6-Way connector
(1pc)

Timer (1pc)

15mm plug (1pc)

6mm plug (4pc)

Faucet connector
(1pc)

All components of the HIRALIY 50FT Drip Irrigation Kit, clearly labeled for identification.

Setup Instructions

Follow these steps for a quick and easy installation of your drip irrigation system:

1. **Connect the Water Timer:** Attach the water timer to your outdoor faucet. Ensure a secure connection to prevent leaks. The timer features a clear display for easy programming.

EASY TO SETUP

Bigger Screen & Clearer Display

The water timer securely attached to a standard outdoor faucet, ready for connection to the irrigation system.

2. **Assemble Mainline and Branches:** Connect the 10FT main hose to the water timer. Utilize the 6-way connector to branch off with the 1/4" irrigation tubing. The quick-connect design allows for simple, push-to-connect installation without the need for hot water softening or complex tools.

QUICK-CONNECT

1 Second Installation

Hot water softening (5s)
Extrusion mounting (30s)
Time consuming and laborious

Illustrates the ease of the quick-connect system compared to older, more time-consuming methods.

SOLVE WATER PRESSURE PROBLEMS

The 6-way connector facilitates efficient distribution of water from the main tubing to multiple branch lines.

3. **Install Drippers:** Attach the adjustable drippers to the ends of the 1/4" irrigation tubing. Use the included support rods to secure the drippers in place near your plants. Ensure the drippers are positioned to provide water directly to the plant roots.

Operating Instructions

Water Timer Programming

The multi-functional water timer allows you to customize watering schedules for optimal plant health:

- **Set Watering Duration:** You can set the watering duration from 1 minute up to 23 hours and 59 minutes. Use the "+/-" buttons and OK button to set the time, then turn the dial to save.
- **Set Watering Frequency:** Choose your watering frequency from
