

## Zuphte Base and Holder 6

# Zuphte Car Phone Holder User Manual

Model: Base and Holder 6

## 1. PRODUCT OVERVIEW

The Zuphte Car Phone Holder is designed to provide a secure and convenient mounting solution for your mobile phone in Ford Ranger T9 and Everest models from 2023 to 2025. It ensures your phone is accessible for navigation and calls without obstructing vehicle controls.

Key advantages of this product include:

- Unobstructed access to phone functions, buttons, and charging interface.
- Easy one-hand placement and removal of the phone.
- Simple installation and removal without damaging your car's interior.
- Quiet operation, free from abnormal noise even on bumpy roads.
- Adjustable height for optimal viewing angles.
- Strong adhesive properties for enhanced stability.

## 2. SETUP AND INSTALLATION

Follow these steps to properly install your Zuphte Car Phone Holder:

1. **Identify Components:** Ensure you have all parts: the base, the universal ball head, the bracket nut, and the mobile phone holder.
2. **Prepare Mounting Surface:** Clean the dashboard area where the base will be installed. Ensure it is free of dust and grease for optimal adhesion.
3. **Attach Universal Ball Head to Base:** Securely attach the universal ball head to the designated slot on the base component.
4. **Attach Phone Holder to Ball Head:** Loosen the bracket nut on the mobile phone holder, place it over the universal ball head, and then tighten the nut to secure the holder. This allows for angle adjustment.
5. **Install Base in Vehicle:** Carefully position the base onto the dashboard, ensuring it aligns with the contours of your

Ford Ranger T9 or Everest (2023-2025 model). Apply firm pressure to ensure the adhesive (if applicable) or clips engage properly.

6. **Adjust Holder Angle:** Once the base is secure, adjust the angle of the phone holder to your preferred viewing position and tighten the bracket nut to lock it in place.

### 3. OPERATING INSTRUCTIONS

Using your Zuphte Car Phone Holder is simple and designed for one-handed operation:

1. **Opening the Holder:** Press the release button or gently push the bottom support of the holder. The arms will automatically spring open, ready to receive your phone.
2. **Placing Your Phone:** With the arms open, carefully place your mobile phone into the holder. Ensure it rests securely on the bottom support.
3. **Securing Your Phone:** Gently push the phone down slightly. The arms will automatically clamp around your phone, securing it firmly in place within one second.
4. **Removing Your Phone:** To remove your phone, simply press the release button or gently push the bottom support

again. The arms will open, allowing you to lift your phone out.

## 4. MAINTENANCE

To ensure the longevity and optimal performance of your Zuphte Car Phone Holder, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the holder and base periodically with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the material and finish.
- **Check Connections:** Occasionally check that the bracket nut and any other adjustable parts are securely tightened to maintain stability.
- **Adhesive Care (if applicable):** If your base uses adhesive, avoid frequent removal and re-installation, as this can weaken the adhesive bond.

- **Storage:** If you remove the holder for an extended period, store it in a clean, dry place away from direct sunlight and extreme temperatures.

## 5. TROUBLESHOOTING

If you encounter any issues with your Zuphte Car Phone Holder, refer to the following common problems and solutions:

| Problem                               | Possible Cause                                        | Solution                                                                                                                                      |
|---------------------------------------|-------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Phone not holding securely.           | Holder arms not fully clamping; phone case too bulky. | Ensure phone is properly seated. Remove bulky phone case if necessary. Check for obstructions in the clamping mechanism.                      |
| Holder feels wobbly or unstable.      | Base not securely attached; bracket nut loose.        | Re-check base installation, ensuring firm pressure or proper clip engagement. Tighten the bracket nut connecting the holder to the ball head. |
| Abnormal noise from the holder.       | Loose components.                                     | The product is designed for quiet operation. Ensure all parts are securely fastened. If noise persists, contact customer support.             |
| Difficulty placing or removing phone. | Mechanism obstruction; improper technique.            | Ensure no debris is blocking the arms. Follow the one-hand operation instructions carefully.                                                  |

If the problem persists after attempting these solutions, please contact customer support for further assistance.
