JZSTARINGE AV2310AE, RV2310AE, UR2360S

JZSTARINGE Replacement Filter User Manual for Shark Matrix Robot Vacuum Cleaners

Models: AV2310AE, RV2310AE, RV2320S, UR2350AE, RV2300S, UR2360S

1. Introduction

This manual provides essential instructions for the installation and maintenance of JZSTARINGE replacement filters for your Shark Matrix Robot Vacuum Cleaner. Regular replacement of filters is crucial for maintaining optimal cleaning performance and air quality.

2. Package Contents

Your package includes the following items:

- 2 x HEPA Filters

Image: Two JZSTARINGE replacement HEPA filters, highlighting their identical design and construction.

3. Compatibility

These replacement filters are compatible with the following Shark Matrix Robot Vacuum Cleaner models:

- Shark AV2310AE Matrix
- Shark RV2310AE Matrix
- Shark RV2320S
- Shark UR2350AE
- Shark RV2300S Matrix Plus
- Shark UR2360S

Note: These filters are NOT compatible with Shark RV2300 model.

4. Installation Instructions

Follow these steps to replace the filter in your Shark Matrix Robot Vacuum Cleaner:

1. Turn off your robot vacuum and place it on a flat surface.
2. Locate the dust bin on your vacuum cleaner.
3. Remove the dust bin from the vacuum.
4. Open the dust bin to access the old filter.
5. Carefully remove the old filter. Dispose of it properly.
6. Insert the new JZSTARINGE HEPA filter into the designated slot in the dust bin. Ensure it is seated correctly.
7. Close the dust bin and reinsert it into the robot vacuum until it clicks into place.
8. For optimal performance, ensure the filter is installed with the correct orientation as shown in the product details.

Video Guide: Filter Handling

[redacted]

Video: This video demonstrates the unboxing and handling of a replacement filter, providing a visual guide for its inspection and

preparation for installation.

5. Maintenance

To ensure the longevity and effectiveness of your filters, consider the following maintenance tips:

- **Regular Cleaning:** The filters are washable and reusable. Gently tap off loose dirt or rinse them under running water. Ensure they are completely dry before reinstallation to prevent damage to the vacuum.
- **Replacement Frequency:** For optimal performance, it is recommended to replace the filter every 3-6 months. This frequency may vary depending on your usage habits and the presence of pets or high dust levels in your home.

Video: This video provides an overview of various replacement parts for Shark robot vacuums, including filters, side brushes, and roller brushes, which can be helpful for general maintenance.

6. Specifications

Brand	JZSTARINGE
Model Info	AV2310AE, RV2310AE, UR2360S
Compatible Devices	Shark Robot Vacuum Cleaner (Specific models listed above)

Material Type	Plastic
Item Weight	6.7 ounces
Product Dimensions	1"L x 1"W x 1"H (Individual filter dimensions: 6.69 inches x 5.11 inches)
Reusability	Reusable

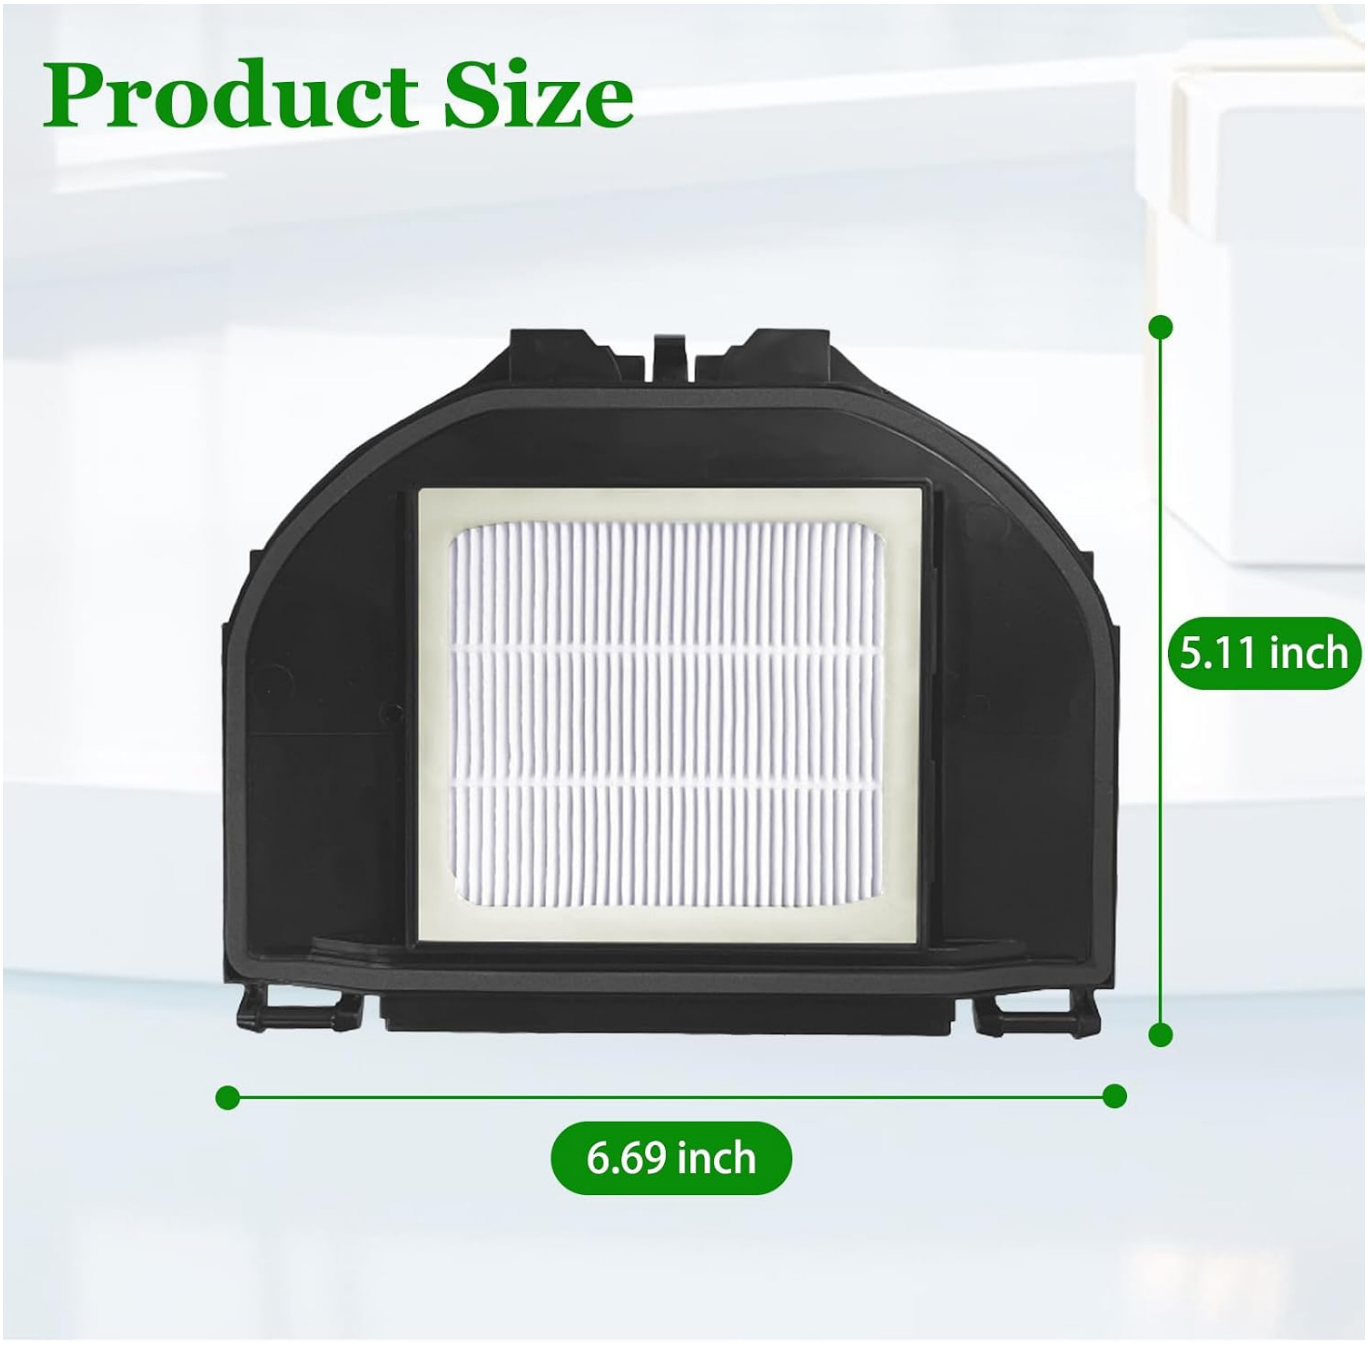

Image: This image provides the precise dimensions of the replacement filter, showing a length of 6.69 inches and a height of 5.11 inches, aiding users in verifying fit.

7. Troubleshooting

If you encounter issues with your replacement filters, consider the following:

- **Reduced Suction:** Ensure the filter is clean and dry. A clogged or wet filter can significantly reduce vacuum performance. Verify the filter is correctly installed and sealed within the dust bin.
- **Filter Not Fitting:** Double-check the compatibility list to ensure you have the correct filter for your specific Shark

Matrix model. Refer to the product dimensions provided.

- **Unusual Noises:** If the vacuum makes unusual noises after filter replacement, ensure all components, including the dust bin and filter, are securely in place.

8. Warranty and Support

For any questions regarding your JZSTARINGE replacement filters, please contact the seller directly through the platform where the purchase was made. Specific warranty details may vary and are typically provided by the seller at the time of purchase.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
