OPERATING INSTRUCTIONS: EXTENDABLE TABLE

The dining table features an extendable design, allowing it to transition from seating 4 people to 6 people quickly and easily.

Table Extension Steps:

1. **Step 1: Press the Latch.** Locate the safety latches underneath the table on both sides. Press them to unlock the table sections.
2. **Step 2: Pull Open the Top.** Gently pull the two main tabletop sections apart to reveal the hidden extension leaf.
3. **Step 3: Pull Out the Tabletop.** Lift and pull out the central extension leaf from its storage position. Place it securely between the two main tabletop sections.
4. **Step 4: Lock the Safety Lock.** Push the main tabletop sections back together until they are flush with the extension leaf. Engage the safety latches to secure the table in its extended position.

To retract the table, reverse these steps: unlock, separate, fold and store the leaf, then push the main sections together and lock.

MAINTENANCE

Proper care and maintenance will ensure the longevity and appearance of your dining set.

- **Cleaning the Tabletop:** The MDF board tabletop is designed for easy cleaning. Wipe spills immediately with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Cleaning Chairs:** For fabric-cushioned seats, spot clean with a mild fabric cleaner as needed. For metal frames, wipe with a damp cloth.
- **Protection:** Use placemats and coasters to protect the tabletop from scratches and heat damage.
- **Regular Checks:** Periodically check and tighten all screws and bolts to ensure stability.

TROUBLESHOOTING

If you encounter any issues with your dining set, please refer to the following common solutions:

- **Wobbly Table/Chairs:** Ensure all bolts and screws are securely tightened. Check that the product is placed on a level surface.
- **Difficulty Extending/Retracting Table:** Verify that the safety latches are fully disengaged. Check for any obstructions in the extension mechanism. Apply a small amount of silicone lubricant to the tracks if movement is stiff.
- **Scratches/Minor Damage:** For minor scratches on the wood surface, a wood repair marker or polish may be used. Consult a professional for significant damage.
