WOLTU SKS57gr

WOLTU SKS57gr Recliner Chair Instruction Manual

Model: SKS57gr | Brand: WOLTU

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your WOLTU SKS57gr Recliner Chair. Please read all instructions carefully before use to ensure safe and proper functionality. Keep this manual for future reference.

SAFETY INFORMATION

Important Safety Precautions

- Ensure all parts are correctly assembled and tightened before initial use.
- Do not exceed the maximum weight capacity of **150 kg (330 lbs)**.
- Keep hands and feet clear of moving parts, especially the reclining mechanism and footrest, during operation.
- Avoid standing on the chair or using it as a step stool.
- Keep children and pets away from the chair during assembly and operation to prevent injury.
- Place the chair on a level, stable surface to prevent tipping.

PACKAGE CONTENTS

Please verify that all components listed below are present and undamaged before beginning assembly. If any parts are missing or damaged, contact customer support.

- Backrest (1x)
- Seat Base with Armrests (1x)
- Footrest Mechanism (pre-assembled with seat base)
- Chair Legs (4x)
- Assembly Hardware Kit (screws, washers, Allen key)
- Instruction Manual (1x)

ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your recliner chair. An illustrated manual and numbered accessories are provided for ease of assembly.

Step 1: Attach the Legs

Carefully turn the seat base upside down. Attach the four legs to the designated corners of the base using the provided screws. Ensure they are tightened securely. The legs are designed to protect your floor.

Pies protectores robustos

Los 4 pies protectores de alta calidad protegen el suelo al mover la silla

Step 2: Connect the Backrest

Align the metal brackets on the backrest with the corresponding slots on the seat base. Slide the backrest down firmly until it clicks into place. Ensure both sides are securely connected.

Video: This video demonstrates the quick and easy assembly of a similar recliner chair, including attaching the legs and sliding the backrest into place. It highlights the simple process for setting up the chair.

OPERATING INSTRUCTIONS

Reclining the Chair

To recline, gently push back against the backrest. The footrest will elevate simultaneously. Continue to lean back until you reach your desired position. The chair offers multiple reclining levels for various activities such as reading, watching TV, or resting.

Versatile Uses

Image: An image illustrating the three main reclining positions: upright for reading/writing (100°), partially reclined for watching series (135°), and fully reclined for resting (160°).

Video: This video demonstrates the smooth reclining mechanism of a similar chair, showing how to adjust the backrest and footrest by simply leaning back.

Returning to Upright Position

To return to the upright position, lean forward and apply slight pressure to the footrest with your legs. The footrest will retract, and the backrest will return to its original position.

MAINTENANCE

Care and Cleaning

The chair is upholstered with a water-repellent and easy-to-clean PU material, designed for durability and comfort with high-density sponge and elastic springs.

Image: Cross-section diagram showing the multi-layered construction of the seat cushion with high-density sponge and high elastic spring core.

- For general cleaning, wipe the surface with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these may damage the material.
- Regularly check all screws and connections to ensure they remain tight and secure.
- Protect the chair from prolonged direct sunlight and excessive heat to prevent material degradation and fading.

TROUBLESHOOTING

Common Issues and Solutions

- **Chair does not recline smoothly:** Ensure no objects are obstructing the reclining mechanism. Check that the backrest is fully engaged with the seat base and that all assembly connections are secure.
- **Chair feels unstable or wobbly:** Verify that all four legs are securely attached and tightened. Ensure the chair is placed on a flat, even surface. Adjust the legs if necessary to eliminate wobbling.
- **Unusual noises during operation:** Inspect the reclining mechanism for any loose parts or obstructions. Apply a small amount of silicone lubricant to moving metal parts if squeaking occurs. If the issue persists, contact customer support.

SPECIFICATIONS

Product Specifications
