

## Augnner B005

# Augnner Sound Machine Alarm Clock User Manual

Model: B005

## INTRODUCTION

Thank you for choosing the Augnner Sound Machine Alarm Clock. This device combines a white noise sound machine, alarm clock, night light, and Bluetooth speaker into one compact unit, designed to enhance your sleep environment and daily routine. This manual provides detailed instructions for setup, operation, and maintenance.

The Augnner Sound Machine Alarm Clock, a compact device designed for sleep and daily use.

## PRODUCT FEATURES

The Augnner Sound Machine Alarm Clock offers a versatile set of features:

- **32 Non-Looping Soothing Sounds:** Includes white noise, brown noise, pink noise, and natural sounds like rain, streams, birdsong, waves, and more, designed to create an optimal sleep environment.
- **Dimmable Alarm Clock:** Features a clock display with adjustable brightness (off, 10%, 50%, 100%). Set alarms with 32 gentle natural wake-up sounds that gradually increase in volume. Includes a 9-minute snooze function.
- **Multi-functional Night Light:** Offers 8 unique light modes, RGB breathing, and 3000 adjustable color temperatures. Infinite dimming and color changes are controllable via the app. Can be used as a bedside lamp or wake-up light.
- **Bluetooth Speaker:** Connects via Bluetooth 5.3 for fast and stable audio streaming.
- **Smart App Control:** Control all functions including sound, volume, light color, brightness, and auto-off timer via a dedicated mobile application (available for iOS and Android).
- **Portable Design:** Compact size (3.15 x 3.15 x 1.85 inches) makes it suitable for home, office, or travel.
- **Long-lasting Battery & Memory Function:** Equipped with an 800 mAh built-in battery, providing 8+ hours of

continuous use after 1-2 hours of Type-C charging. Remembers previous settings for volume, brightness, tracks, alarm, and timers.

The device functions as a sound machine, alarm clock, Bluetooth speaker, and night light.

## PACKAGE CONTENTS

SETUP

1. Charging the Device

Before first use, fully charge the device. Connect the provided USB Type-C cable to the charging port on the back of the device and plug the other end into a USB power adapter (not included) or a computer USB port.

- A full charge takes approximately 1-2 hours.
- The device can operate for 8+ hours on a full charge.
- The app displays the exact battery status.

2. Power On/Off

To power on the device, long press the (Power Icon) button. To power off, long press the same button again.

3. App Download and Connection

For smart control and extended features, download the companion app. Search for "White Whisper" in your app store or scan the QR codes below:

## Safely Download Free APP

## 4. Auto-off Timer

- **Setting Timer:** Short press the (Timer Icon) button to activate the auto-off timer.
- **Cycling Durations:** Short press the button again to cycle through preset durations: 30, 60, 90, 120, 240 minutes, or OFF.
- **App Control:** The app allows you to set the auto-off timer for any custom duration.

## 5. Clock Display

- **Adjusting Brightness:** Short press the (Power Icon) button to cycle through clock display brightness levels: Off, 10%, 50%, 100%.
- **Time Format:** The device supports both 12-hour and 24-hour time formats. This can typically be adjusted via the app or during initial time setting.

Visual representation of the clock display at different brightness levels: Off, 10%, 50%, and 100%.

Examples of the clock display in both 12-hour (AM/PM) and 24-hour formats.

## 6. Bluetooth Speaker Function

- **Entering Bluetooth Mode:** Long press the ► || button for more than 2 seconds. The device will indicate it's ready for pairing (e.g., a sound prompt or flashing light).
- **Pairing:** On your smartphone or other Bluetooth-enabled device, search for "Augnner B005" (or similar name) in the Bluetooth settings and select it to pair.
- **Playback:** Once paired, you can play audio from your connected device through the Augnner Sound Machine.

## 7. Memory Function

The device is equipped with a memory function that remembers your last settings for volume, brightness, tracks, alarm, and timers, even after being powered off. This ensures your preferred settings are retained for convenience.

An icon representing the memory function, indicating the device remembers your last settings.

## MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.

- **Storage:** Store the device in a cool, dry place when not in use for extended periods.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in constant use.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery or no charge.	Connect the device to a power source using the USB Type-C cable and allow it to charge for at least 30 minutes before attempting to power on again.
No sound or low volume.	Volume is too low; device is paused; incorrect sound selected.	Increase volume using the + button. Short press ►    to ensure it's not paused. Cycle through sounds using + / - long press.
Bluetooth connection issues.	Device not in pairing mode; Bluetooth off on phone; interference.	Long press ►    to enter Bluetooth pairing mode. Ensure Bluetooth is enabled on your phone. Move closer to the device and away from other wireless devices.
Alarm does not sound.	Alarm is off; volume is too low; incorrect time set.	Short press to ensure alarm is enabled. Check alarm volume. Verify alarm time is correctly set.
Clock display is off or too dim.	Brightness set to off or lowest level.	Short press the (Power Icon) button to cycle through brightness levels.
App cannot connect to device.	Bluetooth not enabled; app not updated; device not powered on.	Ensure device is powered on and Bluetooth is enabled on your phone. Restart the app. Try restarting the device.
