems persist, contact DG Casa customer support for further assistance.
