WinZo SM8009-1

WinZo Luxury Smart Toilet User Manual

Model: SM8009-1

Brand: WinZo

1. INTRODUCTION AND OVERVIEW

Thank you for choosing the WinZo Luxury Smart Toilet. This advanced one-piece toilet is designed to provide unparalleled comfort, hygiene, and convenience with its integrated smart features. This manual provides essential information for the proper installation, operation, maintenance, and troubleshooting of your new smart toilet.

2. SAFETY INFORMATION

Please read all safety instructions carefully before installation and use to prevent injury or damage.

- Ensure the electrical outlet is a grounded GFCI outlet and meets the 110V power requirement.
- Do not immerse the product in water or spray water directly onto electrical components.
- For emergency manual flushing during power outages, 9V batteries are required (not included).
- All plumbing and electrical work should be performed by qualified professionals in accordance with local codes.

3. INCLUDED COMPONENTS

Verify that all the following components are included in your package:

- WinZo Smart Toilet Unit
- Remote Control
- Angle Valve
- Installation Hardware
- User Manual (this document)
- Wax Ring

4. SETUP AND INSTALLATION

The WinZo Smart Toilet is designed for a standard 12-inch rough-in and features a 17-inch comfort seat height. Installation requires a 110V power outlet. No extra tank is needed as it is a tankless design.

For detailed installation instructions, please refer to the dedicated Installation Manual PDF provided with your product or download it from the manufacturer's website. A professional plumber is recommended for installation.

Key Installation Considerations:

- **Power Supply:** Ensure a dedicated 110V GFCI electrical outlet is available near the installation site.
- **Water Supply:** Connect the toilet to your existing water supply line using the provided angle valve and appropriate connectors.
- **Rough-in Measurement:** Confirm your bathroom's rough-in measurement is compatible with the 12-inch standard.

Note: The toilet is heavy (98 lbs). Exercise caution and seek assistance during handling and placement.

5. OPERATING INSTRUCTIONS

Your WinZo Smart Toilet offers a range of intelligent features for enhanced comfort and hygiene. These functions can be controlled via the included remote control or the intuitive side buttons.

5.1. Automatic Operation

The toilet is equipped with sensors for hands-free operation.

- **Auto Open/Close:** The seat will automatically open when you approach and close after use.
- **Foot Kick Sensor:** A gentle foot kick near the base can also trigger the automatic opening of the seat.
- **Auto Flush:** The toilet will automatically flush after use, ensuring a clean bowl without manual intervention.

5.2. Comfort Features

- **Heated Seat:** Enjoy a warm seat with adjustable temperature settings. Never experience a cold seat again.
- **Warm Air Drying:** After bidet use, a warm air dryer provides comfort and reduces the need for toilet paper. Adjustable temperature and wind settings are available.
- **Starry Night Light:** An integrated starry night light system provides subtle illumination for nighttime bathroom visits, enhancing the luxury experience.

5.3. Bidet and Hygiene Functions

The built-in bidet offers personalized cleansing with multiple wash modes.

- **Multiple Wash Modes:** Choose from gentle wash for ladies, strong wash for deep cleaning, hip wash (rear), and mobile wash for comprehensive cleansing.
- **UV-C Sterilization:** The self-cleaning nozzles utilize UV-C technology to ensure optimal hygiene and cleanliness.
- **Infrared Technology:** Designed to improve bowel movements for added comfort.

5.4. Control Options

- **Remote Control:** The included remote control provides full access to all smart features and settings.

- **Side Buttons:** Conveniently located side buttons offer quick access to frequently used functions such as flush, drying, and wash modes.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your WinZo Smart Toilet.

- **General Cleaning:** Use a soft cloth and mild, non-abrasive cleaner to wipe down the exterior surfaces. Avoid harsh chemicals that may damage the finish.
- **Nozzle Cleaning:** The bidet nozzles are self-cleaning. For additional cleaning, refer to the remote control or side button functions to extend the nozzle for manual wiping.
- **Triple-Filter System:** The integrated triple-filter system helps maintain water purity. Consult the full installation manual for filter replacement guidelines if applicable.
- **Power Outage:** In case of a power outage, the toilet can be manually flushed. Ensure 9V batteries are installed for this emergency function.

7. TROUBLESHOOTING

If you encounter any issues with your WinZo Smart Toilet, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Toilet does not flush automatically.	No power; sensor obstructed or dirty.	Check power connection and GFCI outlet. Clean sensors. Ensure 9V batteries are installed for emergency manual flush.
Heated seat not warming.	Power issue; temperature setting too low.	Verify power. Adjust seat temperature setting via remote or side buttons.
Bidet spray not working.	Water supply off; nozzle obstructed; power issue.	Ensure water supply valve is open. Check for nozzle obstructions. Verify power connection.
Starry night light not illuminating.	Light function turned off; power issue.	Activate night light via remote or side buttons. Check power connection.

If the problem persists after attempting these solutions, please contact WinZo customer support for further assistance.

8. SPECIFICATIONS
