PRODUCT OVERVIEW

Key Features

- **AI Fingerprint Recognition:** Equipped with advanced AI fingerprint recognition for precise and swift access in under 0.3 seconds, supporting up to 100 fingerprints with 99% accuracy.
- **Built-in Wi-Fi & APP Control:** No bridge required. Control your deadbolt smart lock from anywhere using the Tuya app, receiving real-time notifications, managing users, generating temporary passwords, and viewing event history.
- **6-in-1 Keyless Entry:** Multiple unlocking options including AI fingerprint, app remote control, IC card, voice control (Alexa/Google Assistant), password, and traditional key.
- **Strong Security Features:** Includes auto-lock (5s-15min), one-touch lock, and error input restrictions. Low battery alarm and IP54 waterproof rating for durability.
- **Excellent Battery Life:** Powered by 8 AA batteries (not included), the lock can operate for up to 8 months.

MAINTENANCE

Battery Life

The Devo G6 Smart Lock is powered by 8 AA batteries (not included) and offers an impressive 8 months of battery life, reducing the need for frequent battery changes. The Tuya app will notify you in advance when the battery is running low.

TROUBLESHOOTING

If you encounter any issues with your Devo G6 Smart Lock, please refer to the following common troubleshooting steps:

- **Lock not responding:** Check battery levels. Replace batteries if low. Ensure the lock is properly installed and aligned.
- **Fingerprint not recognized:** Ensure your finger is clean and dry. Re-register your fingerprint if issues persist.
- **App connectivity issues:** Verify your Wi-Fi network is 2.4GHz and stable. Restart your router and the lock. Ensure the Tuya app is updated to the latest version.
- **Password not working:** Double-check the entered password. Ensure the lock is not in a locked-out state due to too many incorrect attempts.
- **Auto-lock not engaging:** Verify the auto-lock timer setting in the app.

For more detailed troubleshooting or persistent issues, please contact customer support.
