LBEKA W03B

LBEKA W03B Cat Water Fountain Filter Instruction Manual

For LBEKA 102oz/3L Pet Water Fountain (Model W03B)

1. PRODUCT OVERVIEW

This manual provides instructions for the LBEKA W03B Cat Water Fountain Replacement Filters. These filters are designed to ensure your pet receives clean, fresh water from your LBEKA 102oz/3L Pet Water Fountain.

Image 1.1: An 8-pack of LABEKA W03B cat water fountain filters shown alongside a compatible pet water fountain.

Filter Composition and Function

The LABEKA W03B filters utilize a multi-stage filtration system to purify water. Each filter is encased in durable high-density fabric and contains:

- **Foam Filter:** Traps larger particles like hair and debris.
- **Activated Carbon Adsorption Sponge:** Further removes impurities and odors.
- **Coconut Activated Carbon:** Provides enhanced absorption of chlorine and other contaminants.
- **Medical Stone:** Helps to balance pH levels and enrich water with beneficial minerals.
- **Silver Ion Ceramic Antibacterial Balls:** Inhibits bacterial growth in the water.
- **Additional Foam Filter:** Provides a final layer of filtration.

Healthy Filter Ingredients

Image 1.2: A visual breakdown of the six filtration layers within the LABEKA W03B replacement filter.

2. SETUP AND INSTALLATION

Follow these steps to properly prepare and install your new LABEKA W03B filter:

1. **Soak the Filter:** Place the new filter in a clean bowl of water and soak it for 5 minutes. This helps to remove any loose carbon dust and prepares the filter for optimal performance.
2. **Rinse the Filter:** After soaking, rinse the filter thoroughly under running tap water for 30 seconds.

How to Use the Filter

1

Soak the filter for 5 minutes.

2

Rinse the filter for 30 seconds before use

Image 2.1: Step-by-step visual guide for soaking the filter in water for 5 minutes and then rinsing it under a faucet for 30 seconds.

3. **Access Filter Cartridge:** Open the lid of the filter cartridge compartment on your LABEKA pet water fountain.
4. **Insert Filter:** Place the prepared filter into the designated slot within the filter cartridge. Ensure it sits securely.
5. **Close Cartridge:** Close the lid of the filter cartridge compartment.

How to Assemble?

1

Soak the filter in a clean bowl of water for 5 minutes.

2

Open the lid of the filter cartridge upwards

3

Put the filter in and close the lid.

Image 2.2: Visual instructions for opening the filter compartment, inserting the filter, and closing the lid.

6. **Add Water:** Fill the water tank with fresh water, ensuring the level is between the minimum and maximum fill lines.
7. **Reassemble Fountain:** Place the top cover back onto the water tank, ensuring all components are properly aligned.
8. **Connect Power:** Plug the power adapter into a suitable electrical outlet to start the fountain.

Image 2.3: Visual instructions for adding water to the fountain, placing the top cover, and connecting the power adapter.

3. OPERATING INSTRUCTIONS

Once the filter is installed and the fountain is assembled and powered on, the fountain will begin circulating and filtering water for your pet. Ensure the water level is always maintained above the minimum line to prevent pump damage.

Healthy Hydration, Happy Pets

To consistently provide a fresh and clean water,
*Actual replacement frequency may vary based on usage.

4. MAINTENANCE

Regular maintenance of your LABEKA W03B filters and fountain is crucial for providing your pet with consistently clean water and extending the life of the product.

Filter Replacement

- Replace filters every **2 to 4 weeks** under normal usage conditions.
- For households with multiple pets, or if the water appears cloudy or has an odor, replace the filter more frequently.

Image 4.1: A visual reminder to replace the filter every 1-2 weeks for optimal performance, with actual frequency depending on usage.

Fountain and Pump Cleaning

- To prolong the life of the water pump and maintain hygiene, clean the entire fountain and pump every **1 to 2 weeks**.
- Refer to your LABEKA W03B Pet Water Fountain manual for detailed cleaning instructions for the fountain and pump components.

5. TROUBLESHOOTING

No specific troubleshooting information for the filters is provided. If you encounter issues with water flow or quality after replacing the filter, please ensure:

- The filter was properly soaked and rinsed before installation.
- The filter is correctly seated in its compartment.
- The water pump and fountain components are clean and free of debris.
- The water level in the fountain is adequate.

For issues related to the fountain's operation (e.g., pump noise, no water flow), please consult the instruction manual for your LABEKA W03B Pet Water Fountain or contact customer service.
