3. OPERATING INSTRUCTIONS

Once connected, your device should automatically recognize the AllReader as an external storage device.

1. Accessing Files:

- **On Computers (Windows/macOS):** The card reader will appear as a removable drive in 'This PC' (Windows) or on the desktop/Finder (macOS). Double-click to open and browse files.
- **On Android Devices:** Use a file manager application (e.g., 'Files', 'My Files') to locate and access the external storage.
- **On iOS Devices:** Use the 'Files' app. The external storage will appear under 'Browse'.

2. **Transferring Files:** Drag and drop files between your device's internal storage and the memory card, or use the copy/paste functions within your file manager.

3. **Ejecting Safely:** Before disconnecting, always safely eject the card reader from your computer or mobile device to prevent data corruption.

4. MAINTENANCE

Proper care ensures the longevity and optimal performance of your AllReader SD Card Reader.

- **Keep Dry:** Avoid exposure to liquids and high humidity.
- **Clean Connectors:** If necessary, gently clean the connectors with a dry, lint-free cloth. Do not use abrasive materials or harsh chemicals.
- **Store Properly:** When not in use, store the reader in a clean, dry place away from extreme temperatures.
- **Handle with Care:** Avoid dropping the device or subjecting it to strong impacts.

5. TROUBLESHOOTING

If you encounter issues with your AllReader SD Card Reader, refer to the following common solutions:

- **Device Not Recognized:**

- Ensure the AllReader is fully inserted into your device's port.
 - Try connecting to a different port on your device.
 - Test the AllReader with a different host device to rule out device-specific issues.
 - Restart your host device.
- **Memory Card Not Reading:**
 - Ensure the SD or microSD card is fully and correctly inserted into the AllReader's slot.
 - Try using a different memory card to determine if the issue is with the card itself.
 - Check if the memory card is locked (some SD cards have a small lock switch).
 - **Slow File Transfer:**
 - Transfer speeds can vary based on the memory card's speed class and the host device's USB version.
 - Ensure your memory card is not damaged or corrupted.
