SETUP GUIDE

1. Placement

Position the projector on a stable, flat surface. Ensure there is adequate ventilation around the unit. The distance from the screen or wall will determine the image size. Adjust the projector's angle using its stand for optimal projection.

2. Power Connection

1. Connect the UL Approved Power Adaptor to the DC IN port on the projector.
2. Plug the power adaptor into a standard electrical outlet.
3. The power indicator light should illuminate.

3. Connecting Input Sources

The EVP-2002 offers multiple input options:

- **HDMI:** Connect an HDMI cable from your source device (e.g., laptop, game console, streaming stick) to the HDMI port on the projector.
- **USB:** Insert a USB flash drive into the USB port to play media files directly.
- **3.5mm Audio:** Connect external speakers or headphones using a 3.5mm audio cable to the AUX OUT port.

OPERATING INSTRUCTIONS

1. Power On/Off

- To power on, press the Power button on the projector or the remote control.
- To power off, press the Power button again. The projector will enter standby mode.

2. Adjusting Focus

Rotate the focus ring located near the lens until the projected image appears clear and sharp.

3. Source Selection

Use the "Source" button on the remote control or the projector's control panel to cycle through available input sources (HDMI, USB, etc.).

4. Bluetooth Connectivity

1. Ensure Bluetooth is enabled on your external audio device (e.g., speaker, headphones).
2. On the projector, navigate to the Bluetooth settings (refer to on-screen menu if available, or press the dedicated Bluetooth button if present).
3. Select your device from the list of available devices to pair.
4. Once paired, audio will be routed through the connected Bluetooth device.

Multiple Input Options for Easy Connectivity

This projector supports HDMI, USB, and 3.5mm audio inputs, compatible with game consoles, Blu-ray players, cable boxes, and streaming devices.

5. Media Playback (USB)

1. Insert a USB flash drive containing compatible media files into the USB port.
2. Select "USB" as the input source.
3. Navigate through the folders and files using the remote control or projector buttons.
4. Select a file to begin playback.

Private Listening

Whether watching late at night or preferring a quiet environment, enjoy your media privately and without distraction through Bluetooth® or 3.5mm input.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector.

1. Cleaning the Lens

- Always power off and unplug the projector before cleaning.
- Use a soft, lint-free cloth specifically designed for optical lenses.
- Gently wipe the lens in a circular motion. Avoid harsh chemicals or abrasive materials.
- Replace the lens cover when the projector is not in use to protect it from dust.

2. Cleaning the Projector Body

- Wipe the exterior with a soft, dry cloth.
- Do not use liquid cleaners or sprays directly on the projector.

3. Ventilation

- Ensure the ventilation vents are not blocked to prevent overheating.
- Periodically check and gently clean any dust accumulation on the vents using a soft brush or compressed air.

TROUBLESHOOTING

If you encounter issues with your projector, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No image projected	Power not connected Incorrect input source selected Source device not powered on or connected	Check power cable and outlet. Select the correct input source (HDMI, USB). Ensure the source device is on and connected properly.
Image is blurry	Focus not adjusted Projector too close/far from screen	Rotate the focus ring until the image is sharp. Adjust projector distance for optimal image size and clarity.
No sound	Volume too low or muted Incorrect audio output selected Bluetooth device not paired	Increase volume on projector and source device. Check mute settings. Ensure audio output is set to internal speakers or correct external device. Re-pair Bluetooth audio device.
Projector overheats	Blocked ventilation vents Operating in a hot environment	Ensure vents are clear and unobstructed. Operate in a well-ventilated area.

SPECIFICATIONS

Feature	Detail
