litillbuly Portable Car Stereo Wireless Apple CarPlay Android Auto

Model: 735851447512

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your litillbuly Portable Car Stereo. This device offers a seamless integration of wireless Apple CarPlay and Android Auto, enhancing your driving experience with smart navigation, communication, and entertainment features.

2. Product Features

- **Wireless Apple CarPlay & Android Auto:** Synchronize phone functions including navigation, music, calls, and messages directly to the 7-inch touchscreen display. Supports voice control via Siri or Google Assistant.
- **7-Inch Touchscreen Display:** Provides a clear and responsive interface for all functions.
- **Bluetooth Hands-Free Calling:** Built-in microphone and Bluetooth connectivity enable safe, hands-free phone calls while driving.
- **FM Transmitter:** Transmit audio from the stereo to your car's FM radio for playback through your vehicle's speakers.
- **Universal 12-24V Compatibility:** Designed to work with a wide range of vehicles, including cars, trucks, vans, buses, and pickups.
- **USB Charging Output:** Features a 2.1A USB output for charging mobile devices.
- **Mirror Link Functionality:** Allows mirroring of your smartphone screen to the stereo display.

The litillbuly portable car stereo unit, featuring a 7-inch touchscreen display. The screen shows the Apple CarPlay interface with icons for Phone, Music, Map, Messages, and other applications. Below the main unit, smaller images illustrate Android Auto and Apple CarPlay logos.

3. Package Contents

Verify that all items are present in the package:

- litillbuly Portable Car Stereo Main Unit
- Suction Cup Bracket
- Self-Adhesive Bracket
- Cigarette Lighter Power Adapter
- Reversing Video Input Adapter Cable (2.0mm to RCA)
- Steering Wheel Remote Control (Complimentary)

This image details the accessories included with the car stereo. It shows the main unit with labels pointing to its ports (USB, TF card slot, power input, reversing video input), the silicone vacuum suction cup mount, the cigarette lighter power adapter, the reversing video input adapter cable, and a complimentary remote control for the steering wheel.

4. Setup and Installation

The litillbuly Portable Car Stereo is designed for easy installation without requiring complex wiring or professional assistance. It connects directly to your vehicle's cigarette lighter socket.

4.1 Mounting the Unit

Choose between the suction cup bracket or the self-adhesive bracket based on your preference and dashboard surface. Ensure the mounting location does not obstruct your view or interfere with vehicle controls.

- **Suction Cup Bracket:** Clean the desired area on your windshield or dashboard. Press the suction cup firmly onto the surface and engage the locking mechanism.
- **Self-Adhesive Bracket:** Clean and dry the desired dashboard area. Peel off the protective film from the adhesive base and firmly press the bracket onto the surface for at least 30 seconds. Allow the adhesive to cure for a few hours before attaching the stereo unit.

Once the bracket is secured, attach the main stereo unit to the bracket. Adjust the angle for optimal viewing.

4.2 Power Connection

1. Connect the cigarette lighter power adapter to the power input port on the stereo unit.
2. Insert the cigarette lighter power adapter into your vehicle's 12-24V cigarette lighter socket.
3. The unit will power on automatically when the vehicle's ignition is turned on.

The litillbuly portable car stereo is shown installed on a car's dashboard, with the screen displaying the Apple CarPlay interface. Text bubbles indicate voice commands like 'Hey, Siri' and 'Open the Map', highlighting the voice control feature.

5. Operation

5.1 Wireless Apple CarPlay / Android Auto

This function allows you to integrate your smartphone's features with the car stereo display.

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
2. On the car stereo, navigate to the CarPlay or Android Auto icon and select it.
3. On your smartphone, search for and connect to the stereo's Bluetooth device.
4. Follow any on-screen prompts on both your phone and the stereo to complete the connection.
5. Once connected, your phone's compatible apps (navigation, music, calls, messages) will be displayed on the stereo screen.
6. For voice control, use "Siri" for iPhones or the Google Assistant command for Android phones.
7. To exit CarPlay/Android Auto, turn off both your phone's Wi-Fi and Bluetooth.

The portable car stereo screen is shown displaying an incoming call notification, illustrating its wireless CarPlay and Android Auto capabilities for hands-free communication. A smartphone is positioned next to the stereo, indicating the wireless connection.

5.2 Bluetooth Hands-Free Calling

After pairing your phone via Bluetooth, you can make and receive calls directly through the stereo.

- Access the Bluetooth menu on the stereo.
- Use the touchscreen or voice commands to dial numbers or answer incoming calls.
- The built-in microphone ensures clear audio during conversations.

5.3 FM Transmitter

To play audio through your car's speakers, use the FM transmitter function.

1. Navigate to the FM Transmitter settings on the stereo.
2. Select an unused FM frequency (e.g., 88.60, 89.20, 89.50, 89.80, 91.50, 91.80, 93.00, 93.60, 93.90, 94.50, 95.10, or 95.70).

3. Tune your car's FM radio to the same frequency.
4. When the FM transmitter is active, the stereo's internal speaker will be muted. Disable this function if you do not need to transmit audio to your car stereo.

5.4 Mirror Link

The Mirror Link feature allows you to display your smartphone's screen content directly onto the car stereo. Refer to the on-screen instructions for specific connection steps, which typically involve a USB cable or Wi-Fi connection.

A thumbnail image illustrating the Mirror Link function, where the car stereo screen displays content mirrored from a smartphone.

6. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the unit. Avoid abrasive cleaners or solvents.
- **Temperature:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Power Off:** Disconnect the power adapter when the unit is not in use for extended periods.

7. Troubleshooting

If you encounter issues with your litillbuly Portable Car Stereo, refer to the following common solutions:

- **Android Auto Connection Issues:** Due to variations in mobile phone versions and brand operators, some Android phones may experience difficulty connecting to Android Auto. Before purchasing, it is recommended to verify with your mobile phone brand operator if your specific Android phone model supports Android Auto functionality.
- **Unit Does Not Power On:** Ensure the cigarette lighter power adapter is securely connected to both the stereo unit and the vehicle's 12-24V power socket. Check if the vehicle's ignition is on. The unit does not have a built-in battery and requires external power to operate.
- **Unit Feels Warm During Use:** It is normal for the player to generate some heat during operation, similar to an original car radio. This does not affect the product's performance.
- **Working Memory Disappears After Power Off:** This screen is primarily used to transfer data from your mobile phone. To ensure the safety of your personal data, a portion of the product's working memory will clear after power off.
- **No Sound from Stereo When FM Transmitter is Active:** When the FM transmitter function is enabled, the player's internal speaker will be muted as audio is being sent to your car's FM radio. If you want sound from the stereo's speaker, disable the FM transmitter function.
- **Poor Audio Quality via FM Transmitter:** Ensure you have selected a clear, unused FM frequency. Interference

from local radio stations can degrade audio quality. Try different frequencies.

- **Mounting Bracket Instability:** Ensure the mounting surface is clean and dry before applying the suction cup or adhesive bracket. For suction cups, ensure the locking mechanism is fully engaged. For adhesive mounts, allow sufficient curing time.
- **Bluetooth Connection Drops:** Ensure your phone is within close proximity to the stereo and there are no significant obstructions. Restarting both the stereo and your phone's Bluetooth may resolve the issue.
- **Lagging Performance:** Ensure your smartphone's operating system is up to date. Close unnecessary applications on your phone to free up resources.

8. Specifications

Feature	Detail
Model Number	735851447512
Display Size	7 inches / 18 cm (Visible screen diagonal)
Power Input	12-24V
USB Output	2.1A
Connectivity Technology	Bluetooth
Controller Type	Touch Screen
Compatible Devices	Smartphone
Connector Type	3.5mm Jack, USB
Audio Output Mode	Stereo
Video Encoding	H.264, H.265/HEVC
Item Weight	1.83 pounds
Package Dimensions	9.61 x 8.74 x 3.9 inches
