2. Setup

2.1. Package Contents

Before you begin, ensure all items are present in the package:

- Realme Note 60X Smartphone
- USB Type-C Cable
- Power Adapter (if included)
- SIM Ejector Tool

- Quick Start Guide
- Protective Case (if included)

2.2. SIM Card and microSD Card Installation

To install your SIM card(s) and an optional microSD card:

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM card(s) and/or microSD card into the designated slots on the tray, ensuring the gold contacts face down.
4. Carefully push the tray back into the device until it clicks into place.

2.3. Initial Power On and Setup

To power on your device for the first time:

1. Press and hold the Power button (usually on the right side) until the Realme logo appears.
2. Follow the on-screen instructions to select your language, connect to Wi-Fi, set up your Google account, and configure security settings.

2.4. Charging the Device

Before first use, it is recommended to fully charge your device. Connect the USB Type-C cable to the phone's charging port and the other end to the power adapter. Plug the adapter into a wall outlet. The device supports 10W wired charging.

3. Operating Your Device

3.1. Basic Navigation

The Realme Note 60X uses a touchscreen for navigation. Common gestures include tapping, swiping, pinching to zoom, and long-pressing. Physical buttons include the Power button and Volume buttons.

3.2. Display Features

Your device features a 6.74-inch IPS LCD with a 90Hz refresh rate for smoother scrolling and animations. Adjust display settings such as brightness, dark mode, and refresh rate in the Settings app.

3.3. Camera Usage

The device is equipped with an 8MP rear camera with LED flash and a 5MP front camera. Open the Camera app to capture photos and videos. Various modes and settings are available for different shooting scenarios.

4. Maintenance

4.1. Cleaning Your Device

To clean your Realme Note 60X, use a soft, lint-free cloth. Avoid abrasive materials, solvents, or aerosol sprays. For stubborn smudges, slightly dampen the cloth with water. Ensure no moisture enters ports.

4.2. Software Updates

Keep your device's software up to date to ensure optimal performance, security, and access to new features. You can check for updates in **Settings > About device > Software update**

4.3. Storage Management

Your device comes with 64GB of internal storage. To manage storage effectively, regularly clear cache, uninstall unused apps, and transfer large files to cloud storage or an external microSD card.

4.4. Water and Dust Resistance

The Realme Note 60X has an IP54 rating, meaning it is protected against dust ingress and splashing water from any direction. This is not full waterproofing. Avoid submerging the device in water or exposing it to high-pressure water jets.

5. Troubleshooting

If you encounter issues with your device, try the following common solutions:

- **Device not turning on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- **Slow performance:** Close background applications, clear app caches, or restart the device.
- **Connectivity issues (Wi-Fi/Bluetooth):** Toggle Wi-Fi or Bluetooth off and on. Restart your router for Wi-Fi issues.
- **Apps crashing:** Update the app to its latest version. Clear the app's cache and data in **Settings > Apps**.
- **Factory Reset:** As a last resort, you can perform a factory reset (**Settings > System > Reset options > Erase all data**). **Warning: This will erase all data on your device. Back up important information first.**
