## TROUBLESHOOTING

---

### Screen Protector Bubbles

If bubbles appear after installation, gently lift the nearest edge of the screen protector and re-apply, pushing the bubble towards the edge with a clean, soft cloth or a credit card wrapped in cloth.

### Case Fit Issues

Ensure your phone model is ZTE Nubia A75 Z6255. If the case does not fit correctly, double-check that the phone is fully seated within the case and that no foreign objects are obstructing the fit.

Luminous Effect Not Visible

The luminous effect requires prior exposure to light (sunlight or artificial light) to charge. Ensure the case has been exposed to sufficient light before expecting it to glow in the dark.
