

QPLAY Elite Pro Trike

QPLAY Elite Pro Trike Toddler Tricycle Instruction Manual

Model: Elite Pro Trike

1. INTRODUCTION

Thank you for choosing the QPLAY Elite Pro Trike. This 2-in-1 toddler tricycle is designed to adapt as your child grows, offering both a parent-push mode for guided rides and an independent riding mode for developing autonomy. Suitable for children aged 2 to 6 years, it features a durable carbon steel frame, all-terrain EVA wheels, an adjustable push handle, and a convenient storage basket.

This manual provides essential information for the safe assembly, operation, and maintenance of your QPLAY Elite Pro Trike. Please read it thoroughly before use and retain it for future reference.

2. SAFETY INFORMATION

Your child's safety is paramount. Adhere to the following guidelines:

- **Adult Supervision:** Always supervise children while they are using the tricycle, especially younger children, to ensure safe and proper use.
- **Proper Assembly:** Before each use, ensure all parts are correctly assembled and securely fastened according to this manual. Verify that wheels, seat, and handlebars are tight.
- **Weight Limit:** Do not exceed the tricycle's maximum weight limit of 25 kg (55 lbs). Overloading can compromise stability and safety.
- **Traffic Avoidance:** Do not ride in busy traffic areas, on public roads, or near motor vehicles. Use in safe, open spaces away from hazards.
- **Protective Gear:** Always ensure the child wears a helmet and appropriate protective gear (e.g., knee and elbow pads) when riding.
- **Environmental Conditions:** Avoid using the tricycle on steep inclines, uneven surfaces, or near water bodies.

3. PACKAGE CONTENTS

Upon opening the package, please verify that all components are present and undamaged:

- QPLAY Elite Pro Trike (Main Frame, Wheels, Seat, Handlebars, Pedals)
- Adjustable Push Handle with Cup Holder
- Rear Storage Basket
- Assembly Hardware and Tools (if applicable)
- Instruction Manual

4. ASSEMBLY AND SETUP

Follow these steps to assemble your QPLAY Elite Pro Trike. It is recommended that an adult performs the assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Attach Front Wheel and Handlebars:** Secure the front wheel assembly to the main frame. Insert the handlebars into the steering column and tighten any securing mechanisms. Ensure the handlebars are aligned correctly.
3. **Install Rear Wheels:** Attach the two rear wheels to the axle. Ensure they are firmly in place and rotate freely.
4. **Mount Seat:** Position the seat onto the frame and secure it.
5. **Attach Pedals:** Screw the pedals into the crank arms. Note that pedals are often left (L) and right (R) specific and thread in opposite directions.
6. **Install Push Handle:** Insert the adjustable push handle into the designated slot at the rear of the tricycle. Secure it with the locking mechanism. Attach the cup holder to the push handle.
7. **Attach Storage Basket:** Clip or secure the storage basket to the rear of the tricycle.
8. **Final Check:** Before first use, double-check all bolts, screws, and connections to ensure they are tight and secure.

5. OPERATING INSTRUCTIONS

5.1. Parent-Push Mode

In this mode, an adult guides the tricycle using the adjustable push handle. This is ideal for younger children (2-3 years) who are still learning to pedal or steer. The child can rest their feet on the pedals or footrests (if available) while being pushed.

- Ensure the push handle is securely locked in place.
- Adjust the push handle height for comfortable adult operation.
- Guide the tricycle smoothly, allowing the child to get accustomed to the movement.

5.2. Independent Riding Mode

Once your child is confident in pedaling and steering, the push handle can be removed to allow for independent riding. This mode helps foster independence and develops motor skills.

- To convert, unlock and remove the push handle.
- Ensure the child can comfortably reach the pedals and steer the handlebars.
- Always supervise the child, especially during initial independent rides.

Outdoor Fun

Parent Push Mode

Equipped with a height - adjustable push handle, parents can help guide the child during rides, it's great for toddlers who aren't ready to pedal or steer alone, providing a safe and fun experience for both child and parent.

Indoor Play

Independent Triking Mode

This mode is very useful for developing your children's independence and confidence while learning to ride the tricycle.

6. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your QPLAY Elite Pro Trike.

- **Cleaning:** Wipe down the tricycle with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners. Dry thoroughly after cleaning.
- **Inspections:** Periodically check all nuts, bolts, and fasteners to ensure they are tight. Inspect wheels for wear and tear.
- **Storage:** Store the tricycle in a dry, covered area away from direct sunlight and extreme temperatures to prevent material degradation.
- **Lubrication:** If any moving parts (e.g., wheel axles, pedal mechanisms) become stiff, apply a small amount of silicone-based lubricant.

7. TROUBLESHOOTING

If you encounter issues with your QPLAY Elite Pro Trike, refer to the following common problems and solutions:

- **Tricycle feels unstable:** Ensure all assembly points are securely tightened. Check that the wheels are properly attached and not wobbly. Verify the child's weight does not exceed the maximum limit.
- **Pedals are stiff or not turning:** Check for any obstructions around the pedals or crank arms. Ensure pedals are correctly threaded and tightened. Apply a small amount of lubricant if necessary.
- **Push handle is loose:** Re-engage the locking mechanism on the push handle. If it continues to be loose, inspect the connection point for damage.
- **Wheels are noisy:** Inspect wheels for debris or damage. Clean the wheel axles and apply lubricant if needed.

If the problem persists or is not listed here, please contact QPLAY customer support.
