## **Victoper VT-BL2001**

# **Victoper Bike Light Instruction Manual**

Model: VT-BL2001

Brand: Victoper

## **1. INTRODUCTION**

The Victoper Bike Light set provides essential illumination and visibility for cyclists, enhancing safety during road, mountain, and night riding. This comprehensive set includes a high-lumen USB rechargeable front headlight and a rear taillight, designed to withstand various weather conditions.

## 2. KEY FEATURES

- Super Bright Illumination:** Equipped with 2 LED lights providing high lumens for clear visibility, ensuring safety by illuminating the path ahead.
- Multiple Lighting Modes:** The front light features 6 distinct modes (Left Strong, Left Weak, Right Strong, All-On, Breathing Light, Strobe) and the rear light offers 4 modes (Strong Light, Slow Flashing, Strobe, Quick Flashing) for various situations.
- Durable and Waterproof Design:** Constructed from aluminum alloy and rated IPX4 waterproof, capable of withstanding heavy rain and muddy conditions.
- Easy Installation and Portability:** Simple structure and lightweight design allow for easy installation and removal, also serving as a portable flashlight.
- USB Rechargeable:** Both lights are USB rechargeable for convenient power replenishment.

### Feature Visuals:

## Wider Visibility

### 3. SETUP AND INSTALLATION

#### 3.1 Mounting the Lights

- Front Light:** The front light comes with a flexible silicone strap. Wrap the strap around your bicycle's handlebar and secure it through the designated slot on the light's base. Ensure the light is firmly attached and facing forward.
- Rear Light:** Similarly, the rear taillight uses a silicone strap. Attach it to your bike's seat post or rear frame, ensuring it faces backward for maximum visibility.

Image: Diagram illustrating the simple strap-on installation process for both the front and rear bike lights on a bicycle.

### 3.2 Charging the Lights

Both the front and rear lights are USB rechargeable. Locate the USB charging port on each light (typically covered by a rubber flap for waterproofing). Use the provided USB cables to connect the lights to any standard USB power source (e.g., computer, wall adapter, power bank).

## USB RECHARGEABLE

Charge from Any Device with USB

Power Adapter

Car Charger

Power Bank

Image: The bike lights connected to USB charging cables, demonstrating compatibility with various USB power sources like power adapters, car chargers, and power banks.

The front light features battery indicator lights (blue LEDs) to show the remaining charge. Ensure both lights are fully charged before use for optimal performance.

## 4. OPERATING INSTRUCTIONS

### 4.1 Power On/Off and Mode Selection (Front Light)

- **Power On/Off:** Press and hold the power button on top of the front light for a few seconds to turn it on or off.

- **Change Modes:** Once powered on, short press the power button to cycle through the 6 available modes: Left Strong Light, Left Weak Light, Right Strong Light, All-On, Breathing Light, and Strobe.
- **Battery Indicator:** The blue LED lights next to the power button indicate the battery level.

## 4.2 Power On/Off and Mode Selection (Rear Light)

- **Power On/Off:** Press and hold the power button on the rear light to turn it on or off.
- **Change Modes:** Short press the power button to cycle through the 4 available modes: Strong Light, Slow Flashing, Strobe, and Quick Flashing.

## 5. MAINTENANCE

- **Charging:** Recharge the lights regularly, especially after prolonged use or if the battery indicator shows low power. Always ensure the USB port cover is securely closed after charging to maintain waterproofing.
- **Cleaning:** Wipe the lights with a soft, damp cloth to remove dirt and debris. Avoid using abrasive cleaners or solvents that could damage the casing or lens.
- **Storage:** Store the lights in a cool, dry place when not in use. If storing for an extended period, charge them periodically to maintain battery health.
- **Waterproofing:** The lights are IPX4 waterproof, meaning they are resistant to splashing water from any direction. Do not submerge the lights in water.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Low battery; faulty power switch.	Charge the light fully. If issue persists, contact customer support.
Light does not hold charge.	Battery degradation; improper charging.	Ensure proper charging cable and power source. Avoid over-discharging. If battery life is significantly reduced, contact support.
Light modes are not cycling correctly.	Power button issue.	Ensure firm presses on the power button. If unresponsive, contact customer support.

If you encounter any issues not listed here or if the suggested solutions do not resolve the problem, please refer to the support section for assistance.

## 7. SPECIFICATIONS

Attribute	Detail
Brand	Victoper
Model Name	VT-BL2001
Color	Clear
Item Weight	4 Ounces
Product Dimensions	4.17" L x 1.89" W x 1.04" H
Brightness	150 Lumen
