

GYMAX UB65563FR

GYMAX Metal Poultry Enclosure (Model UB65563FR)

Instruction Manual

1. PRODUCT OVERVIEW

The GYMAX Metal Poultry Enclosure provides a secure and spacious habitat for various small animals, including chickens, ducks, rabbits, and dogs. Constructed from durable galvanized metal and featuring a waterproof Oxford fabric cover, this enclosure is designed for long-term outdoor use, offering protection from weather elements and predators.

Key Features:

- **Spacious Design:** Measures 280 x 190 x 195 cm (L x W x H), offering ample space for multiple animals.
- **Durable Construction:** Made from fully galvanized metal for excellent rust resistance and robustness.
- **Enhanced Stability:** Features a triangular structure for increased stability.
- **Weather Protection:** High-quality Oxford fabric cover with silver coating provides protection against sun, rain, snow, and debris.
- **Secure Access:** Equipped with a lockable door (55 x 170 cm) for easy entry and exit, and a robust dip-coated metal mesh to prevent escapes and protect against predators.
- **Easy Assembly:** Comes with clear instructions and complete accessories for straightforward setup.
- **Ground Stakes:** Includes ground stakes to firmly secure the enclosure.

2. SAFETY INSTRUCTIONS

Please read and understand all safety instructions before assembling and using the poultry enclosure. Failure to follow these instructions may result in injury or damage to the product.

- Always assemble the enclosure on a flat, stable surface.
- Ensure all connections are securely fastened before placing animals inside.
- Regularly inspect the enclosure for any signs of damage, wear, or loose parts.
- Keep children and pets away from the assembly area during installation.
- Do not climb on or lean against the enclosure.
- Ensure the cover is properly secured to prevent it from being blown away by strong winds.
- Check for sharp edges or protrusions that could harm animals or users.
- This enclosure is designed for small to medium-sized animals. Do not use it for animals that may damage the structure or escape.

3. SETUP AND ASSEMBLY

The GYMAX Metal Poultry Enclosure is designed for straightforward assembly. Refer to the included PDF instruction manual for detailed diagrams and step-by-step guidance. A general overview of the assembly process is provided below.

3.1. Unpacking and Part Identification

- Carefully unpack all components from the packaging.
- Verify that all parts listed in the parts list (refer to the PDF manual) are present and undamaged.
- Lay out all components on a clean, flat surface.

3.2. Frame Assembly

- Begin by assembling the base frame using the provided connectors and bolts.
- Attach the vertical support poles to the base frame.
- Connect the arched roof sections to form the top structure. Ensure all triangular supports are correctly installed for stability.
- Secure all frame connections tightly with the provided hardware.

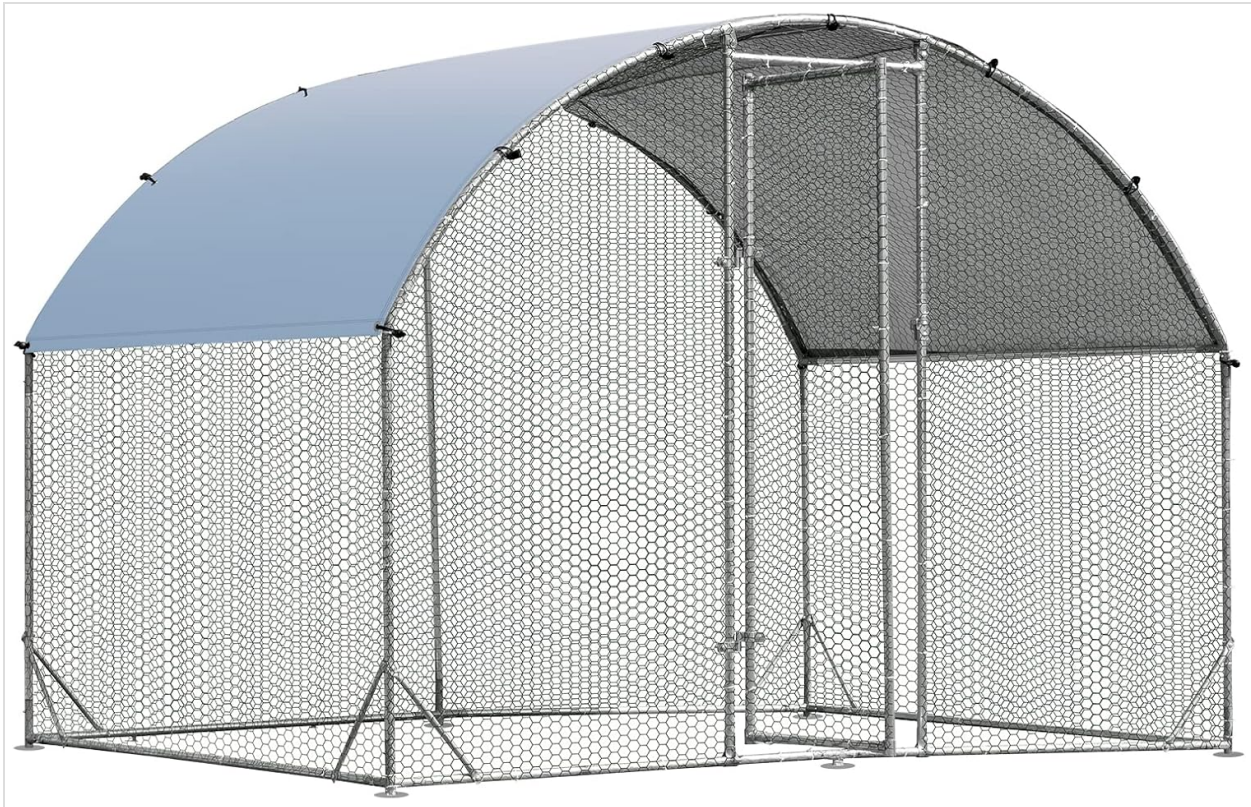

Image 3.1: Illustration of the assembled metal frame structure.

3.3. Mesh Installation

- Unroll the metal mesh and attach it to the assembled frame.
- Use the provided fasteners (e.g., zip ties, clips) to secure the mesh tightly to all frame components, ensuring there are no gaps where animals could escape or predators could enter.
- Pay special attention to the door area, ensuring the mesh is properly integrated around the door frame.

3.4. Door Installation

- Install the pre-assembled door into the designated opening in the frame.
- Ensure the hinges are properly aligned and the door swings freely.
- Attach the locking mechanism and test its functionality to ensure secure closure.

3.5. Cover Attachment

- Drape the Oxford fabric cover over the arched roof section of the enclosure.
- Align the cover so it provides maximum protection.
- Use the elastic cords with buckles to securely fasten the cover to the frame, ensuring it is taut and resistant to wind.

3.6. Securing to the Ground

- Once the enclosure is fully assembled, use the included ground stakes to firmly anchor the base frame to the ground. This enhances stability and prevents the enclosure from shifting or being overturned by strong winds or animal activity.

4. OPERATING INSTRUCTIONS

4.1. Animal Placement

- Before introducing animals, ensure the enclosure is fully assembled, secure, and free from any hazards.
- Provide adequate food, water, and shelter (if not fully covered by the roof) within the enclosure.
- Monitor animals closely during their initial time in the enclosure.

4.2. Door Usage

- The large, lockable door allows for easy entry and exit for feeding, cleaning, and animal care.
- Always ensure the door is securely locked when not in use to prevent animals from escaping and to protect against predators.

4.3. Cover Adjustment

- The Oxford fabric cover can be easily attached or removed using the elastic cords and buckles.
- Adjust the cover as needed to provide optimal shade or protection from rain and snow, depending on weather conditions.

5. MAINTENANCE

Regular maintenance will extend the lifespan of your GYMAX Metal Poultry Enclosure and ensure the safety and well-being of your animals.

5.1. Cleaning

- Regularly clean the interior of the enclosure to maintain hygiene for your animals.
- The metal frame and mesh can be wiped down with a damp cloth and mild detergent. Rinse thoroughly.
- The Oxford fabric cover can be cleaned with water and a soft brush. Allow it to air dry completely before reattaching or storing.

5.2. Inspection

- Periodically inspect all frame connections, bolts, and fasteners to ensure they remain tight. Tighten any loose hardware.
- Check the metal mesh for any damage, tears, or weak points that could compromise security. Repair or replace damaged sections promptly.
- Examine the Oxford fabric cover for rips, tears, or signs of wear. Replace the cover if its protective qualities are compromised.
- Ensure the door latch mechanism is functioning correctly and provides a secure closure.
- Verify that ground stakes are firmly in place, especially after strong winds or heavy rain.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your poultry enclosure.

6.1. Enclosure Feels Unstable

- **Solution:** Ensure all bolts and connectors in the frame are tightened securely. Verify that the triangular support structures are correctly installed. Check that the ground stakes are fully inserted into the ground and providing adequate anchorage.

6.2. Animals Attempting to Escape

- **Solution:** Inspect the entire mesh for any gaps, holes, or loose sections. Ensure the mesh is tightly secured to the frame. Confirm the door is fully closed and the locking mechanism is engaged.

6.3. Cover Blowing Off in Wind

- **Solution:** Ensure all elastic cords and buckles are securely fastened to the frame. The cover should be taut. If winds are exceptionally strong, consider adding additional tie-downs or temporarily removing the cover.

6.4. Rust Appears on Metal Parts

- **Solution:** While the frame is galvanized for rust resistance, prolonged exposure to harsh conditions or damage to the coating can lead to rust. Clean any rust spots with a wire brush and apply a rust-inhibiting primer and paint suitable for galvanized metal.

7. SPECIFICATIONS

Brand:	GYMAX
Model Number:	UB65563FR
Overall Dimensions (L x W x H):	280 x 190 x 195 cm (2.8 x 1.9 x 1.95 meters)
Door Dimensions (L x H):	55 x 170 cm
Material:	Galvanized Metal, Oxford Fabric
Color:	Silver

Net Weight:	24 kg
Components Included:	1 x Poultry Enclosure, 1 x Instruction Manual
Specific Use:	Outdoor use for poultry, rabbits, ducks, dogs, etc.
Special Feature:	Waterproof cover
