VGR V-350 Professional

VGR V-350 Foil Shaver User Manual

Model: V-350 Professional

INTRODUCTION

Thank you for choosing the VGR V-350 Foil Shaver. This manual provides essential information for the safe and effective use, maintenance, and care of your new shaver. Please read it thoroughly before first use and keep it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

- This appliance is not waterproof. Avoid direct water contact.
- Keep out of reach of children under 8 years old unless supervised by an adult.
- Do not use the shaver if it is damaged in any way.
- Avoid exposing the shaver to high heat. Do not burn the built-in battery.
- Ensure the shaver is fully charged before initial use.

WHAT'S INCLUDED

The VGR V-350 Foil Shaver package includes the following components:

- 1x VGR V-350 Foil Shaver

- 2x Protection Caps for the foil heads
- 1x Cleaning Brush
- 1x Travel Pouch
- 1x USB Type-C Charging Cable
- 1x User Manual (this document)

SETUP

Initial Charging

1. Before first use, fully charge the shaver for approximately 2 hours.
2. Connect the USB Type-C charging cable to the shaver's charging port.
3. Plug the other end of the USB cable into a compatible USB power source (e.g., laptop, USB outlet, USB charger, car

charger, or power bank).

4. The LED display will indicate the charging status and battery percentage.
5. Once fully charged, the shaver provides up to 180 minutes of cordless use.

OPERATING INSTRUCTIONS

Powering On/Off and Speed Adjustment

1. To turn on the shaver, press the power button.
2. The LED display will show the current RPM speed and battery percentage.
3. To adjust the speed, use the '+' and '-' buttons. The shaver offers three speed settings: 6500 RPM, 7000 RPM, and 7500 RPM. Select the speed suitable for your hair type and desired performance.
4. To turn off the shaver, press the power button again.

INDICATOR LIGHT

LED display show the battery power percentage.

Shaving Technique

The VGR V-350 features dual independent flexing foils designed for a close and smooth shave on both the head and beard.

- For best results, shave against the direction of hair growth.
- Apply gentle pressure and move the shaver in straight or circular motions.
- The dual floating foil heads are designed to reduce irritation, making it suitable for sensitive areas.

FOIL BLADES

Dual independent flexing foils

Travel Lock Function

The shaver includes a travel lock function to prevent accidental activation during transport.

- To activate the travel lock, press and hold the power button for a few seconds until a lock icon appears on the LED display.
- To deactivate, press and hold the power button again until the lock icon disappears.

MAINTENANCE

Cleaning the Shaver

Regular cleaning ensures optimal performance and hygiene.

1. Ensure the shaver is turned off and disconnected from the charging cable before cleaning.
2. Remove the foil head assembly.

3. Use the included cleaning brush to remove any trapped hair from the foils and the cutting blades.
4. Do not rinse the shaver under water as it is not waterproof.
5. Replace the foil head assembly and protection cap after cleaning.

Lubrication

To maintain blade performance and longevity, apply a small amount of lubricating oil (not included, but commonly available for shavers) to the blades after every few uses.

1. Apply one or two drops of lubricating oil to the foil heads.
2. Turn on the shaver for a few seconds to distribute the oil evenly.
3. Wipe off any excess oil.

TROUBLESHOOTING

- **Shaver not turning on:** Ensure the shaver is charged. Check if the travel lock is activated.
- **Reduced shaving performance:** Clean the foil heads and blades thoroughly. Consider lubricating the blades. If performance does not improve, the foils or blades may need replacement (replacement parts sold separately).
- **Charging issues:** Ensure the USB Type-C cable is securely connected to both the shaver and the power source. Try a different USB power adapter or port.

SPECIFICATIONS

Model Name	V-350 Professional Foil Shaver
Brand	VGR
Motor Speed	6500/7000/7500 RPM (3 adjustable speeds)
Battery Type	Built-in 1200mAh Lithium Battery
