User Manual

AROEPURT PHONE CASE WITH TEMPERED GLASS SCREEN PROTECTOR

Model: CPT19 | Compatible with ZTE Optus X Total P656

Introduction

Thank you for choosing the Aroepurt Phone Case with Tempered Glass Screen Protector. This manual provides detailed instructions for the proper installation, use, and maintenance of your new phone accessory. Designed specifically for the ZTE Optus X Total P656, this case offers comprehensive protection and enhanced functionality.

Product Features

- **Multi-functional Design:** Features a kickstand for convenient media viewing.
- **Durable Material:** Constructed from high-quality PU leather with a silicone ring for enhanced protection.
- **Card Storage:** Includes integrated card slots for carrying essential cards and cash.
- **Magnetic Closure:** Securely keeps your phone and valuables in place.
- **Aesthetic Appeal:** Beautiful design that resists fading.
- **Fine Stitch Edge Sealing:** Ensures durability and a premium finish.
- **Tempered Glass Screen Protector:** Provides 9H high hardness, shatterproof, anti-fingerprint, and 99.9% super transparency for optimal screen protection.

What's in the Box

- 1 x Aroepurt Phone Case (CPT19)
- 1 x Tempered Glass Screen Protector

Setup and Installation

Installing the Phone Case:

1. Ensure your ZTE Optus X Total P656 phone is clean and free of dust.
2. Gently align your phone with the silicone inner shell of the case.
3. Press the phone firmly into the case, ensuring all corners and edges are securely seated.
4. Close the magnetic flap to secure the case.

Installing the Tempered Glass Screen Protector:

1. **Clean the Screen:** Use the provided alcohol wipe to thoroughly clean your phone's screen.
2. **Dry the Screen:** Use the microfiber cloth to dry the screen completely, removing any smudges or dust.
3. **Remove Dust:** Use the dust absorber sticker to pick up any remaining dust particles.
4. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Align the protector with your phone's screen, ensuring it matches the edges and cutouts precisely.
5. **Apply:** Gently lower the protector onto the screen. It will adhere automatically.
6. **Remove Bubbles:** If any bubbles appear, gently push them towards the edges using the microfiber cloth or a soft card.

Operating Instructions

Using the Kickstand Feature:

To use the kickstand, simply fold the back cover of the case along the designated crease. This allows you to prop your phone up horizontally for hands-free viewing of videos, movies, or video calls.

Image: This image illustrates how the case's magnetic closure functions and demonstrates the adjustable viewing angles provided by the stand feature, ideal for media consumption.

Using Card Slots:

The case includes multiple slots designed to hold credit cards, ID cards, or small amounts of cash. Insert your cards gently into the designated slots. The magnetic closure helps keep your valuables secure.

Maintenance

- **Cleaning the Case:** Wipe the PU leather surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector to remove fingerprints and smudges. For stubborn marks, a screen cleaner spray designed for electronics can be used.
- **Avoid Extreme Conditions:** Do not expose the case or screen protector to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Inspect Regularly:** Periodically check the case and screen protector for any signs of wear or damage.

Troubleshooting

- **Case Not Closing Securely:** Ensure no foreign objects are lodged between the case and the phone. Check if the magnetic flap is obstructed.
- **Bubbles Under Screen Protector:** If bubbles appear after installation, gently push them towards the edges with a soft cloth. For persistent bubbles, re-lift a corner of the protector carefully and re-apply, ensuring no dust is trapped.
- **Reduced Touch Sensitivity:** While rare, if touch sensitivity is affected, ensure the screen protector is properly adhered without air gaps. Restarting the phone can sometimes resolve minor issues.
