## 5. MAINTENANCE

## 5.1 Cleaning the Print Head

To ensure optimal print quality, regularly clean the print head:

- Turn off the printer and disconnect the power cable.
- Open the printer cover.
- Gently wipe the print head with a cotton swab lightly dampened with isopropyl alcohol.
- Allow the print head to dry completely before closing the cover and turning on the printer.

## 5.2 General Care

- Keep the printer in a clean, dust-free environment.
- Avoid exposing the printer to direct sunlight, high temperatures, or excessive humidity.
- Use only high-quality thermal paper recommended for the iDPRT MT610 Pro.
- Do not use sharp objects to clean the interior of the printer.

# 6. TROUBLESHOOTING

---

## 6.1 Common Issues and Solutions

### • No Power:

- Ensure the printer is fully charged or connected to a power source.
- Check the USB-C cable connection.

### • Poor Print Quality (Faint/Blurry):

- Clean the print head as described in the Maintenance section.
- Ensure you are using compatible thermal paper.
- Adjust print density settings in your printer preferences or app.

### • Paper Jam:

- Turn off the printer immediately.
- Open the cover and carefully remove any jammed paper.
- Ensure paper is loaded correctly and the paper guides are adjusted to the paper width.

### • Cannot Connect via Bluetooth:

- Ensure Bluetooth is enabled on both the printer and your mobile device.
- Make sure the printer is within range of your device.
- Restart both the printer and your mobile device.
- Ensure the "HerePrint" app is installed and updated.

### • Driver Installation Issues:

- Verify you downloaded the correct driver for your operating system from the official iDPRT website.
- Temporarily disable antivirus software during installation if it interferes.
