Enventor MFA-6L-I

Enventor Mini Skincare Fridge Model MFA-6L-I User Manual

Your guide to setup, operation, and maintenance.

Introduction

Thank you for choosing the Enventor Mini Skincare Fridge. This compact and portable refrigerator is designed to keep your skincare products, cosmetics, beverages, and snacks at optimal temperatures. It features both cooling and warming functions, a dimmable LED mirror, and versatile power options for home or travel use. Please read this manual thoroughly before operation to ensure proper use and maintenance.

Important Safety Information

- Ensure the power supply matches the voltage specified on the appliance.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Keep ventilation openings clear of obstructions.
- Unplug the appliance before cleaning or when not in use for extended periods.
- Do not use the appliance if the power cord or plug is damaged.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not block the fan or ventilation openings.
- Avoid placing the appliance in direct sunlight or near heat sources.

What's in the Box

- 1 x Enventor Mini Refrigerator with LED Light Mirror
- 1 x AC Power Cord (110V)
- 1 x DC Power Cord (12V)

Setup Instructions

1. Placement

Place the mini fridge on a flat, stable surface. Ensure there is adequate ventilation around the unit, especially at the back where the fan is located. Avoid placing it in direct sunlight or near heat-emitting appliances.

2. Power Connection

The fridge comes with two power cords: an AC cord for home use (110V) and a DC cord for car use (12V).

- **For Home Use:** Connect the AC power cord to the AC port on the back of the fridge, then plug it into a standard

110V wall outlet.

- **For Car Use:** Connect the DC power cord to the DC port on the back of the fridge, then plug it into your vehicle's 12V cigarette lighter socket.

Image: Visual representation of connecting the fridge to a standard home outlet (AC 120V) and a car's 12V power socket (DC 12V).

3. Initial Use

After connecting the power, switch the unit to the desired mode (COOL or WARM). Allow 30 minutes for the internal temperature to stabilize before placing items inside.

Operating Instructions

1. Cooling and Warming Modes

The fridge offers dual functionality for cooling and warming. Use the switch on the back of the unit to select your desired mode:

- **COOL Mode:** The unit will cool items up to 68°F (20°C) below the ambient temperature. Ideal for skincare products, beverages, and snacks.
- **WARM Mode:** The unit will warm items up to 131°F (55°C). Suitable for warming milk, towels, or other items that require gentle heat.

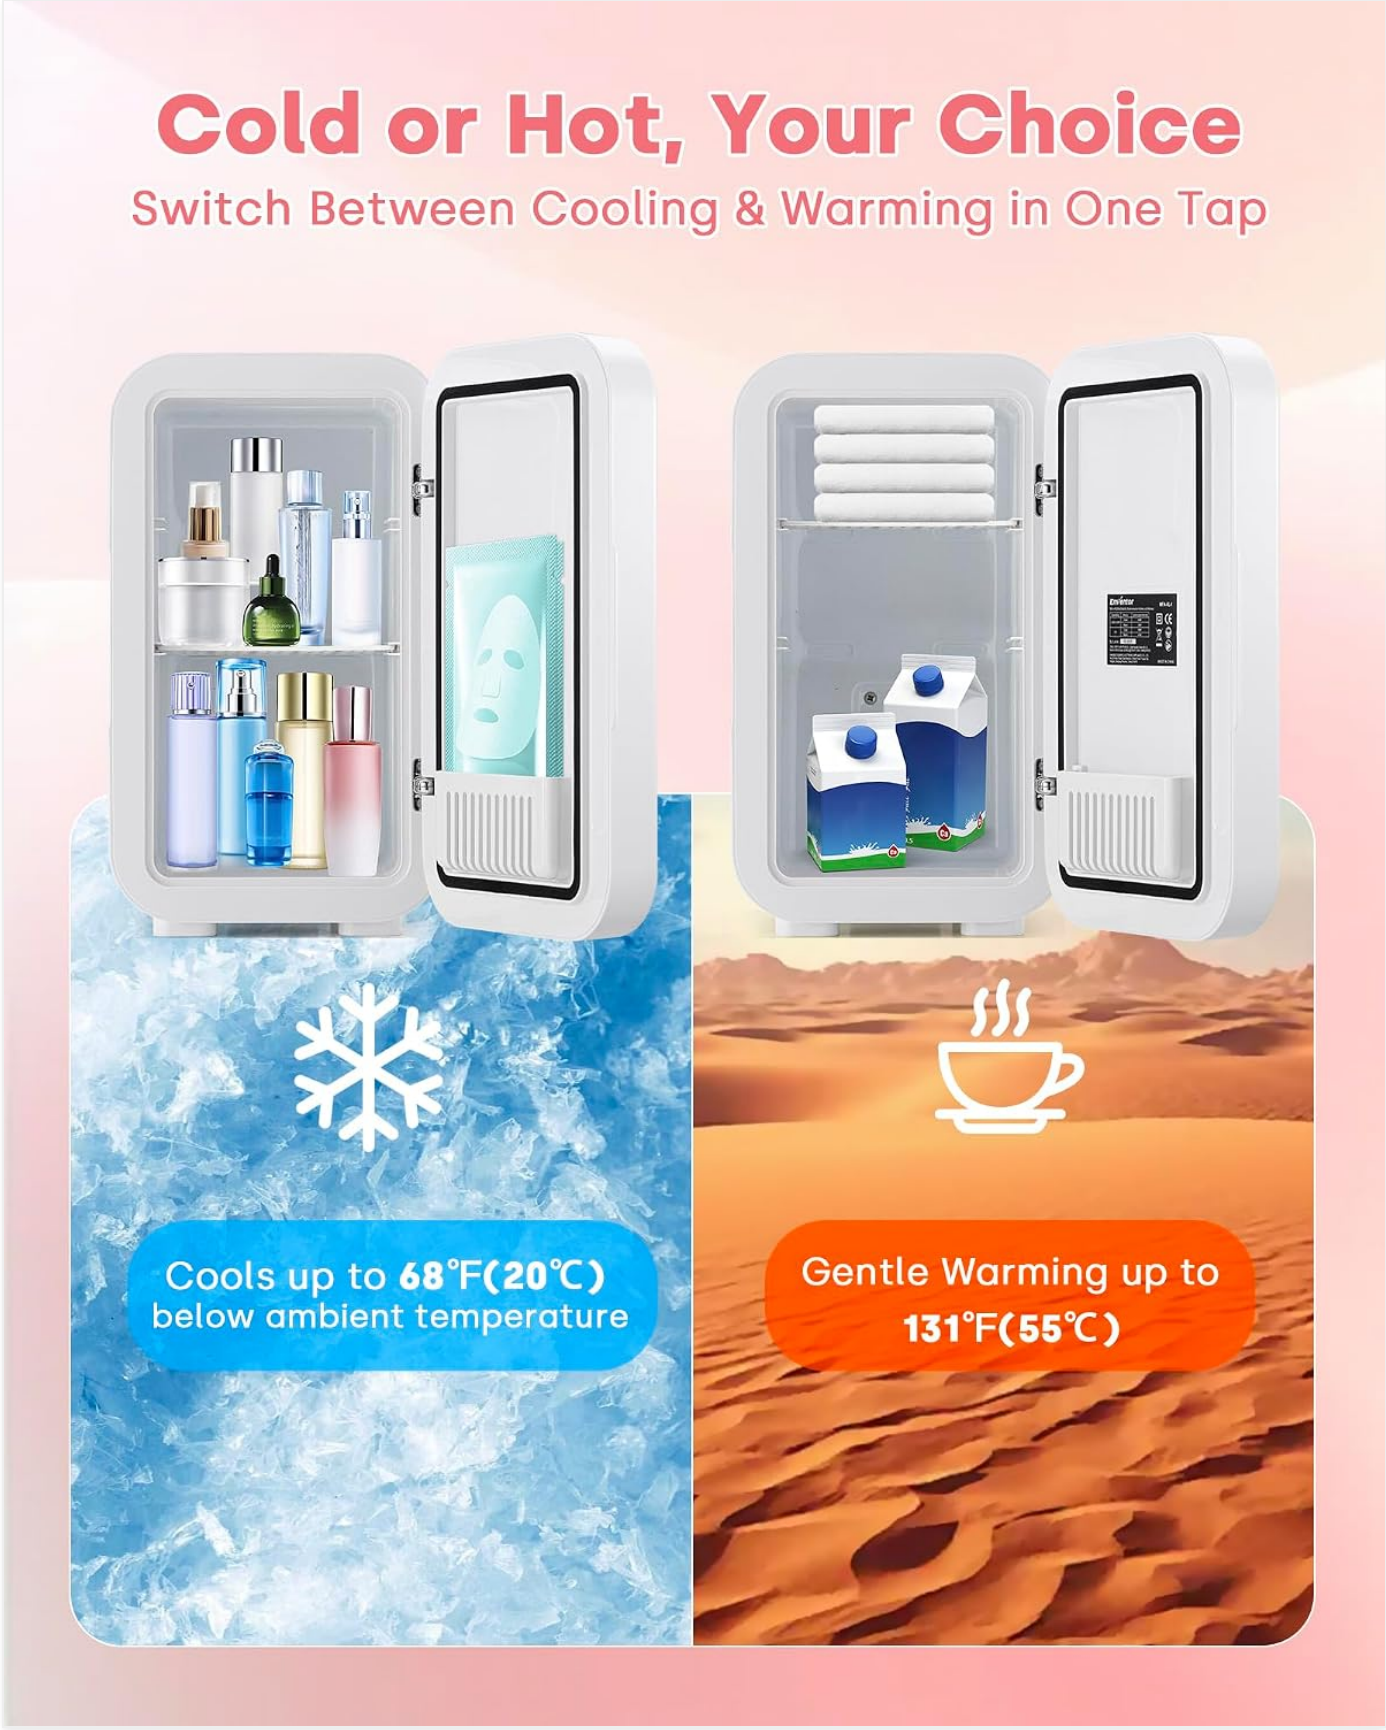

Image: A visual guide demonstrating the cooling function (down to 68°F below ambient) and warming function (up to 131°F).

2. LED Mirror Operation

The built-in HD mirror features a touch-screen LED light with three adjustable brightness levels:

- **To Turn On/Off:** Lightly touch the power icon on the mirror surface.
- **To Adjust Brightness:** Continue to touch and hold the power icon to cycle through low, medium, and high brightness settings. Release when the desired brightness is reached.

Image: The LED mirror light with three adjustable levels: Low for daily use, Medium for skincare time, and High for makeup application.

3. Adjustable Storage

The fridge includes a removable shelf, allowing you to customize the internal space to accommodate various items, from small serums to taller bottles or cans.

- **To Remove/Adjust Shelf:** Gently slide the shelf out of its grooves. Reinsert into desired position.

Maintenance

1. Cleaning

- Always unplug the unit before cleaning.
- Wipe the interior and exterior surfaces with a soft, damp cloth and mild detergent.

- Do not use abrasive cleaners or solvents.
- Ensure the unit is completely dry before plugging it back in.
- Keep the fan and ventilation openings clean and free of dust to ensure efficient operation.

2. Defrosting

This appliance features an automatic defrost system. If ice buildup occurs, unplug the unit and allow the ice to melt naturally. Wipe away any excess water before restarting the fridge.

Troubleshooting

Problem	Possible Cause	Solution
Unit not turning on.	No power supply; power cord not properly connected; power switch in OFF position.	Check power outlet and connections. Ensure the power switch on the back is set to COOL or WARM.
Unit not cooling/warming effectively.	Blocked ventilation; ambient temperature too high; door not closed properly; insufficient time for temperature stabilization.	Ensure ventilation openings are clear. Avoid placing in hot environments. Check door seal. Allow 30 minutes for temperature to stabilize.
LED mirror light not working.	Power not connected; touch sensor not activated.	Ensure the unit is powered on. Lightly touch the power icon on the mirror to activate.
Excessive noise.	Blocked fan; unit not on a stable surface.	Clear any obstructions from the fan. Place the unit on a stable, level surface.

Specifications

Model Name	Mini Fridge
Model Number	MFA-6L-I
Capacity	6 Liters / 0.21 Cubic Feet
Product Dimensions (D x W x H)	11.5"D x 13.5"W x 7"H
Item Weight	6.2 Pounds
Cooling Method	Thermoelectric
Voltage	110 Volts (AC) / 12 Volts (DC)
Defrost System	Automatic
Special Feature	Adjustable Shelves, Dimmable LED Mirror
Material	Glass (Door)
Annual Energy Consumption	100 Kilowatt Hours Per Year
