Lamicall TC-082C20G

Lamicall Travel 3-in-1 Wireless Charging Station User Manual

MODEL: TC-082C20G

Introduction

Thank you for choosing the Lamicall Travel 3-in-1 Wireless Charging Station. This compact and versatile device is designed to efficiently charge your iPhone (MagSafe compatible), Apple Watch, and AirPods simultaneously, making it an ideal companion for travel and daily use. Featuring an upgraded cooling system and a foldable design, it ensures safe and convenient power delivery for your Apple ecosystem.

Setup

What's Included

Your Lamicall Travel 3-in-1 Wireless Charging Station package includes:

- Lamicall Foldable 3-in-1 Station
- 20W PD Power Adapter
- 59-inch (1.5m) USB-C Cable
- User Manual

EXCELLENT COMPATIBILITY

Wireless fast charging for your Apple Devices

7.5W-15W Fast Charging for iPhone

iPhone 12/13/14/15/16 Series

Connecting to Power

1. Connect the provided USB-C cable to the USB-C port on the charging station.
2. Plug the other end of the USB-C cable into the 20W PD Power Adapter.
3. Insert the power adapter into a wall outlet. The indicator lights on the charging station will briefly illuminate.

Folding and Unfolding

The charging station features a foldable design for portability. To unfold, gently extend the MagSafe charging pad upwards and pull out the Apple Watch charging module and AirPods charging pad. To fold,

reverse the process, ensuring all components are securely tucked away for compact storage.

Operating Instructions

Charging Your iPhone

Place your MagSafe-compatible iPhone onto the upright magnetic charging pad. The strong magnets will instantly align your iPhone for optimal charging. The stand supports both portrait and landscape modes, perfect for FaceTime or watching videos while charging.

Note: When charging your Watch, remember to unfasten the silicone band to avoid any contact issues that could interfere with charging.

Charging Your Apple Watch

Extend the Apple Watch charging module and place your Apple Watch onto the magnetic charging surface. For a flush magnetic connection, it is recommended to unfasten watch bands. The charging station is compatible with Apple Watch Series 1-11, Apple Watch Ultra, and Apple Watch SE.

Charging Your AirPods

Place your AirPods (with wireless charging case) onto the designated charging pad. The station is compatible with AirPods Pro 3/2 and AirPods 4/3/2.

Indicator Lights

The charging station features indicator lights for each device. These lights will illuminate when a device is placed on its respective charging pad and will turn off automatically after 5 seconds to ensure a dark, restful night's sleep without light pollution.

Maintenance

Cleaning

To maintain optimal performance and appearance, regularly wipe the charging station with a soft, dry cloth. Avoid using abrasive cleaners or solvents that may damage the surface.

Storage

When not in use or for travel, fold the charging station into its compact form. Store it in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

- **Device not charging:** Ensure the charging station is properly connected to the power adapter and wall outlet. Check for any obstructions between your device and the charging pad. Verify that your device is wirelessly charging compatible.
- **Apple Watch not charging properly:** Make sure to unfasten watch bands for a flush magnetic connection to the charging module.
- **Overheating:** The charging station is equipped with an advanced cooling system, including a built-in heat-dissipating metal plate and smart temperature control. If you experience excessive heat, ensure proper ventilation around the device.
- **Magnetic connection issues:** The MagSafe charging pad is not recommended for use with third-party accessories such as card wallets, cases with metal rings, or ring holders, as these may interfere with the magnetic connection and charging efficiency.
- **Indicator lights:** If indicator lights do not illuminate, check the power connection. Remember, lights turn off after 5 seconds during normal operation.
