## PRODUCT OVERVIEW

The UYIKOO BGL13 glasses integrate a high-definition camera into a discreet, wearable design. Key features include:

- **Full HD 1080p Video Recording:** Capture clear videos at 1920 x 1080 pixels.
- **Photo Capture:** Take high-resolution JPEG photos.
- **Integrated 64GB Memory:** Comes with a 64GB Micro SD card, expandable up to 256GB (Class 10 recommended).
- **Rechargeable Battery:** Built-in lithium-ion battery provides up to 75 minutes of continuous recording on a full charge. Supports recording while charging.
- **One-Button Operation:** Simple control for recording videos and taking photos.
- **Lightweight and Durable:** Constructed from high-quality ABS plastic for comfort and longevity.
- **Loop Recording:** Automatically overwrites older files when the memory card is full, ensuring continuous recording.

## SETUP

1. **Charge the Device:** Before first use, fully charge the glasses. Connect the USB charging cable to the glasses and a power source (e.g., computer USB port or USB wall adapter). The indicator light will show charging status (refer to the LED indicator section for details).
2. **Insert Micro SD Card:** Locate the Micro SD card slot on the glasses. Gently insert the provided 64GB Micro SD card into the slot until it clicks into place. Ensure the card is inserted correctly to avoid damage. The glasses support up to 256GB Micro SD cards (Class 10 recommended for optimal performance).

## OPERATING INSTRUCTIONS

### Power On/Off

- **Power On:** Press and hold the ON/OFF button for approximately 2 seconds until the indicator light illuminates.
- **Power Off:** Press and hold the ON/OFF button for approximately 3-5 seconds until the indicator light turns off.

### Video Recording

- **Start Recording:** With the device powered on, press and hold the ON/OFF button for 2 seconds. The indicator light will flash, indicating that video recording has started.
- **Stop Recording:** Press the ON/OFF button once. The indicator light will change, and the video file will be saved.

## Fácil de Usar

**Un Botón  
para Grabar Vídeo**  
*pulsa el botón ON/OFF  
durante 2 segundos  
para grabar vídeos*

**Un Botón para  
Fotografiar**  
*pulsa el botón ON/OFF  
una vez para hacer  
una foto*

## Photo Capture

- **Take a Photo:** With the device powered on, press the ON/OFF button once. The indicator light will flash briefly, indicating that a photo has been taken and saved.

### Connecting to a Computer

- **Transfer Files:** Connect the glasses to your computer using the provided USB cable. The device will be recognized as a removable disk. You can then access and transfer your video and photo files.
- **Compatibility:** Compatible with both Windows and macOS operating systems.

### CHARGING

The UYIKOO BGL13 glasses feature a built-in rechargeable lithium-ion battery. To charge:

- Connect the USB charging cable to the charging port on the glasses and a standard USB power source.
- The indicator light will typically show red during charging and turn blue (or off) when fully charged. Refer to the specific LED indicator behavior in your detailed manual for precise information.
- A full charge provides approximately 75 minutes of continuous recording.
- The device supports recording while charging, allowing for extended use when connected to a power

bank or wall adapter.

## MEMORY CARD MANAGEMENT

---

- **Storage Capacity:** The glasses come with a 64GB Micro SD card. This provides ample space for numerous video and photo files.
- **Expansion:** For increased storage, the device supports Micro SD cards up to 256GB. Ensure to use a Class 10 or higher speed card for reliable recording.
- **Loop Recording:** When the memory card is full, the device will automatically overwrite the oldest files with new recordings. This ensures continuous operation without manual deletion of files.
- **Formatting:** It is recommended to format the Micro SD card periodically to maintain optimal performance and prevent data corruption. This can usually be done via your computer.

# Batteria Ricaricabile, Scheda Micro SD da 64G

*Batteria integrata, scheda di memoria da 64 G, supporto per la registrazione in loop, nessuna preoccupazione per l'esaurimento della batteria e dello spazio.*

Image: Micro SD card slot and battery indicator.

## Grabación en Bucle Sin Interrupciones, Nunca Deja de Grabar Imágenes Nítidas HD 1080P

*Cuando la tarjeta micro SD está llena, el vídeo más reciente sobrescribirá el más antiguo, nunca se perderá ningún momento importante*

## MAINTENANCE

- **Cleaning:** Use the provided cleaning cloth to gently wipe the lenses and frame. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the glasses in the provided storage case when not in use to protect them from dust, scratches, and impacts.
- **Temperature:** Avoid exposing the device to extreme temperatures, direct sunlight, or high humidity.
- **Water Exposure:** The glasses are not waterproof. Avoid contact with water or other liquids.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery; device frozen.	Charge the battery fully. Use the reset pin to press the reset button if the device is unresponsive.
Cannot record video/take photos.	No Micro SD card; Micro SD card full or corrupted; incorrect operation.	Ensure Micro SD card is inserted correctly. Check available space or format the card. Refer to operating instructions for correct button presses.
Computer does not recognize the device.	Faulty USB cable; driver issue; incorrect connection.	Try a different USB port or cable. Ensure the glasses are powered on when connecting. Restart your computer.
Poor video/photo quality.	Dirty lens; insufficient lighting; rapid movement.	Clean the camera lens with the provided cloth. Ensure adequate lighting conditions. Minimize sudden movements during recording.
