6. MAINTENANCE

6.1. Fabric Care (Velvet)

- **Regular Cleaning:** Vacuum the velvet fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can damage the velvet pile. For stubborn stains, use a mild, water-free solvent or dry-cleaning product specifically designed for velvet. Test on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading.

6.2. Frame and Mechanism Care

- **Wipe Down:** Periodically wipe the metal frame and wooden components with a soft, damp cloth. Dry immediately.
- **Lubrication:** If the conversion mechanism becomes stiff, apply a small amount of silicone-based lubricant to the moving parts.
- **Check Fasteners:** Periodically check and tighten all screws and bolts to ensure stability.

7. TROUBLESHOOTING
