3. PACKAGE CONTENTS

Please check the package contents upon unboxing:

- Redragon M922 PRO Wireless Gaming Mouse
- USB 2.4GHz Wireless Receiver
- USB-C to USB-A Charging/Data Cable
- User Manual

4. SETUP INSTRUCTIONS

4.1. Charging the Mouse

Before first use, it is recommended to fully charge the mouse. Connect the USB-C end of the provided cable to the mouse and the USB-A end to a computer's USB port or a USB wall adapter. The LED indicator on the mouse will show charging status.

4.2. Connecting the Mouse

The M922 PRO offers three connection modes:

TRI-MODE SILKY CONNECTION

1K HZ, Crafted For Top-Tier Battle

 **2.4GHz**
Performance Mode

 **BT**
Efficiency Mode

 **USB-C**
Wired Mode

Image: Diagram illustrating the three connectivity modes: 2.4GHz, Bluetooth, and USB-C wired.

4.2.1. 2.4GHz Wireless Mode (Performance Mode)

1. Locate the USB 2.4GHz receiver, usually stored in a compartment on the bottom of the mouse.
2. Plug the receiver into an available USB port on your computer.
3. Turn on the mouse using the power switch on the bottom and select the 2.4GHz mode (often indicated by a specific switch position or LED color).
4. The mouse should automatically connect to your computer.

4.2.2. Bluetooth Mode (Efficiency Mode)

1. Turn on the mouse and select the Bluetooth mode using the switch on the bottom.
2. On your computer or device, navigate to Bluetooth settings.
3. Initiate the pairing process on the mouse (refer to the mouse's specific button combination for pairing, often a long press of a button or a combination). The LED indicator will typically blink rapidly during pairing.
4. Select "Redragon M922 PRO" from the list of available Bluetooth devices on your computer and complete the pairing.

4.2.3. Wired Mode

1. Connect the USB-C end of the cable to the mouse and the USB-A end to your computer.

2. The mouse will automatically switch to wired mode and begin charging.

5. OPERATING INSTRUCTIONS

5.1. Basic Functions

- **Left Click:** Primary action.
- **Right Click:** Secondary action/context menu.
- **Scroll Wheel:** Scroll up/down, middle click.
- **Side Buttons:** Default functions are typically forward/back in web browsers. These are programmable.

5.2. DPI Adjustment

The mouse features 5 redefinable DPI levels. By default, these are set to 1000/2000/4000/8000/26000 DPI. Use the dedicated DPI button (usually located near the scroll wheel or on the bottom) to cycle through these levels. The LED indicator may change color to signify the current DPI setting.

5.3. Programmable Buttons

The 5 programmable buttons can be customized using the Redragon software. This allows you to assign specific functions, macros, or keybinds to enhance your gaming or productivity.

6. CUSTOMIZATION SOFTWARE

To unlock the full potential of your Redragon M922 PRO mouse, download and install the official Redragon customization software from the Redragon website. The software allows you to:

- Adjust DPI settings from 50 to 26,000.
- Program all 5 buttons with custom functions, macros, or multimedia controls.
- Configure polling rate.
- Manage power settings and battery indicators.

7. BATTERY MANAGEMENT

The M922 PRO is equipped with a 400mAh Lithium Polymer battery. Battery life can exceed 150 hours depending on usage and connection mode (Bluetooth mode generally consumes less power than 2.4GHz

wireless mode).

150+ HRS, 400MAH BATTERY CAPACITY

7.1. Charging

Connect the mouse to your computer using the provided USB-C cable. The mouse can be used while charging in wired mode.

7.2. Battery Indicator

The mouse features an LED indicator that signals battery status. Refer to the software or the product's quick start guide for specific LED patterns indicating low battery or charging status.

8. MAINTENANCE

8.1. Cleaning

To clean your mouse, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the mouse. Avoid harsh chemicals or abrasive materials.

8.2. Storage

When not in use for extended periods, store the mouse in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the mouse is turned off to conserve battery life.

9. TROUBLESHOOTING

Issue	Possible Solution
Mouse not responding (Wireless)	Ensure the mouse is turned on and in the correct wireless mode (2.4GHz or Bluetooth). Check if the USB receiver is properly plugged in. Recharge the mouse if the battery is low. Try pairing again for Bluetooth.
Mouse cursor erratic or unresponsive	Clean the optical sensor on the bottom of the mouse. Ensure you are using the mouse on a suitable surface (not highly reflective or transparent). Adjust DPI settings.
Buttons not functioning as expected	Check the customization software for button assignments. Reset settings to default if necessary.
Poor wireless connection/lag	Move the mouse closer to the receiver. Avoid interference from other wireless devices. Ensure the receiver is not blocked by metal objects.
Mouse not charging	Ensure the USB-C cable is securely connected to both the mouse and the power source. Try a different USB port or cable.

10. SPECIFICATIONS

Feature	Detail
Model Number	M922
Connectivity	2.4GHz Wireless, Bluetooth, USB-C Wired
Sensor	PAW 3395 Optical Sensor
DPI Range	50 - 26,000 (Customizable)
Default DPI Levels	1000/2000/4000/8000/26000
Acceleration	50G
Tracking Speed	650 IPS
Switches	Huano (50 Million Clicks)
Programmable Buttons	5
Battery Capacity	400mAh Lithium Polymer
Item Weight	51g (approx. 1.8 oz)
Dimensions	9.76 x 6.1 x 1.85 inches (Package)
