

AURAFIT G12

AURAFIT G12 Fitness Smartwatch User Manual

Your comprehensive guide to setting up, operating, and maintaining your AURAFIT G12 Fitness Smartwatch.

INTRODUCTION

Thank you for choosing the AURAFIT G12 Fitness Smartwatch. This manual provides detailed instructions to help you maximize your device's features, including GPS tracking, health monitoring, and communication capabilities. Please read this manual thoroughly before using your smartwatch.

1. SETUP GUIDE

1.1. What's in the Box

Upon opening your AURAFIT G12 package, you should find the following items:

- AURAFIT G12 Smartwatch
- Charging Cable
- Watch Band (additional band may be included)
- User Manual (this document)

Dive Deeper Live Freer

3ATM Smartwatch: Swim, surf, or face rainstorms—your watch handles it all

3ATM = Water-resistant up to 30 meters.

Suitable for swimming and shallow-water activities. Not recommended for diving or high-speed water sports.

Image: The AURAFIT G12 smartwatch, a replacement watch strap, the instruction manual, and the charging dock are displayed.

1.2. Charging the Smartwatch

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port.

- A full charge typically takes approximately 2 hours.
- The battery icon on the screen will indicate charging status.

Two Weeks on a Single Charge Live Unplugged

14-day battery life is based on typical usage. Actual results may vary depending on individual habits and settings.

Image: The AURAFIT G12 smartwatch on a charging pad, showing a green battery icon with a lightning bolt, indicating it is charging. A circular dashed line around the watch further emphasizes the charging process.

1.3. Power On/Off

- **Power On:** Press and hold the side button for 3-5 seconds until the AURAFIT logo appears.
- **Power Off:** Press and hold the side button, then select "Power Off" from the options on the screen.

1.4. App Installation and Pairing

To unlock the full potential of your G12 smartwatch, download the "Smart-Timepro" app on your smartphone.

1. Scan the QR code in the manual or search for "Smart-Timepro" in the Apple App Store or Google Play Store.
2. Install and open the app.
3. Follow the on-screen instructions in the app to create an account and pair your G12 smartwatch via Bluetooth. Ensure Bluetooth is enabled on your phone.

May I help you?

24/7 Hours Customer service.

2 Year Warranty

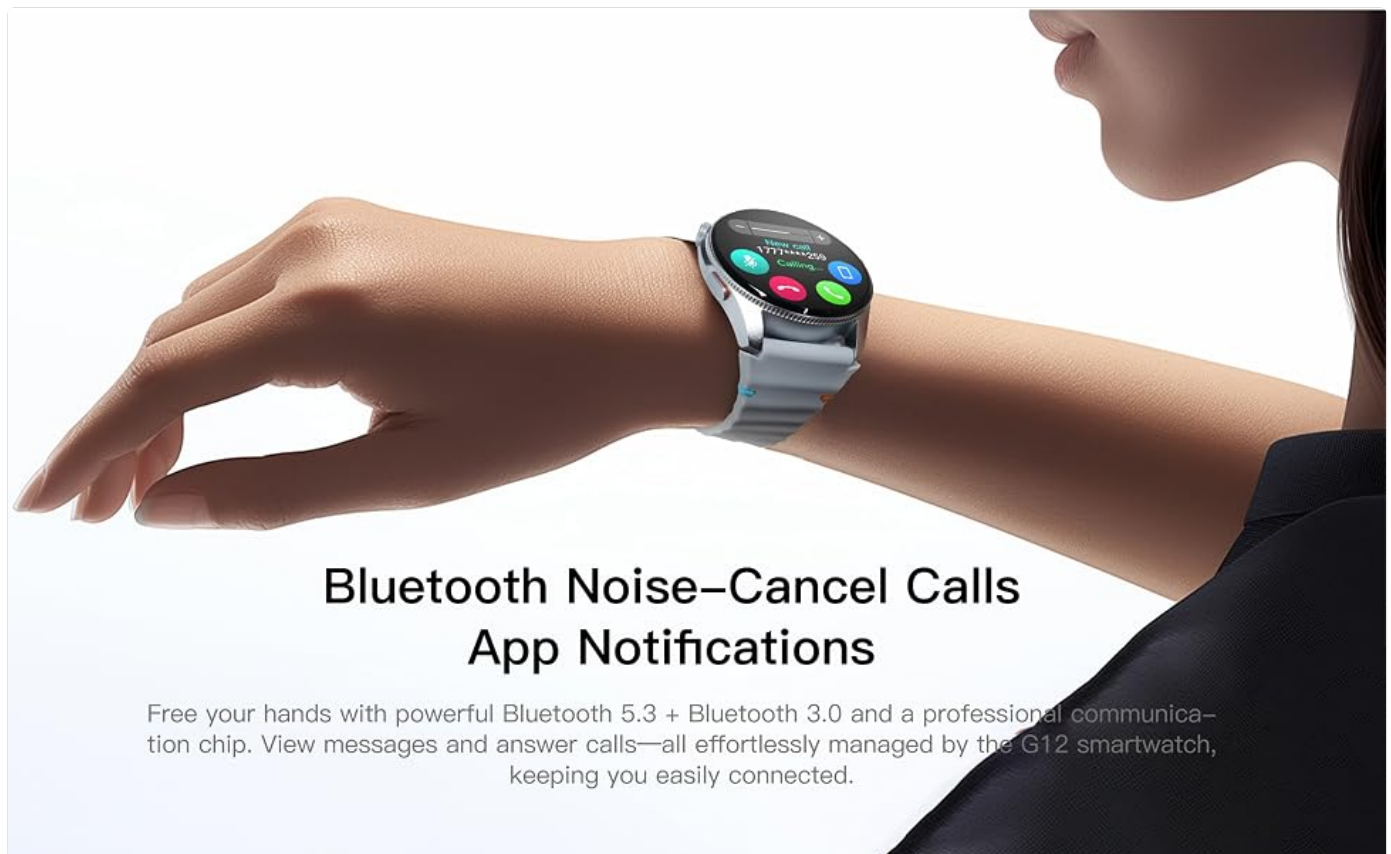

If the product is damaged or unusable, we will provide you with warranty or replacement service

Image: Three smartphone screens showing the "Smart-Timepro" application. The screens display various health metrics such as steps, calories, distance, heart rate, and sleep patterns, illustrating the app's data tracking capabilities.

2. OPERATING INSTRUCTIONS

2.1. Basic Navigation

- **Touchscreen:** Swipe left/right, up/down to navigate through menus and widgets. Tap to select.
- **Side Button:** Press to return to the home screen or wake the device. Long press for power options or AI voice assistant.
- **Rotating Crown:** Rotate to scroll through lists and menus.

Bluetooth Noise-Cancel Calls App Notifications

Free your hands with powerful Bluetooth 5.3 + Bluetooth 3.0 and a professional communication chip. View messages and answer calls—all effortlessly managed by the G12 smartwatch, keeping you easily connected.

Image: A detailed view of the AURAFIT G12 smartwatch highlighting its 1.43-inch AMOLED display, the textured rotating crown on the side, and the sleek design of the watch body. Text overlays indicate "1.43" AMOLED", "466x466 px", and "600nit Brightness" for the screen, and "Exquisite Craftsmanship" and "Rotating Crown" for the physical features.

2.2. Call Functions

The G12 smartwatch supports Bluetooth calls, allowing you to answer or make calls directly from your wrist when connected to your smartphone.

- **Answering Calls:** When a call comes in, tap the green phone icon on the watch screen.
- **Making Calls:** Access the dialer or contacts list on your watch to initiate a call.
- Ensure your watch is within Bluetooth range of your paired phone for call functionality.

Health Monitoring

Always Safeguarding Your Health

Deeply optimized hardware light paths and algorithms provide around-the-clock heart rate tracking, supports 24-hour sleep monitoring, ensuring precise monitoring even during exercise, always attentive to your needs.

Image: A person's wrist wearing the AURAFIT G12 smartwatch, which displays an incoming call notification with the caller ID "177****259 Calling..." and options to answer (green icon) or decline (red icon). The text "Bluetooth Noise-Cancel Calls App Notifications" is visible above the image.

2.3. Health Monitoring

The G12 provides 24/7 health tracking features:

- **Heart Rate:** Continuous heart rate monitoring.
- **Blood Oxygen (SpO2):** Measures blood oxygen levels.
- **Sleep Tracking:** Monitors sleep stages and duration.
- **Stress Analysis:** Provides insights into stress levels.

Access these features through the watch's health menu or the Smart-Timepro app for detailed reports.

2.4. Sport Modes and GPS Tracking

The G12 offers over 150 sport modes and integrated GPS for accurate activity tracking.

- **Selecting a Sport Mode:** Navigate to the "Sports" menu on your watch, select your desired activity (e.g., Running, Cycling, Hiking), and start your workout.
- **GPS Tracking:** The built-in GNSS chip supports GPS/GLONASS/Galileo/BeiDou/QZSS systems for precise outdoor tracking. Ensure you have a clear view of the sky for optimal GPS signal acquisition.

Touch The Future With an Unlimited Horizon

1.43" AMOLED HD display with clear visuals and rich details makes everything more exciting. The simple operation allows for easier data viewing, and the efficiency boost is visible with just a wrist raise!

Precision GPS tracking for every adventure

Dual-frequency GPS chip delivers $\pm 3\text{m}$ precision. Pinpoints trails, streets, and paths with stable tracking. Record, replay, and share every route.

Image: The AURAFIT G12 smartwatch displaying a map with a blue location pin, indicating precise location tracking. The text "Precision GPS tracking for every adventure" is displayed above the image, and below, "Dual-frequency GPS chip delivers $\pm 3\text{m}$ precision. Pinpoints trails, streets, and paths with stable tracking. Record, replay, and share every route."

3. MAINTENANCE

3.1. Cleaning Your Smartwatch

Regular cleaning helps maintain the performance and appearance of your G12 smartwatch.

- Wipe the screen and watch body with a soft, lint-free cloth.
- For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- Clean the charging contacts periodically to ensure proper charging.

3.2. Water Resistance

The AURAFIT G12 is 3ATM water-resistant, meaning it can withstand splashes, rain, and recreational swimming up to 30 meters. It is not suitable for diving or high-speed water sports.

- Do not press buttons underwater.
- Avoid exposure to hot water, steam, or high-pressure water jets.

- Dry the watch thoroughly after exposure to water.

24/7 Health Protection

Advanced sensors and AI track heart rate, sleep, and workouts with lab-grade accuracy.
Built for nonstop precision—always adapting, always safeguarding your wellness

Image: A person's hand wearing the AURAFIT G12 smartwatch, with water splashing around it, illustrating its 3ATM waterproof rating. The watch face shows a digital clock with the time 11:12.

3.3. Battery Care

- Avoid extreme temperatures, which can degrade battery life.
- For long-term storage, charge the watch to about 50% and store it in a cool, dry place.
- The G12 features a 450mAh battery, providing up to 2 weeks of typical use on a single charge.

4. TROUBLESHOOTING

Problem	Solution
Watch not powering on	Ensure the watch is fully charged. Connect it to the charger for at least 10 minutes, then try powering it on again.

Problem	Solution
Cannot pair with smartphone	• Ensure Bluetooth is enabled on your phone and the watch. • Make sure the watch is in pairing mode. • Restart both your phone and the smartwatch. • Check if the "Smart-Timepro" app is updated to the latest version.
Inaccurate health readings	• Ensure the watch is worn snugly on your wrist, not too tight or too loose. • Clean the sensor on the back of the watch. • Avoid excessive movement during measurements.
GPS signal issues	• Ensure you are in an open outdoor area with a clear view of the sky. • Wait a few moments for the watch to acquire a stable GPS signal.
Call quality is poor or no sound	• Ensure the watch is within close proximity to your paired smartphone. • Check the volume settings on both your watch and phone. • Verify that the watch's microphone and speaker are not obstructed.

5. TECHNICAL SPECIFICATIONS
