ASSEMBLY INSTRUCTIONS

Assembly is required. Follow the step-by-step instructions provided in the separate assembly guide included with your product. It is recommended to have two people for assembly.

Key Assembly Features:

- **Removable Divider:** The internal divider can be installed to create two separate compartments or removed for a single large space.
- **Storage Drawers:** Two functional drawers are integrated into the design for storing pet supplies or other household items.
- **Secure Latches:** Each door is equipped with a secure latch mechanism.

OPERATING INSTRUCTIONS

Using the Removable Divider

The crate is designed with a removable central divider. To install or remove the divider, follow the specific steps in your assembly guide. When installed, it creates two separate compartments suitable for two medium-sized dogs or smaller. When removed, it forms one large space for a large dog or for more interactive play.

Using the Storage Drawers

The two integrated drawers provide convenient storage. Pull the knobs to open the drawers. These are ideal for storing pet food, toys, leashes, or other accessories, helping to keep your living space tidy.

How to Measure Your Dog for a Crate:

Step 1: Measure Length

1. Ensure that your dog is standing on all four feet.
2. Measure from the tip of its nose to the base of its tail.

Step 2: Measure Height

1. Have your dog sit down.
2. Measure from the top of its head to the floor.

Warm Tips:

Please follow these instructions to confirm your pet's size before purchase for optimal accommodation.

MAINTENANCE

To maintain the appearance and longevity of your dog crate furniture, follow these simple guidelines:

- **Cleaning:** Wipe surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or water damage to the wood.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Re-tighten as necessary.
- **Placement:** Avoid placing the crate in direct sunlight or near heat sources to prevent warping or fading.

TROUBLESHOOTING

- **Difficulty during assembly:** Ensure you are following the assembly instructions precisely. Some steps may require careful alignment. Do not overtighten screws initially; hand-tighten all connections before final tightening.

- **Doors not closing properly:** Check that the crate is assembled squarely and that the latches are aligned. Adjust hinges if necessary.
- **Crate feels unstable:** Verify that all screws are fully tightened. Ensure the crate is placed on a flat, level surface.
- **Pet chewing on crate:** This crate features an anti-bite structural design. However, if your pet exhibits excessive chewing, consider using chew deterrents or providing alternative chew toys.
