UKSUP SM663

UKSUP Baby Monitor SM663 Instruction Manual

Model: SM663

1. Introduction

This manual provides detailed instructions for the safe and effective use of your UKSUP Baby Monitor SM663. Please read this manual thoroughly before operating the device and retain it for future reference. The UKSUP Baby Monitor SM663 is designed to help you monitor your baby with a secure, wireless connection, offering features such as a 5-inch LCD display, remote pan-tilt-zoom, night vision, two-way talk, and temperature sensing.

2. Important Safety Instructions

- **STRANGULATION HAZARD:** Keep all cords out of reach of children. Never place the camera or cords within 3 feet (1 meter) of the crib or playpen. Secure cords to a wall or floor using clips to prevent entanglement.
- **CHOKING HAZARD:** This product contains small parts. Keep out of reach of children.
- **HEAT HAZARD:** Do not place the monitor or camera near heat sources such as radiators, heat registers, stoves, or other appliances that produce heat.
- **WATER AND MOISTURE:** Do not expose the product to water or moisture. Do not use near a bathtub, sink, laundry tub, wet basement, or swimming pool.
- **POWER SOURCE:** Use only the AC power adapters provided. Using other adapters may damage the device and void your warranty.
- **VENTILATION:** Do not block any ventilation openings. Ensure proper airflow around the camera and monitor units.
- **INTERFERENCE:** This product operates on a 2.4GHz frequency. Keep it away from other 2.4GHz devices (e.g., Wi-Fi routers, microwaves) to avoid interference.
- **BATTERY SAFETY:** The parent unit contains a rechargeable battery. Do not attempt to replace it yourself. Dispose of batteries properly according to local regulations.
- **ADULT SUPERVISION:** This product is intended to assist in monitoring your baby and should not be used as a substitute for responsible adult supervision.

3. Package Contents

Please check the package contents to ensure all items are present and in good condition:

- Parent Unit (Monitor) with 5-inch LCD Display

- Baby Unit (Camera)
- Power Adapter for Parent Unit
- Power Adapter for Baby Unit
- User Manual (this document)

4. Product Overview

4.1 Parent Unit (Monitor)

The Parent Unit features a 5-inch LCD display for clear viewing of your baby. It includes controls for pan-tilt-zoom, two-way talk, lullabies, volume, and brightness. The unit is powered by a rechargeable 3000 mAh battery, offering up to 30 hours of battery life in VOX mode or 10 hours with the screen continuously on.

Image 2: Close-up of the Parent Unit's 5-inch LCD screen.

4.2 Baby Unit (Camera)

The Baby Unit is equipped with a camera that offers remote pan (355°), tilt (120°), and 2x zoom capabilities. It features infrared night vision for clear viewing in low light, a built-in temperature sensor, and a microphone/speaker for two-way communication. The camera requires continuous power via its AC adapter.

5. Setup

5.1 Charging the Parent Unit

1. Connect the Parent Unit's power adapter to the Parent Unit and a power outlet.
2. Charge the Parent Unit for at least 8 hours before first use to ensure optimal battery performance. The battery indicator on the screen will show charging status.

5.2 Positioning the Baby Unit (Camera)

1. Place the Baby Unit on a flat surface in the baby's room, such as a dresser or shelf, or mount it to a wall or ceiling. Ensure it is at least 3 feet (1 meter) away from the crib or playpen to prevent strangulation hazards from the power cord.
2. Connect the Baby Unit's power adapter to the Baby Unit and a power outlet. The camera will power on automatically.
3. Adjust the camera angle manually or remotely once the system is operational to get the best view of your baby.

Image 3: Illustration of the baby monitor's long-range connectivity within a home environment.

5.3 Initial Connection (Plug and Play)

The UKSUP Baby Monitor SM663 is designed for plug-and-play operation. Once both the Parent Unit and Baby Unit are powered on, they should automatically connect. If they do not connect, ensure both units are within range (up to 960ft/1000ft in open areas) and try restarting both devices.

6. Operating the Monitor

6.1 Power On/Off

- To power on the Parent Unit, press and hold the Power button until the screen illuminates.
- To power off the Parent Unit, press and hold the Power button until the screen turns off.
- The Baby Unit powers on automatically when connected to power and powers off when disconnected.

6.2 Adjusting Volume and Brightness

Use the dedicated volume buttons on the Parent Unit to increase or decrease the sound level. Use the menu settings to adjust screen brightness for optimal viewing.

6.3 Pan, Tilt, and Zoom (PTZ)

From the Parent Unit, use the directional buttons to remotely pan the camera 355° horizontally and tilt it 120° vertically. Press the zoom button to activate 2x digital zoom for a closer view of your baby.

6.4 Two-Way Talk

Press and hold the Talk button on the Parent Unit to speak to your baby through the camera's speaker. Release the button to hear your baby's sounds.

6.5 Lullabies

Access the menu on the Parent Unit to select and play one of the 8 built-in lullabies to soothe your baby. You can also adjust the lullaby volume.

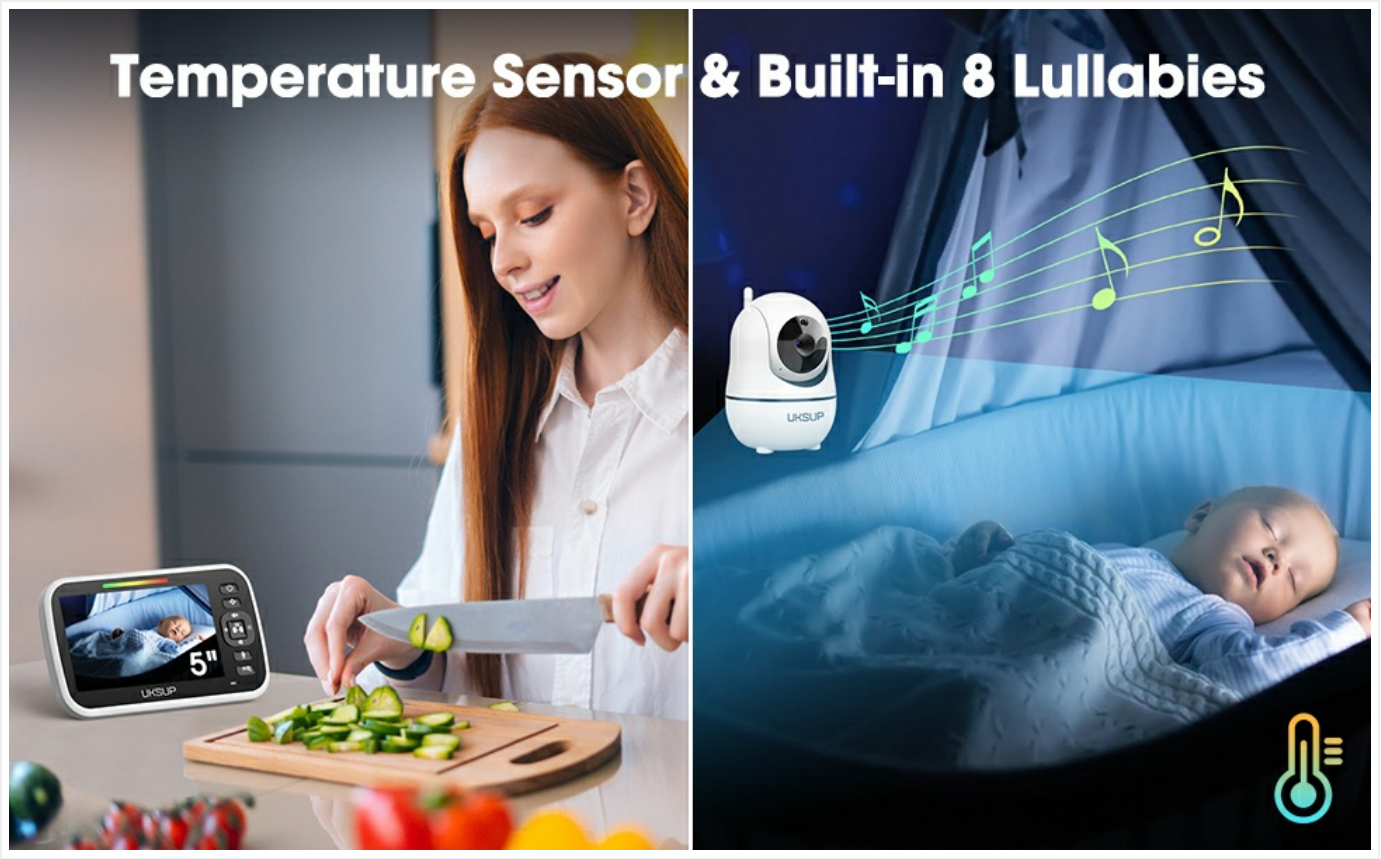

Image 4: The baby monitor displaying temperature and playing lullabies to a sleeping baby.

6.6 VOX Mode (Voice Operated Exchange)

VOX mode conserves battery life by turning off the Parent Unit's screen when no sound is detected from the baby's room. The screen will automatically activate when the camera detects sound above a set sensitivity level. Adjust VOX sensitivity in the menu settings.

Image 5: Illustration of VOX mode activating when the baby makes a sound.

6.7 Temperature Monitoring

The Baby Unit has a built-in temperature sensor that displays the room temperature on the Parent Unit's screen. You can set temperature alerts in the menu to be notified if the room temperature goes outside a comfortable range.

6.8 Feeding Alarm

Set a feeding alarm through the Parent Unit's menu to remind you of feeding times. This feature helps maintain a consistent feeding schedule for your baby.

Image 6: The feeding alarm icon displayed on the monitor screen.

6.9 Adding and Switching Cameras

The system supports up to 4 camera units. To add additional cameras, follow the pairing instructions in the menu. Once multiple cameras are paired, you can switch between them manually or set the monitor to cycle through views automatically.

Image 7: Display of multiple camera views on the parent unit.

6.10 Night Vision

The Baby Unit automatically activates infrared night vision in low-light conditions, providing a clear black-and-white image of your baby without disturbing their sleep.

7. Maintenance

- **Cleaning:** Wipe the monitor and camera units with a soft, dry cloth. Do not use cleaning sprays or liquid cleaners.
- **Battery Care:** To prolong battery life, avoid fully discharging the Parent Unit's battery frequently. Charge it regularly. If storing the unit for an extended period, charge it fully every few months.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.

8. Troubleshooting

Problem	Possible Solution
No image/sound on Parent Unit.	◦ Ensure both Parent Unit and Baby Unit are powered on. ◦ Check if power adapters are securely connected. ◦ Move Parent Unit closer to Baby Unit to improve signal. ◦ Re-pair the units if connection is lost (refer to menu for pairing instructions).
Poor image quality.	◦ Ensure the camera lens is clean. ◦ Adjust the camera's position for better lighting. ◦ Check for obstructions between the camera and monitor.
Static or interference.	◦ Move the monitor or camera away from other electronic devices (e.g., Wi-Fi routers, microwaves, cordless phones). ◦ Reduce the distance between the Parent Unit and Baby Unit.
Parent Unit battery drains quickly.	◦ Ensure VOX mode is enabled to conserve battery. ◦ Reduce screen brightness. ◦ The battery may be nearing the end of its lifespan and may require replacement by a qualified service center.
Temperature reading seems inaccurate.	◦ Ensure the Baby Unit is not placed near a window, vent, or direct heat source that could affect its sensor.

9. Specifications

Feature	Detail
Model Name	SM663
Brand	UKSUP
Connectivity Technology	Wireless (2.4GHz FHSS)
Display Size	5-inch LCD
Video Resolution	480p
Pan Angle	355°
