4. CARE AND MAINTENANCE

- **Upholstered Parts:** For general cleaning, use a soft brush or vacuum cleaner with an upholstery attachment. For spills, gently spot clean with a damp cloth and a mild, pH-neutral detergent. Blot, do not rub. Allow to air dry completely. Avoid harsh chemicals or abrasive cleaners.
- **Metal and Wood Components:** Wipe surfaces with a dry or slightly damp cloth to remove dust and dirt. Do not use excessive moisture.
- **Drawer Mechanism:** Periodically inspect the drawer pulleys and clips. Clear any accumulated dust or debris to ensure smooth operation.
- **Slats:** Regularly check that all wooden slats are properly seated and secured within their plastic snap locks. This maintains optimal mattress support and prevents potential noise.
- **Weight Capacity:** Adhere strictly to the maximum weight capacity of 1000 lbs. Overloading can compromise the structural integrity of the frame and void the warranty.
