7. TROUBLESHOOTING

If you encounter issues with your OUKITEL WP39 PRO, refer to the following common solutions:

- **Phone not turning on:** Ensure the battery is charged. Connect to the charger and wait a few minutes before attempting to power on again.
- **Network connectivity issues:** Check if your SIM card is properly inserted. Verify that mobile data is enabled

in settings. If using T-Mobile, ensure your plan supports 5G. (Note: This phone is not compatible with AT&T/Verizon).

- **Battery drains quickly:** Reduce screen brightness, close unused apps running in the background, and disable unnecessary features like Wi-Fi, Bluetooth, or GPS when not in use.
- **Apps crashing or slow performance:** Clear app cache, update apps to their latest versions, or restart the phone. Ensure sufficient storage space is available.
- **Phone getting hot:** This can occur during intensive use (gaming, video streaming, heavy charging). If it becomes excessively hot, close demanding applications and allow the phone to cool down.
