Advwin 2 Drawers LED Nightstand

Advwin Bedside Table User Manual

Model: 2 Drawers LED Nightstand

INTRODUCTION

Thank you for purchasing the Advwin Bedside Table. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new bedside table. Please read this manual thoroughly before use and retain it for future reference.

This bedside table features two drawers for storage, integrated LED lighting with human induction, a wireless charging station, and USB & Type-C charging ports, designed to enhance convenience and functionality in your bedroom.

SAFETY INSTRUCTIONS

To ensure safe operation and prevent damage, please observe the following safety precautions:

- **Placement:** Place the bedside table on a flat, stable surface to prevent tipping.

- **Power Source:** Only use the provided power adapter. Ensure the power outlet matches the voltage requirements specified in the specifications section.

- **Water Exposure:** Keep the unit away from water or damp environments. Do not expose to rain or moisture.

- **Ventilation:** Do not block ventilation openings. Ensure adequate airflow around the unit.

- **Children and Pets:** Keep small parts and packaging materials out of reach of children and pets to prevent choking hazards.

- **Overload:** Do not overload the drawers or shelves beyond their stated weight capacity.

- **Cleaning:** Disconnect power before cleaning. Use a dry, soft cloth. Avoid abrasive cleaners.

- **Repair:** Do not attempt to repair or modify the unit yourself. Contact qualified service personnel for any repairs.

PACKAGE CONTENTS

Please check the package carefully to ensure all components are present and undamaged. If any parts are

missing or damaged, please contact customer support.

- Bedside Table Frame (Main Body)
- Drawer Panels and Hardware
- LED Light Strip
- Wireless Charging Module
- USB & Type-C Port Module
- Power Adapter
- Assembly Hardware (screws, dowels, cam locks, etc.)
- Assembly Tool (Hex Key/Allen Wrench)
- User Manual (this document)

Note: Product images would typically be displayed here to visually represent the package contents. No image URLs were provided in the input.

SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is recommended to assemble the unit on a soft, clean surface to prevent scratches.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Verify all parts listed in the "Package Contents" section are present.
2. **Assemble Frame:** Connect the side panels to the top and bottom panels using the provided screws and cam locks. Ensure all connections are secure.
3. **Install Drawer Slides:** Attach the drawer slides to the inner side panels of the table frame using the smaller screws. Ensure they are level and aligned.
4. **Assemble Drawers:** Construct the two drawers by attaching the side, front, and back panels. Insert the drawer bottom into the grooves. Attach the drawer slides to the assembled drawers.
5. **Insert Drawers:** Carefully slide the assembled drawers into the installed drawer slides on the table frame until they click into place.
6. **Install LED Light Strip:** Adhere the LED light strip to the designated area, typically along the bottom edge or inside the open shelf, as indicated by markings. Connect the LED cable to the main control module.
7. **Install Charging Modules:** Insert the wireless charging module and the USB & Type-C port module into their respective cutouts on the tabletop or designated panel. Connect their cables to the main control module.
8. **Connect Power:** Plug the power adapter into the main control module, then plug the adapter into a wall outlet.

Note: Step-by-step assembly diagrams or videos would typically be embedded here. No media URLs were provided in the input.

OPERATING INSTRUCTIONS

LED Lighting with Human Induction

The LED lighting system is equipped with a human induction sensor, designed to illuminate automatically when motion is detected in its range, typically when you approach the bedside table in the dark.

- **Automatic Activation:** The sensor detects movement within approximately 1-3 meters and activates the LED light.

- **Deactivation:** The light will automatically turn off after a period of no motion (e.g., 30-60 seconds), conserving energy.

- **Brightness Adjustment (if applicable):** Some models may feature a touch sensor or button to adjust brightness. Refer to specific markings on your unit.

Wireless Charging Station

The integrated wireless charging pad supports Qi-compatible devices.

1. Ensure the bedside table is connected to power.

2. Place your Qi-compatible smartphone or device directly onto the center of the wireless charging pad.

3. The device should indicate that it is charging (e.g., a charging icon on the screen). If not, slightly adjust the position of your device.

4. Remove any thick cases or metallic objects from your device that may interfere with charging.

USB & Type-C Charging Ports

The bedside table includes standard USB-A and USB-C ports for wired charging of various devices.

- Ensure the bedside table is connected to power.

- Connect your device's charging cable to the appropriate USB-A or Type-C port.

- Plug the other end of the cable into your device.

- Verify that your device begins charging.

Note: Operational demonstrations or feature highlights would typically be shown via images or videos here. No media URLs were provided in the input.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your Advwin Bedside Table.

- **Cleaning:**

  - Before cleaning, disconnect the power adapter from the wall outlet.
  - Wipe surfaces with a soft, dry, or slightly damp cloth.
  - Do not use harsh chemicals, abrasive cleaners, or polishes as they may damage the finish.
  - For spills, wipe immediately with a clean, dry cloth.

- **Drawer Care:** Periodically check drawer slides for smooth operation. If they become stiff, a small amount of silicone lubricant can be applied.

- **Electrical Components:** Keep the wireless charging pad and USB ports free from dust and debris. Do not insert foreign objects into the ports.

- **Fasteners:** Occasionally check all screws and fasteners to ensure they are tight. Retighten if necessary, but do not overtighten.

TROUBLESHOOTING

If you encounter issues with your bedside table, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
LED light does not turn on.	No power. Sensor blocked or faulty. Ambient light too bright.	Check power adapter connection to outlet and table. Ensure sensor is clean and unobstructed. Test in a darker environment.
Wireless charging not working.	Device not Qi-compatible. Device not centered on pad. Thick phone case or metallic object. No power to table.	Verify device supports Qi wireless charging. Adjust device position on the pad. Remove case or metallic objects. Check power connection.
USB/Type-C ports not charging.	No power to table. Faulty charging cable. Device not compatible. < /ul>	Check power connection. Try a different charging cable. Ensure device is compatible with standard USB charging.
Drawers stick or are difficult to open/close.	Misaligned drawer slides. Debris in slides. Overloaded drawer.	Recheck assembly of drawer slides. Clean slides of any dust or debris. Reduce weight in the drawer.

If the problem persists after trying these solutions, please contact customer support.

SPECIFICATIONS

Model Name	Advwin 2 Drawers LED Nightstand
Dimensions (Approx.)	[Insert Height] x [Insert Width] x [Insert Depth] cm / inches
Material	[Insert Material, e.g., Particle Board, MDF, Metal]
Color	Black
Power Input	AC 100-240V, 50/60Hz
Power Output (Adapter)	DC [Insert Voltage]V, [Insert Amperage]A
Wireless Charging Output	[Insert Wattage, e.g., 10W, 15W] (Qi-compatible)
USB-A Output	[Insert Voltage/Amperage, e.g., 5V/2.1A]
Type-C Output	[Insert Voltage/Amperage, e.g., 5V/3A, 9V/2A]
LED Sensor Range	Approx. 1-3 meters

Note: Specific dimensions and power ratings are not provided in the input data and should be filled in by the user based on the actual product specifications.

WARRANTY AND SUPPORT
