Button Functions:

- **Power Button:** Press and hold to turn on/off. Short press to lock/unlock buttons.
- **Volume +/-:** Adjusts playback volume.
- **Play/Pause:** Starts or pauses music playback.
- **Previous Track / Rewind:** Short press for previous track. Long press to rewind current track.
- **Next Track / Fast Forward:** Short press for next track. Long press to fast forward current track.
- **Music Mode / FM Mode Switch:** Toggles between music playback and FM radio.
- **BT Mode Button:** Activates Bluetooth pairing mode.
- **Repeat All:** Toggles repeat mode for all tracks.
- **Random All:** Toggles shuffle playback mode.

4. SETUP

4.1 Charging the Device

Before first use, fully charge the MP3 player. Connect the included USB-C cable to the player's charging port and the other end to a USB power adapter (not included) or a computer's USB port. The LED indicator will show charging status.

A full charge typically takes approximately 2 hours.

The graphic features a blue MP3 player centered against a light blue background with radiating lines. Behind the player, the number '180' is written in large white font, with 'mAh' to its right. Below the player are three icons in circles: a battery icon, a music note icon, and a Bluetooth icon. Under each icon is a text label: '2H Full Charge', '21H Music Playback', and '9.5H Bluetooth Play'.

4.2 Loading Music Files

The AGPTEK A53PL has 64GB of internal storage for your music files.

1. Connect the MP3 player to your computer using the provided USB-C cable.
2. The player will appear as a removable disk drive on your computer.

3. Drag and drop your desired music files (MP3, APE, FLAC, ACELP formats supported) into the player's storage.
4. Once files are transferred, safely eject the device from your computer before disconnecting the cable.

4.3 OTG Transmission (Android Devices)

The player supports OTG transmission for direct file transfer from compatible Android smartphones.

1. Ensure your Android phone supports OTG functionality.
2. Connect the MP3 player to your Android phone using an OTG adapter (not included) and the USB-C cable.
3. Your phone will recognize the MP3 player as external storage, allowing you to transfer files directly.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

To power on the device, press and hold the Power button until the LED indicator lights up. To power off, press and hold the Power button again until the LED indicator turns off.

5.2 Music Playback

1. Ensure earphones are connected to the 3.5mm headphone jack.
2. Turn on the device. It will automatically enter Music Mode or resume from the last played mode.
3. Use the Play/Pause button to start or pause playback.
4. Use the Previous/Next Track buttons to navigate between songs. Long press to rewind or fast forward.
5. Adjust volume using the Volume +/- buttons.
6. Use the "Repeat All" button to cycle through repeat modes (e.g., repeat one, repeat all, normal).
7. Use the "Random All" button to enable or disable shuffle playback.

Image: A person wearing headphones and smiling, indicating enjoyment of high-fidelity music playback from the AGPTEK A53PL MP3 Player.

5.3 FM Radio

1. Connect wired earphones, as they act as the FM antenna.
2. Press the Music Mode/FM Mode Switch button to enter FM Radio mode.
3. The player will automatically search for available stations.
4. Use the Previous/Next Track buttons to switch between saved stations.
5. Adjust volume using the Volume +/- buttons.

FM Auto Search

Listen to the Voice of Life

5.4 Bluetooth Connection

The AGPTEK A53PL supports Bluetooth 5.3 for wireless audio playback with headphones or speakers.

1. Ensure your Bluetooth headphones or speaker are in pairing mode.
2. Press the BT Mode button on the MP3 player. The LED indicator will blink slowly (green) to indicate pairing mode.
3. The player will automatically search for and connect to the last paired device if available.
4. If connecting to a new device, the player will attempt to pair with nearby Bluetooth audio devices.
5. Once connected, the LED indicator will stop blinking.

Note: The player supports Bluetooth speakers and headphones only. It does NOT connect to smartphones or other non-audio Bluetooth devices.

Bluetooth 5.3

Note:

1. If the last paired device is available, the player reconnects automatically (green LED blinks slowly)
2. Support Bluetooth speakers & headphones only. NOT for phones.

6. MAINTENANCE

- Keep the device dry. Moisture can damage electronic components.
- Avoid extreme temperatures.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or cleaning solvents.
- Store the device in a clean, dust-free environment when not in use.
- Avoid dropping or subjecting the device to strong impacts.

7. TROUBLESHOOTING

Device will not power on:

- Ensure the device is fully charged. Connect it to a power source and allow it to charge for at least 10 minutes before attempting to power on again.
- If the device is unresponsive, try resetting it by pressing and holding the Power button for an extended period (e.g., 10-15 seconds).

Cannot transfer files to the player:

- Ensure the USB-C cable is securely connected to both the player and the computer.
- Try a different USB port on your computer.
- Verify that the player is recognized as a removable disk drive by your computer.
- Check if the player's internal storage is full.

Bluetooth connection issues:

- Ensure your Bluetooth headphones/speaker are in pairing mode and within range.
- Make sure the MP3 player's BT Mode is activated (green LED blinking slowly).
- Confirm that the Bluetooth device you are trying to connect is an audio output device (headphones or speaker), not a smartphone or other device.
- Try turning off and on both the MP3 player and the Bluetooth audio device.

No sound during playback:

- Check the volume level on the MP3 player and any connected headphones/speakers.
- Ensure wired headphones are properly plugged into the 3.5mm jack.
- If using Bluetooth, verify that the device is successfully paired and connected.
- Test with different headphones or speakers to rule out a faulty accessory.

8. SPECIFICATIONS

Feature	Detail
