Setup and Assembly Instructions

Follow these steps to assemble your Keeppley Snorelax Poke-Party Building Block Set:

1. **Prepare the Base:** Begin by assembling the clear blue blocks to form the water-effect base. Ensure these pieces are securely connected to create a stable foundation.
2. **Construct the Island:** Place the brown and green blocks onto the clear base to form the small island or ground where Snorlax will rest.
3. **Assemble the Palm Tree:** Connect the brown trunk pieces for the palm tree, then attach the green leaf elements to the top. Position the completed palm tree on the designated spot on the island base.
4. **Build the Rainbow Arch:** Assemble the colorful blocks to form the rainbow arch. Attach it to the

island structure, ensuring it is stable and arches over the central area.

5. **Place the Snorlax Figure:** Carefully place the Snorlax figure onto the green section of the island, positioning it as if relaxing.

6. **Add Background and Accessories:** Attach the blue sky background piece with the sun and clouds to the rear of the set. Integrate any small accessory pieces, such as the pink float or white flower, into the scene as desired.
