Linique Queen Size Murphy Bed with Sofa and Top Shelf

Model: B0DZTGQFX3

1. SAFETY INFORMATION

Please read and understand all safety warnings and instructions before assembly and use of this product. Failure to follow these instructions may result in injury or product damage.

- **Weight Capacity:** Do not exceed the maximum weight capacity of 600 lbs for the bed.
- **Pinch Points:** Exercise extreme caution around moving parts, especially the folding mechanism, to avoid pinch points during conversion.
- **Assembly:** Follow all assembly instructions carefully. Incorrect assembly can lead to instability and potential hazards.
- **Wall Mounting:** This Murphy bed must be securely anchored to a wall. Ensure the wall structure is suitable for supporting the unit's weight.
- **Children and Pets:** Keep children and pets away from the unit during assembly and conversion.

2. SETUP AND ASSEMBLY

The Linique Queen Size Murphy Bed with Sofa and Top Shelf requires assembly. All necessary tools and detailed instructions are included in the packaging. We recommend two adults for assembly.

2.1 Unpacking and Preparation

- Carefully unpack all components and verify against the parts list provided in the manual.
- Lay out all parts on a clean, soft surface to prevent scratches.
- Keep all hardware organized and within reach.

2.2 Assembly Steps

Refer to the included assembly manual for step-by-step instructions. Pay close attention to the following critical areas:

- **Frame Construction:** Assemble the main frame components first, ensuring all connections are

secure.

- **Wall Mounting:** Securely attach the unit to a sturdy wall using appropriate hardware. This is crucial for safety and stability.
- **Piston Mechanism:** The dual piston metal folding mechanism requires precise installation. Follow the instructions carefully for smooth and safe operation. This step may require significant effort.
- **Sofa and Shelves:** Attach the sofa components and top shelves as directed. Ensure all cushions are properly placed.
- **Mattress Support:** The bed is equipped with supporting wooden slats. A spring box is not required.

3. OPERATING INSTRUCTIONS

This section details how to convert your Linique Murphy Bed between its sofa and bed configurations.

3.1 Converting from Sofa to Bed

1. Ensure the area in front of the sofa is clear of obstructions.
2. Gently pull the handles located on the front panel of the bed frame.
3. As the bed frame begins to lower, guide it smoothly downwards. The dual piston mechanism will assist in this motion.
4. Once the bed is fully extended, flip down the support legs to ensure stability.
5. Place your Queen size mattress (recommended thickness 6-8 inches) onto the wooden slats.

3.2 Converting from Bed to Sofa

1. Remove all bedding and the mattress from the bed frame.
2. Fold up the support legs.

3. Grasp the handles on the bed frame and gently lift the bed upwards. The piston mechanism will assist in lifting.
4. Continue lifting until the bed frame is fully upright and securely latched into the wall unit, forming the back of the sofa.
5. Ensure the sofa cushions are properly aligned.

4. MAINTENANCE

Regular maintenance ensures the longevity and proper function of your Murphy bed.

- **Cleaning:** Wipe wooden and MDF surfaces with a soft, damp cloth. For fabric sofa components, spot clean with a mild detergent and water, or follow specific fabric care instructions. Avoid harsh chemicals.
- **Hardware Check:** Periodically inspect all screws, bolts, and fasteners to ensure they are tight. Re-tighten if necessary.
- **Mechanism Inspection:** Check the dual piston folding mechanism for smooth operation. If you notice any stiffness or unusual noises, consult the troubleshooting section or contact customer support.
- **Shelf Stability:** The top shelves are designed for light items. Avoid placing excessively heavy objects to prevent sagging.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Murphy bed.

Problem	Possible Cause	Solution
Bed is difficult to lift or lower.	Incorrect piston installation; obstructions; loose hardware.	Review assembly instructions for piston mechanism. Ensure no items are obstructing movement. Check and tighten all hardware.
Parts do not align during assembly.	Misaligned components; incorrect orientation of parts.	Double-check part numbers and orientations against the manual. Loosen adjacent connections, realign, and re-tighten.

Problem	Possible Cause	Solution
Shelves are sagging.	Overloaded shelves; loose shelf supports.	Reduce weight on shelves. Ensure shelf supports are securely fastened.
Labels are difficult to remove.	Strong adhesive.	Gently warm the label with a hairdryer on low heat to soften the adhesive, then peel slowly. Remove any residue with a suitable adhesive remover, testing on an inconspicuous area first.
