## 6. MAINTENANCE

---

To ensure the longevity and hygiene of your Heybly Cat Tree, follow these maintenance guidelines:

- **Cleaning:** The plush surfaces should be spot cleaned only. Use a damp cloth with mild soap for small stains. For deeper cleaning, hand wash only. Do not machine wash or tumble dry any fabric components.
- **Vacuuming:** Regularly vacuum the plush areas to remove loose fur and dust.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Scratching Post Wear:** Sisal scratching surfaces are designed to be durable but will show wear over time. Monitor their condition and consider replacing the cat tree if the scratching areas become excessively worn, compromising its function.

## 7. TROUBLESHOOTING

---

### Common Issues and Solutions:

- **Instability:**  
*Possible Cause:* Loose connections or uneven surface.  
*Solution:* Check and tighten all screws. Ensure the cat tree is placed on a flat, level floor. Utilize the anti-tip strap to secure it to a wall.
- **Cat Not Using Scratching Posts:**  
*Possible Cause:* Preference for other scratching surfaces or unfamiliarity.  
*Solution:* Encourage your cat by gently rubbing catnip on the sisal posts. Demonstrate scratching by gently guiding your cat's paws or using a toy.
- **Cat Not Using Condo/Basket:**  
*Possible Cause:* Cat prefers other resting spots or needs time to adjust.  
*Solution:* Place a favorite blanket or toy inside the condo/basket. Allow your cat time to explore and become comfortable with the new space.
- **Worn Sisal:**  
*Possible Cause:* Normal wear and tear from scratching.
