COTOE G7

COTOE Bluetooth Headset V5.3 User Manual

Model: G7

1. INTRODUCTION

Thank you for choosing the COTOE Bluetooth Headset V5.3. This wireless earpiece is designed for comfort and clarity, featuring a noise-canceling microphone and a long-lasting charging case. This manual provides detailed instructions to help you get the most out of your new headset.

The COTOE Bluetooth Headset G7, shown with its charging case and various ear tip sizes.

2. WHAT'S IN THE BOX

- COTOE Bluetooth Headset G7
- Wireless Charging Case (500mAh)
- USB-C Charging Cable
- Multiple Eartip Sizes
- User Manual

3. PRODUCT FEATURES

3.1. LED Digital Display & Long Standby Time

The charging case features a smart LED display that indicates the charging status of the headset and the power level of the case. Enjoy up to 120 hours of standby time and 12 hours of music playback with the charging case.

Long Battery Life

120H

50H
With Charging Case

12H
Music Time

10H
Talking Time

The headset and charging case offer extended battery life, with the case displaying the charge status.

3.2. Noise Canceling Microphone (ENC)

The upgraded G7 Wireless Headset is equipped with a noise cancellation microphone that effectively eliminates up to 99.98% of ambient noise, ensuring clear communication even in noisy environments.

ENC Noise Cancellation

COTOE

Blocks out **96%** of background noise

The ENC noise-canceling microphone ensures crystal-clear calls by reducing background noise.

3.3. Mute Design

A dedicated mute button on the earpiece allows for quick and private muting during phone calls. (Note: Mute function is only active during phone calls).

One ButtonMute

COTOE

Individual buttons make the mute on-call management easier

The headset features a convenient one-button mute for privacy during calls.

3.4. Comfortable & Ergonomic Design

Designed for extended wear, the in-ear part rotates 45 degrees, the ear hook rotates 360 degrees, and the mic handle rotates 180 degrees, allowing for a perfect fit on either the left or right ear. It comes with three different ear tip sizes for enhanced comfort.

Comfortable & Ergonomic Design

COTOE

Fit perfect both L/R ears

The headset's adjustable design ensures a comfortable and secure fit for various ear shapes.

3.5. Advanced Bluetooth 5.3 Chip

Equipped with Bluetooth V5.3, the headset offers more stable connections, lower power consumption, longer distance, and lower latency for a superior wireless experience.

Advanced Chip 5.3

COTOE

More stable connections with lower power consumption

Bluetooth 5.3 technology provides a reliable and efficient wireless connection.

3.6. Wide Compatibility

The headset supports dual connectivity and is compatible with iOS, Android phones, computers, PCs, and any Bluetooth-enabled devices.

4. SETUP

4.1. Charging the Headset and Case

1. Place the headset into the charging case. Ensure it is properly seated for charging.
2. Connect the USB-C charging cable to the charging port on the case and plug the other end into a compatible USB power source.
3. The LED digital display on the case will show the current charge level. A full charge is indicated by 100%.

4.2. Pairing with Your Device

1. Ensure the headset is charged and powered on.
2. On your device (smartphone, tablet, PC), go to Bluetooth settings and enable Bluetooth.
3. Search for available devices. The headset should appear as "G7".
4. Select "G7" to pair. Once connected, you will hear an audio prompt confirming successful pairing.
5. For dual connectivity, repeat the pairing process with a second device.

4.3. Wearing the Headset

The headset is designed for a comfortable and secure fit. Adjust the ear hook and mic arm to suit your preference:

- The in-ear part can rotate 45 degrees to fit your ear canal.
- The ear hook can rotate 360 degrees to fit either your left or right ear.
- The mic handle can rotate 180 degrees to position the microphone optimally near your mouth for clear audio transmission.
- Choose the appropriate eartip size for a snug and comfortable fit.

The headset is versatile and can be comfortably worn on either ear.

5. OPERATING INSTRUCTIONS

The headset features multi-functional buttons for easy control:

Operation Manual

Refer to the diagram for a visual guide to the headset's controls.

5.1. Power On/Off

- **Power On:** Long press the Multi-function Button (MFB) until the indicator light flashes.
- **Power Off:** Long press the MFB until the indicator light turns off.

5.2. Call Management

- **Answer/Hang up Call:** One tap on the MFB.
- **Reject Call:** Tap and hold the MFB for 2 seconds.
- **Mute/Unmute:** One tap on the Mute button during a call.

5.3. Audio Control

- **Volume Up:** One tap on the Volume + button.
- **Volume Down:** One tap on the Volume - button.
- **Next Song:** Long press the Volume + button.
- **Previous Song:** Long press the Volume - button.

5.4. Voice Assistant (Siri)

- **Activate Siri:** One tap on the Mute button (when not on a call).

6. MAINTENANCE

6.1. Cleaning

Regularly clean the eartips and the headset's surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials. Ensure no moisture enters the charging port or speaker openings.

6.2. Storage

When not in use, store the headset in its charging case to protect it from dust and damage. Store in a cool, dry place away from extreme temperatures.

6.3. Battery Care

To prolong battery life, avoid fully discharging the headset and charging case frequently. Charge them regularly, even if not in constant use.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Headset won't turn on	Low battery	Charge the headset and charging case fully.
Cannot pair with device	Bluetooth off; headset not in pairing mode; device too far	Ensure Bluetooth is on, headset is in pairing mode, and devices are within range. Restart both devices.
Poor audio quality	Interference; low battery; improper fit	Move closer to the device; charge headset; adjust fit and eartip size.
Mute button not working	Not on a call	The mute function is only active during an ongoing phone call.
