# Home Centre Addison Shoe Cabinet with Drawers - User Manual

Model: Addison

## 1. INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your Home Centre Addison Shoe Cabinet with Drawers. Please read these instructions carefully before beginning assembly or use to ensure proper function and longevity of the product. Retain this manual for future reference.

## 2. PRODUCT OVERVIEW

The Home Centre Addison Shoe Cabinet is designed for organized shoe storage and entryway functionality. It features a 3-door design, including a central mirrored door, and two integrated drawers for additional storage. The cabinet is constructed from prelaminated engineered wood with a walnut finish.

- **Storage Capacity:** Accommodates approximately 22 pairs of shoes across 12 fixed shelves.
- **Additional Storage:** Two top drawers provide space for smaller items.
- **Integrated Mirror:** A full-length mirror is integrated into the central door.
- **Ventilation:** Mesh ventilation caps are included to promote air circulation within the shoe compartments.

**Figure 1:** Front view of the Home Centre Addison Shoe Cabinet. This image displays the overall design, including the two side doors, the central mirrored door, and the two top drawers.

**Figure 2:** A clean front view of the Home Centre Addison Shoe Cabinet in its closed state, highlighting the walnut finish and the central mirror.

### 3. SAFETY INFORMATION

Adhere to the following safety guidelines during assembly and use:

- **Assembly:** Ensure all components are securely fastened according to the assembly instructions. Loose parts can cause instability.
- **Stability:** For tall furniture, it is recommended to secure the cabinet to a wall using appropriate anti-tip hardware (not included unless specified in package contents) to prevent accidental tipping, especially in households with children or pets.
- **Weight Distribution:** Distribute weight evenly across shelves and drawers. Avoid placing excessively heavy items on the top surface or in a single compartment.
- **Children and Pets:** Keep children and pets away from the assembly area. Small parts can be a choking hazard. Do not allow children to climb on or play with the cabinet.
- **Mirror Care:** Handle the mirrored door with care to avoid breakage. Clean the mirror with a soft, lint-free

cloth and a non-abrasive glass cleaner.

## 4. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact Home Centre customer support.

- Cabinet Panels (Top, Bottom, Sides, Back)
- Door Panels (2 solid, 1 mirrored)
- Drawer Panels and Runners
- Fixed Shelves (12 for shoe compartments)
- Hardware Pack (Screws, dowels, hinges, drawer pulls, ventilation caps, etc.)
- Assembly Instructions (Separate document, if applicable)

## 5. SETUP AND ASSEMBLY

The Home Centre Addison Shoe Cabinet requires assembly. Due to its size and complexity, **carpenter assembly is recommended**. If you choose to assemble it yourself, ensure you have the necessary tools and assistance.

### 5.1 Recommended Tools (Not Included)

- Screwdriver (Phillips head)
- Hammer
- Measuring Tape
- Level

### 5.2 Assembly Steps (General Guidelines)

1. **Unpack and Organize:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided diagrams (if available).
2. **Assemble Base Frame:** Connect the bottom panel to the side panels using the designated hardware.
3. **Install Shelves:** Insert the fixed shelves into their respective slots within the cabinet frame.
4. **Assemble Drawers:** Construct the two drawers and attach the drawer runners. Install the drawers into the cabinet frame.
5. **Attach Doors:** Secure the hinges to the door panels and then attach the doors to the cabinet frame. Adjust hinges as needed for proper alignment.
6. **Install Back Panel:** Fasten the back panel to the cabinet frame.
7. **Final Touches:** Attach door and drawer pulls. Insert ventilation caps into the designated holes.

*Note: Detailed, step-by-step assembly diagrams are typically included with the product hardware. Follow those specific instructions for precise assembly.*

**Figure 3:** Detail of a door hinge. Proper installation and adjustment of hinges are crucial for door alignment and smooth operation.

## **6. OPERATING INSTRUCTIONS**

### **6.1 Storing Shoes**

Open the side doors to access the shoe compartments. Place shoes on the fixed shelves, ensuring they fit within the allocated space. The cabinet is designed to hold approximately 22 pairs of shoes. Utilize the mesh ventilation caps to maintain air circulation and freshness.

**Figure 4:** The shoe cabinet with its doors open, revealing multiple pairs of shoes neatly stored on the internal shelves. This illustrates the internal layout and capacity.

**Figure 5:** A closer view of the shoe shelves, showing various types of footwear organized within the compartments. Note the ventilation holes at the back of each compartment.

## 6.2 Using Drawers

The two top drawers can be used to store smaller items such as shoe care products, keys, or other entryway essentials. Pull the drawer handles gently to open and push to close.

## 6.3 Using the Mirror

The central door features an integrated mirror. Use it for quick checks before leaving your home. Ensure the mirror is clean for optimal reflection.

# 7. MAINTENANCE AND CARE

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, as these can damage the engineered wood finish.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth to prevent dust buildup.
- **Mirror Cleaning:** Clean the mirror with a glass cleaner and a lint-free cloth. Do not spray cleaner directly

onto the mirror; apply it to the cloth first.

- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the wood finish.
- **Humidity Control:** Maintain a stable room temperature and humidity level to prevent warping or cracking of the wood.

## 8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cabinet is wobbly or unstable.	Loose fasteners; uneven floor.	Check and tighten all assembly screws. Ensure the cabinet is on a level surface; use shims if necessary. Consider securing to a wall.
Doors do not close properly or are misaligned.	Hinges are loose or improperly adjusted.	Adjust the screws on the hinges to align the doors. Refer to hinge adjustment guides if unfamiliar. Tighten hinge screws.
Drawers stick or do not slide smoothly.	Drawer runners are misaligned or dirty; overloaded drawer.	Check that drawer runners are correctly installed and free of debris. Lightly lubricate runners with silicone spray if needed. Reduce drawer contents.
Scratches or minor damage to surface.	Accidental impact or abrasion.	For minor scratches, use a furniture repair marker or wax stick that matches the walnut finish.

## 9. SPECIFICATIONS

Feature	Detail
Model Name	Addison
Brand	Home Centre
Product Dimensions (D x W x H)	40D x 120W x 120H Centimeters
Material	Engineered Wood
Color	Walnut
Number of Doors	3 (1 mirrored, 2 solid)
Number of Drawers	2

Feature	Detail
Number of Shelves	15 (including internal compartments)
