2. SETUP AND PREPARATION

Before using the Bennett Read Spring Fresh Hard Floor Cleaner, ensure your floor is free of loose debris by sweeping or vacuuming.

1. **Dilution:** Mix the cleaner with water according to the specific instructions provided on the product label. Proper dilution ensures optimal cleaning performance and avoids residue.
2. **Prepare Mop:** Ensure your mop or cleaning cloth is clean before use. The versatile formula works seamlessly with most standard mops.
3. **Test Area:** For first-time use on a new surface, test the diluted solution on an inconspicuous area to ensure compatibility and colorfastness.

3. OPERATING INSTRUCTIONS

Follow these steps for effective cleaning of your hard floors:

1. **Apply Solution:** Dip your mop or cloth into the diluted cleaning solution, wringing out any excess to prevent oversaturation of the floor.
2. **Mop in Sections:** Apply the solution evenly across the hard floor, working in manageable sections. This ensures thorough coverage and prevents the solution from drying prematurely.
3. **Rinse Mop:** For best results, rinse your mop or cloth frequently in clean water (or a separate bucket of clean water) to remove accumulated dirt before redipping into the cleaning solution.
4. **Air Dry:** Allow the floor to air dry completely before walking on it. This prevents streaks and ensures a clean, bright finish.

The refreshing scent contributes to a pleasant home environment after cleaning.

4. MAINTENANCE AND STORAGE

Proper maintenance and storage will ensure the longevity and effectiveness of your cleaner.

- **Storage:** Store the Bennett Read Spring Fresh Hard Floor Cleaner in its original container, in a cool, dry place, away from direct sunlight and extreme temperatures. Keep out of reach of children and pets.
- **Container Integrity:** Ensure the cap is tightly sealed after each use to prevent evaporation and maintain product efficacy.
- **Cleaning Tools:** Regularly clean and maintain your mop or cleaning tools to prevent the spread of dirt and bacteria.

5. TROUBLESHOOTING

If you encounter any issues while using the cleaner, refer to the following common solutions:

- **Streaks on Floor:**
 - Ensure proper dilution ratio as per label instructions. Too much cleaner can leave residue.
 - Rinse your mop or cloth more frequently to remove accumulated dirt and excess cleaner.
 - Ensure the floor is completely dry before walking on it.
- **Floor Not Clean Enough:**
 - Verify the dilution ratio. Insufficient cleaner may reduce effectiveness.
 - For stubborn dirt or grime, allow the diluted solution to sit on the affected area for a few minutes before mopping.
 - Ensure the mop head is clean and not saturated with old dirt.
- **Unpleasant Odor After Cleaning:**
 - Ensure the floor is thoroughly dry. Dampness can lead to odors.
 - Clean your mop head thoroughly after each use to prevent bacterial growth.
