

## Trueque KC213

# Trueque KC213 Wireless Ergonomic Keyboard and Mouse Combo User Manual

Model: KC213

## INTRODUCTION

---

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Trueque KC213 Wireless Ergonomic Keyboard and Mouse Combo. Please read this guide thoroughly to ensure optimal performance and longevity of your device.

## SETUP GUIDE

---

### 1. Package Contents

Before you begin, ensure all items are present in the package:

- Wireless Keyboard
- Wireless Mouse
- USB Receiver (stored inside the mouse)
- User Manual

# WIDE COMPATIBILITY

Windows / Chrome OS / Mac OS

PC

Laptop

Desktop

TV

## 2. Battery Installation

1. **For the Keyboard:** Locate the battery compartment on the underside of the keyboard. Open the cover and insert two (2) AAA batteries (not included), ensuring correct polarity. Close the battery compartment cover.
2. **For the Mouse:** Locate the battery compartment on the underside of the mouse. Open the cover and insert one (1) AA battery (not included), ensuring correct polarity. Close the battery compartment cover.

## ADVANCED 2.4GHz WIRELESS CONNECTION

One USB dongle connects both the keyboard and mouse to your laptop with reliable, long-range wireless technology.

*Image: Detailed diagram illustrating the insertion of AAA batteries into the keyboard and an AA battery into the mouse.*

### 3. USB Receiver Connection

1. The USB receiver is stored in the battery compartment of the mouse. Carefully remove it.
2. Plug the USB receiver into an available USB port on your computer, laptop, or compatible device.
3. The system will automatically detect and install the necessary drivers. No additional software installation is required.

**2 In 1**  
Plug & Play

**33Ft**  
Wireless Range

**NO DELAYS, NO DROPOUTS**

**One USB receiver** connects both the keyboard and mouse

*Image: The compact USB receiver shown plugged into a laptop, enabling wireless connectivity for both devices.*

#### 4. Power On

Ensure the power switch on both the keyboard and mouse is in the "ON" position. The devices are now ready for use.

## Integrated Phone/Tablet Holder

A built-in cradle on the keyboard allows you to prop up your smartphone or tablet (under 11.9 inches) at an optimal viewing angle. This feature helps keep your devices visible for notifications or media consumption while working.

*Image: A smartphone securely positioned in the keyboard's integrated holder, illustrating its practical use.*

## Multimedia and Shortcut Keys

The keyboard includes 6 commonly used hotkeys for quick access to functions like browsing web pages, opening the calculator, and media controls. The mouse features 6 buttons, including forward/backward functions, to enhance navigation efficiency.

## IMPROVE WORK EFFICIENCY

## Indicator Lights

The keyboard features indicator lights for Num Lock, Caps Lock, and Power. The power light will blink to indicate low battery status.

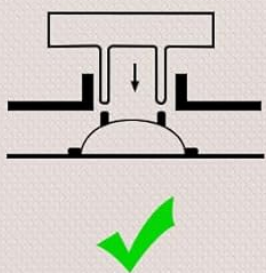

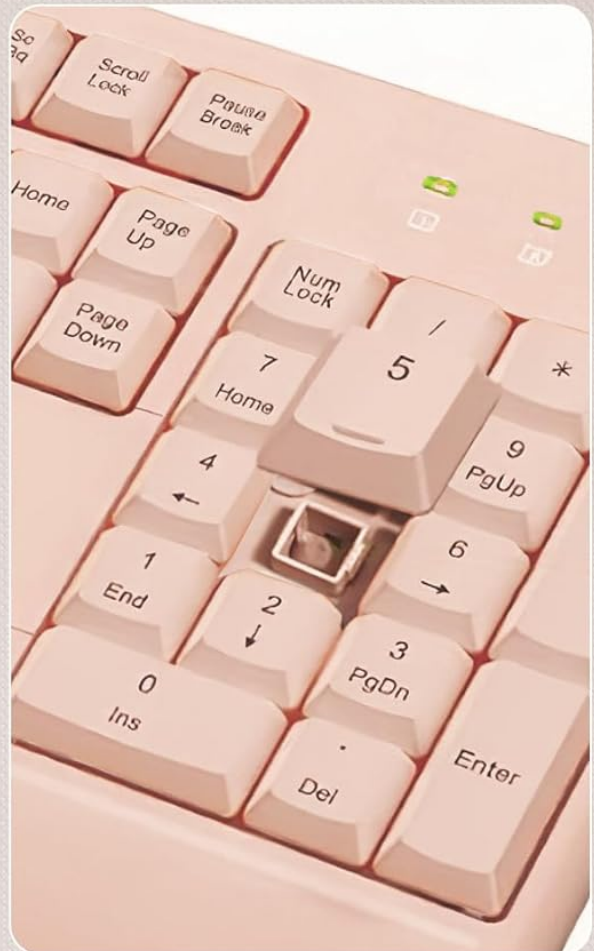

## COMPATIBILITY

The Trueque KC213 Wireless Ergonomic Keyboard and Mouse Combo is compatible with a wide range of operating systems, including Windows, Chrome OS, and Mac OS. It can be used with PCs, laptops, and other compatible devices.

### QUIET & EFFORTLESS TYPING

Thin keycaps respond faster and produce less noise

## MAINTENANCE

### Cleaning

To clean your keyboard and mouse, use a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the surface. Ensure the devices are powered off before cleaning.

### Battery Replacement

When the power indicator light on the keyboard blinks, or if the devices become unresponsive, it's time to replace the batteries. Follow the battery installation steps in the Setup Guide.

## TROUBLESHOOTING

- **No Connection/Unresponsive Devices:**
  - Ensure both the keyboard and mouse are powered on.
  - Check that the USB receiver is securely plugged into a working USB port on your device.
  - Replace the batteries in both the keyboard and mouse if they are low.
  - Try plugging the USB receiver into a different USB port.
  - Ensure the devices are within the 33ft wireless range of the USB receiver.
- **Typing/Clicking Delays:**
  - Ensure there are no obstructions between the devices and the USB receiver.
  - Move closer to the USB receiver to improve signal strength.
  - Check for potential interference from other 2.4GHz wireless devices.
- **Mouse Cursor Jumps/Erratic Movement:**
  - Clean the mouse sensor on the underside of the mouse.
  - Use the mouse on a clean, non-reflective surface.
  - Adjust the DPI setting of the mouse to a lower sensitivity if needed.
