4. OPERATING INSTRUCTIONS

4.1 Charging Your Device

1. **Ensure Compatibility:** Verify that your device supports wireless charging and is MagSafe compatible for magnetic attachment. For non-MagSafe devices, ensure they are Qi-enabled.
2. **Place Device:** Carefully place your smartphone or other compatible device onto the charging pad. For MagSafe compatible iPhones, the magnetic connection will automatically align the device for optimal charging.
3. **Confirm Charging:** Your device's screen should indicate that it is charging. If not, adjust the device's position on the pad until charging begins.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the charger. Do not use abrasive cleaners, solvents, or immerse the device in water.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Handling:** Avoid dropping or subjecting the charger to strong impacts, as this may damage internal components.

6. TROUBLESHOOTING

- **Device not charging:**
 - Ensure the charger is properly connected to a working power outlet.
 - Verify that your device is placed correctly and centered on the charging pad.
 - Remove any thick or metallic cases from your device that might interfere with wireless charging.
 - Confirm your device is wireless charging compatible.
- **Slow charging:**
 - Ensure you are using a power adapter that supports 15W output. Lower wattage adapters will result in slower charging.
 - Check for proper alignment of your device on the charging pad.
 - Close unnecessary background applications on your device.
- **Charger or device overheating:**
 - The Portronics Flux 2 features an Exclusive Temp° Guard and efficient heat dissipation. However, if excessive heat is observed, ensure the charger is placed in a well-ventilated area.
 - Remove any thick cases from your device.

- If overheating persists, discontinue use and contact support.
