Aeitto GRY14-CB24M

Learn how to set up, make ice, enjoy, and maintain your Aeitto GRY14-CB24M nugget ice machine with this easy-to-follow guide. Includes important safety tips and descaling instructions for optimal performance.

Aeitto Nugget Ice Maker Instruction Manual

Model: GRY14-CB24M

Brand: Aeitto

1. INTRODUCTION

The Aeitto Nugget Ice Maker is designed to provide soft, chewable ice quickly and efficiently. With a daily ice production capacity of up to 40 lbs, this countertop machine is perfect for home, office, kitchen, or party use. Its one-click operation and automatic self-cleaning function ensure convenience and hygiene.

2. SAFETY INFORMATION

Please read all instructions carefully before operating the ice maker to ensure safe and optimal performance. Keep this manual for future reference.

- Always use potable water.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep fingers and hands clear of moving parts during operation, especially the ice outlet.
- Ensure the ice maker is placed on a stable, level surface away from direct sunlight or heat sources.
- Unplug the appliance before cleaning or when not in use for extended periods.
- This appliance is ETL certified for safety.

3. PRODUCT COMPONENTS

The Aeito Nugget Ice Maker comes with the following components:

- Ice Maker Unit (1)
- Ice Scoop (1)
- Ice Basket (1)
- Drip Tray (1)

Perfect Size & Accessories

Ice Scoop

Ice Basket

Drip Tray

Note: The ice basket can store up to 1.8 lbs of nugget ice.

4. SETUP

4.1 Unpacking

Carefully remove the ice maker and all accessories from the packaging. Inspect for any damage during transit. Remove all protective films and packaging materials.

4.2 Placement

Place the ice maker on a flat, stable, and level surface. Ensure there is adequate ventilation around the unit. The compact design (7.28" W x 13.0" D x 12.68" H) allows it to fit seamlessly into various spaces.

Figure 4.1: Optimal Placement

4.3 Initial Cleaning

Before first use, it is recommended to perform an initial cleaning cycle. Refer to the 'Automatic Self-Cleaning' section under Maintenance for detailed steps.

5. OPERATING INSTRUCTIONS

5.1 Adding Water

Open the top lid and pour potable water into the reservoir. The water tank has a 1-liter capacity. Do not exceed the MAX fill line.

Figure 5.1: Adding Water

5.2 Making Ice

After adding water, close the lid. Press the 'ICE' button on the control panel. The ice maker will begin producing nugget ice in as little as 5 minutes. It can produce up to 40 lbs of ice per day.

Ice-full Reminder

Don't worry about the ice maker working for a long time, it will stop working when the ice production reaches the alert level, to save energy.

6. MAINTENANCE

6.1 Automatic Self-Cleaning

The ice maker features a smart self-cleaning function for easy maintenance. Simply add water to the reservoir and press the 'CLEAN' button. The machine will automatically clean its interior, ensuring hygiene and safety. This cycle typically

takes about 15 minutes.

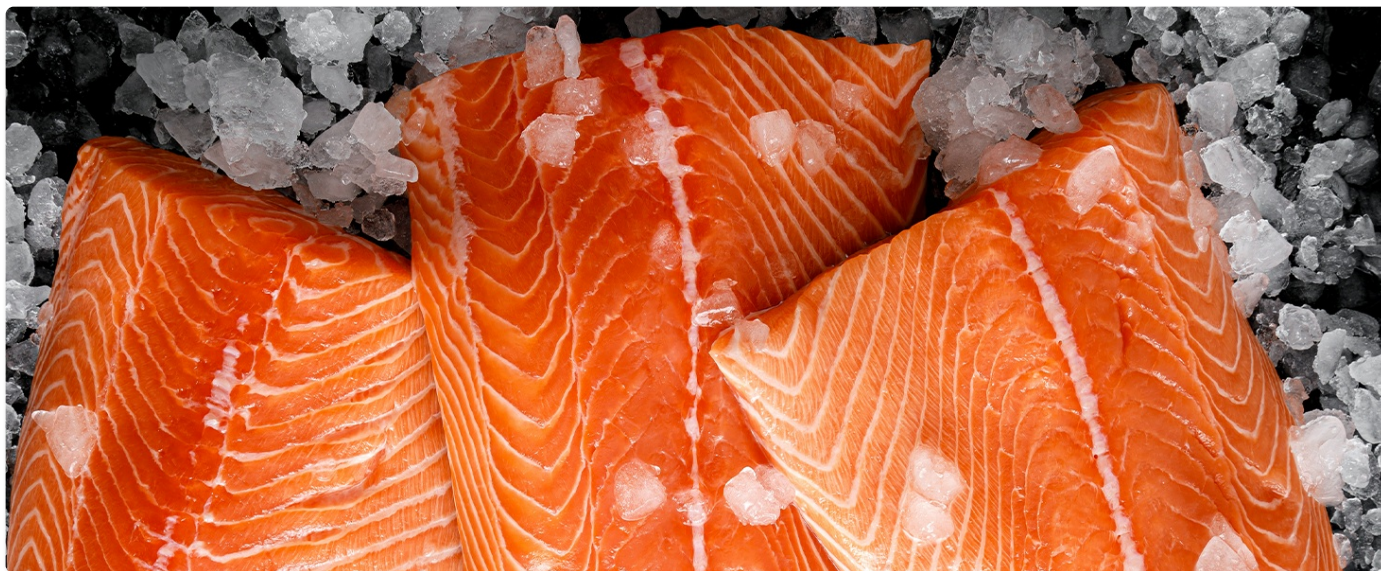

Figure 6.1: Automatic Cleaning Function

6.2 Draining Water

For thorough cleaning or storage, drain any remaining water from the unit using the specially designed drainage hose. This ensures smooth water discharge and prevents leaks.

7. TROUBLESHOOTING

If you encounter any issues with your ice maker, please refer to the table below for common problems and solutions. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
'Add Water' indicator is on	Water reservoir is empty.	Add water to the reservoir.
'Ice Full' indicator is on	Ice basket is full.	Remove ice from the basket.
Ice production is slow or ice is too soft	Poor ventilation, high ambient temperature, or mineral buildup.	Ensure proper ventilation, operate in a cooler environment, perform descaling.
Unusual noise during operation	Normal operation sounds (compressor, water pump) or unit not level.	Ensure the unit is on a stable, level surface. If noise is excessive, contact support.
